Telegrams: Cimentfondu, Holb., London

WORKS: WEST THURROCK, ESSEX

WHERE there is no need for mature concrete in an incredibly short time, there is usually no need to use Ciment Fondu. But on all concrete jobs there comes a time when only the ultra rapid hardening of Ciment Fondu will enable you to maintain or even keep ahead of schedule. Then is the time to use the 24-hour strength of Ciment Fondu. Send us your problems or ask for helpful literature.
