A Young Man Stricken With Landry's Paralysis and Yet Retovers.

(From the Times, Philadelphia, Pa.) Stricken with Landry's Paralysis and yet cured. That means but little to the average layman but it means a miracle to a physician. Such is the rare experience of O. E. Dallimore, of Madison,

"Yes, it is true that I had Landry's Paralysis," said Mr. Dallimore to a reporter, "or else the most celebrated physicians of London were mistaken. "It was on the 15th of March, this

year," he continued, "when I was in New York City, that I first felt the symptoms of my trouble. I experienced difficulty in going upstairs, my legs failing to support me. I consulted a physician, who informed me that I had every symptom of Locomotor Ataxia, but as the case developed he pronounced it a case of Landry's Paralysis and knowing the nature of the disease, advised me to start for my home and friends. I gave up my work and on April 1st started for London, Ont. A well-known physician was consulted, but I grew rapidly worse and on Saturday, April 7, several eminent physicians held a consultation on my case and informed me that I was at death's door, having but three to six days to live, still I lingered on, by this time completely paralyzed, my hands and feet being dead, I could hardly whisper my wants and could only swallow liquids, and death would realy have been a welcome visitor.

"Now comes the part that has astounded the physicians. Rev. Mr. Gondy, a clergyman who visited me in my last hours, as he supposed, told me of the marvelous cures of paralysis that had been performed by Dr. Williams' Pink Pills for Pale People. I started to take the pills about April 28 and a week after that felt an improve- sorry, madame, but I don't smoke. ment in my condition. There was a warm, tingling sensution in the limbs that had been entirely dead and I soon began to move my feet and hands, the improvement continued until May 28, when I was taken out of bed for a drive and drove the horse myself. By the first of July I was able to walk upstairs alone and paid a visit to Nia-

Slowly but surely I gained my old health and strength leaving Ontario for New York on Oct. 11 and beginning my work again on Oct. 26, 1894. Cured of Landry's Paralysis in eight months." To confirm his story beyond doubt Mr. Dallimore made affidavit.

Sworn and subscribed before me Dec. AMOS C. RATHBUN. Notary Public. (Seal.) Dr. Williams' Pink Pills contain all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are for sale by all druggists, or may be had by mail from Dr. Williams' Medicine Company. Echenectady, N. Y., for 50 cents per box,

or six boxes for \$2 50. The Capitol.

The Capitol building at Washington, D. C., is the largest building in the United States. The corner stone was laid December 18, 1793, by President Washington, assisted by other Masons. It was partially destroyed by the British in 1814. The present dome was begun in 1855 and finished in 1863. The flag of the United States first floated from it December 12, 1863. The cost of the entire building has been something over \$13,000,000. Its length is 716 feet 4 inches; width, 224 feet. It covers 316 acres of ground. The distance from the ground to the top of the dome is 3071/4 feet; dlameter of the donie, 1351/4 feetputking fifth as to size with the greatest domes in the world.

## New Itining Car Service.

It is a pleasure to note the addition of another important feature to the already competent train service of the Nickel Plate Road. The Dining Car service of this popular low rate line has recently been augmented, by which dinner will be served on train No. 6, leaving Chicago at 2 p. m. daily, and breakfast and dinner on train No. 2, leaving Chicago dally at 9:20 p. m. with direct connections for New York and Boston. Breakfast and dinner will be served on train No. 5, arriving in Chicago at 9:35 p. m. from New York and Boston. For full information regarding routes,

rates, maps, folders, etc., address your nearest ticket agent or

J. Y. Calahan, General Agent, Chicago, Ill.

Short Journeys on a Long Road Is the characteristic title of a profusely illustrated book containing over one hundred pages of charmingly written descriptions of summer resorts in the country north and west of Chicago.

The reading matter is new, the illustrations are new, and the information therein will be new to almost everyone. A copy of "Short Journeys on a Long Road" will be sent free to anyone who will enclose ten cents (to pay postage) to Geo. H. Heafford, General Passenger Agent Chicago, Milwaukee & St. Paul Railway, Chicago, Ill.

