DOWNERS GROVE.

Downer's Grove is situated in DuPage county, Illinois 21 miles west of the Union Depot in Chicago, on the main line of the C. & Q. R. R. It is attractively located on rolling ground in the midst of beautiful groves of natural timber, and contains a population of about 2000. Handsome and costly edifices line its shaded streets and groves, and a wide-awake progressive people are its residents. Its religious and educational advantages are of the best, its suburban train service all that could be desired. A first-class system of waterworks is now in operation, also telephone connection with the city. The surrounding country is settled by thrifty farmers who make this their market. Our merchants are bright and enterprising business men, all doing a thriving business. The population of the town has more than doubled in the last few years and many costly buildings are now in the course of construction. A healthy religious atmosphere pervades the community. Saloons are prohibited by law as well as by public sentiment, and we challenge any town in Illinois to compete with us as a place to invest in either a home or a business location.

There seems to be a general feeling of bustle and preparation among our villagers, in preparation for a busy season of building and improvements this spring and summer. We predict a prosperous year for Downers Grove.

Hughes & Gallup have made arrangements to furnish our people in Downers Grove and vicinity with that much desired commodity, pure ice. It is the manufactured ice, and that is the only pure article. Those who use the natural ice at the best, use that that is impure, as our streams and ponds are more or less contaminated with sewerage and other filth. The water used in the manufacture is thoroughly filtered and distilled, and rendered absolutely pure. The manufactured will go farther than the natural, besides being more conveniently handled and packed, as it is made in uniform squares or blocks of even size and symmetrical in shape. Aurora is situated on Fox river, and is a center for a great natural ice producing territory, yet a company was formed there and a plant put in a year or two ago for the manufacture of ice, and so great has been the demand for it that they are putting in machinery for doubling their capacity, in order to supply the demand. Place your orders with Hughes & Gallup for the season. They handle the Aurora pure ice, and will guarantee satisfaction. Prices reasonable.

The Ship of Spring.

Not so very far away
Spring is sighted, so they say,
Loaded low with bud and bloom,
Bearing to us sweet perfume:
Anchored here, far down the bay,
Till the ice shall melt away.
—New York Recorder.

CASS.

We had no sermons Sunday. Rev. Beckett came as usual on the train Saturday afternoon, but fell away unwell, and upon the advice of Mr. G. B. Heartt and Mr. J. F. Smart, took the next train for home.

This is beautiful weather. We have seen a blackbird—it was a crow.

Wanted:—A capable housekeeper. Inquire fourth door from corners.

Last Friday evening gas escaped from the bus-burner at Mr. Jesse Oldfield's, nearly suffocating two of the inmates. Different members of the family have been under the doctor's care for several weeks and have been nursed by the two younger girls, who have worked faithfully night and day. We can little wonder at this accident.

Mr. F. W. Winbolt informs us that a debate and recitations are given every alternate Friday afternoon at the school, and that he would be pleased to have any come in who are interested in school work.

If anyone was disappointed at the "corcus" last Saturday afternoon, it was no half-way disappointment.

Many who have been confined to the house for some time are able to be out in the sunshine. We are thankful to see healthy faces once more. Good health is one of God's most precious gifts, and life is incomplete indeed without it.

Epworth Leaguers report a good meeting Sunday evening, although attendance was small. The leader for the next meeting is Miss Bertha Heartt. All are invited.

Don't Neglect it To-day.
But take home a small bottle (10 doses 10 cents) of Caldwell's Syrup Pepsin for constipation and resulting troubles. None so pleasant to the taste and effective in results. For sale by W. S. Carpenter.

She had been shopping all day, and at dinner the trail of the serpent was still over her: "I saw the sweetest thing in a tea gown this morning," she said; "only \$40, too." "Why, how odd!" he replied. "I saw the sweetest thing in a tea gown, too, this morning at the breakfast table. Cheaper than yours," he went on, with a month-married sort of a smile that made her forget that the boy at her left was fitting for college; "it was had for the asking."—N. Y. Times.

They were standing in the hallway, talking in a low tone, and as the clock struck 11 he remarked to her: "There, now, Elpida, please don't indulge in any repinings over the departure of the old year. Remember the old saying: 'Welcome the coming; speed the parting guest.'" And then in sepulchral tones these words were wafted to them from the upper stairway: "I'll be down there in a moment, young man, to emphasize the last half of that quotation."—Richmond Dispatch.