The Costom House at New Orleans. New Orleans boasts of the largest custom-house in this or any other land. It was begun in 1848 and over thirty years elapsed before it was finished and ready for use. It is built of Quincy granite, the interior being finished in finest marble. It has 111 rooms; height from the pavement to the top of the cornice is eighty feet, and to the top of the light on the dome 187 feet. The dome itself is 49 feet square and 61 feet high: estimated total cost of building, \$4,000,-

Removal of Ticket Office of the New York, Chicago & St. Louis Rall-

road-(Nickel Plate Read). On May 1st the Chicago city ticket office of the New York, Chicago & St. Louis R. R. (Nickel Plate Road) will be moved to 111 Adams street, opposite the J. Y. Calahan, post office. General Agent.

Colonial Landmark Gone. The old colonial house at Mantau, King and Queen county, Virginia, once the residence of Carter Braxton, one of the signers of the declaration of independence, and at present owned by Dr. Gresham, was recently burned to the ground.

A new dining car service between Chicago and Buffalo via the Nickel Plate Road has recently been placed at the disposal of the traveling public. which win enable patrons of this favorite low rate line to obtain all meals on trains when traveling on through trains between Chicago, New York and Boston. For reservations of sleeping car space and further information see your local ticket agent or address J. Y. Calahan, General Agent, Chicago,

LOW GRADE GOLD ORE.

HANDER PERSONAL PRODUCTION OF THE PARTY OF T

North Control of the Control of the

One of the new mills in Beaver Park

Col., is built in such a manner as will, it is expected, solve the problem of treating successfully low grade gold ores. The ore is ground by means of heavy hollow rollers in which cannon balls revolve; that is, the roller revolves in a circular steel pan, there being a series of rollers and pans, and the rock, in passing from pan to pan, is ground to a powder far finer than that obtained by any other system of stamps and rolls, the most minute particles of free gold being by this means separated from the rock; the powder is treated by means of chemicals, which amaigamate the free gold and take into solution a small quantity of combined gold. Now, under the ordinary method of treatment, large quantities of gold are lost from rusted or greased surfaces or from a combination with gangue matter, conditions which prevent the gold from adhering to the mercury-covered plates, but in the new process this disadvantage is entirely obviated. Auother important feature of this system is that of complete rotary roasters, with a capacity of handling some hundred tons a day, and as this involves a cost of only about seventy-five cents per ton, a large addition is made to the saving of gold that would otherwise pass off in the form of lethrides or combined with the sulphides of iron.

The Statue of Liberty.

"Liberty," Bartholdi's statue, prename it bears. It is said to be a like- for each meal." ness of his mother. Eight years of time were consumed in the construction of this gigantic brazen image. Its weight is 440,000 pounds, of which 146,000 pounds steel. The major part of the iron and steel was used in constructing the skeleton framework for the inside. The mammoth electric light held in the hand of the giantess is 305 feet above tide-water. The height of the figure is 1521/2 feet; the pedestal 91 feet, and the foundation 52 feet and 10 inches, Forty persons can find standing room within the mighty head, which is 141 feet in diameter. A six-foot man standing on the lower lip could hardly reach the eyes. The index finger is eight feet in length and the nose 3% feet.

THE BEST WAY TO EAT.

Chauncey Depow Says That the Euro-

pean Plan Is Bad. "The man who lives on the American plan," Mr. Depew remarked to a Chicago Times-Herald man, "after awhile adjusts his appetite and the thoughts of his dyspepsia to the things on the bill that agree with him, and he really lives very temperately. On the European plan at first his inborn economy causes him to live in a very narrow way, and after awhile there comes a revolt, and he regards himself as on a prolonged spree and becomes dissipated. Instead of gratifying his appetite, he is gratifying his vanity for the benefit of the people who sit at the same table, and in a loud voice gives an extravagant order. Two things happen to him-he gets dyspepsia, and the metalle flavor of the things he does eat has the same effect on his digestive works as an oyster shell. I know of a dozen families that live abroad who need not consider what anything costs. Their time is taken up chiefly with two sented to the United States by the things-devising how they can cheat French people in 1885, is the largest the hotel by ordering a ta carte, so statue ever built.
