Northwestern Iowa and eastern South Dakota were visited by a very disastrous cyclone, May 3rd, killing about 100 persons, and destroying property and crops to the value of thousands of dollars.

The outgoing board rendered up their accounts and business for the year and adjourned finally Monday evening. In view of what they have accomplished for the benefit of the village during their incumbency, they well deserve the universal sentiment of the people briefly expressed, "Well done."

The state convention of the Iowa League of Republican Clubs was held at Des Moines, April 26th, and Iowa republican sentiment in favor of Allison for president was crystallized. Plans were made to send a big delegation to carry the Allison boom to the National League Convention at Cleveland.

Senator Johnson introduced a bill in the senate last week, to prevent persons from falsely assuming to possess the attributes of the Deity, or falsely assuming to be the Son of God. If the bill passes, it will put an end to the acts of Cyrus Teed, the "Anointed" who has a so-called heaven in Chicago, and Schweinfurth, who has a place near Rockford which he calls a heaven.

The Illinoisian says that at the last meeting of the County Supervisors, a new court house was earnestly talked of. Judging from the delinquent taxes published this year, it would seem that it is hard enough for the property owners to pay their present taxes without adding to them by the erection of a new court house. We are, of course, aware that things are a little crowded in the present quarters, but would it not be advisable to wait until times get a little better before adding this additional burden to the tax payers.

A dispatch from Springfield to the Times Herald, states that the date for the final adjournment of the legislature is likely to be fixed this week. On two days last week unsuccessful attempts were made in the house to fix a date and now the question will come up again Tuesday morning as a special order. Singularly enough, the opposition to an early adjournment comes from the country members. They are usually the first to agitate the adjournment question, but at the present time they are united against every proposition to adjourn until certain measures have received the consideration which they think is due them. The consensus of opinion seems to be that if an adjournment date is agreed upon this week it will be about June 7.

Colonel Charles Page Bryan, representative from DuPage County, tells an interesting story regarding the passage of house bill No. 618 in the house. Colonel Bryan occupies a seat directly in the rear of Needles, who called the bill up for passage.

"When Mr. Needles called up the bill," Colonel Bryan said, "he spoke in a very low tone and a few members in the house caught the number of the bill. Mr. Needles is chairman of the committee on appropriations, and appropriation bills have the right of way. Everybody supposed that he was calling up an appropriation bill. I caught the number, however, and glancing at my desk file I saw that bill 618 had nothing to do with appropriations. This made me suspicious and I declined to vote for the bill. I am satisfied that several other members had their suspicions

aroused by this action of Mr. Needles. It was a very neat parliamentary trick, as I have no doubt if any other member had attempted to call the bill up there would have been opposition."—Times-Herald.

WEATHER CROP BULLETIN.

CHICAGO, ILL., May 7th 1895.

The past week has been characterized by abnormally high temperatures, with rainfall lacking except in the west central and northern sections, the latter section had heavy showers which effectually relieved the drought. The general average rainfall of the northern section was about 1.75 inches, central section about 1.00 and southern section about .25 of an inch, with temperatures for the State about 15 degrees daily above the normal. All northern and west central counties report the general excellent condition of wheat, rye, oats, sprouting corn, clover, timothy and other grasses and meadows, potatoes, gardens and fruits. In the southern and east central counties the conditions are not so promising, rain is needed and vegetation is growing slowly, with noxious insects numerous, especially chinch bugs and cut worms. Corn planting is well along over the entire State, although slightly further advanced in central and northern counties than in southern, where dryness has retarded the preparation of the ground. Fruit setting is unusually heavy; small fruit is advancing rapidly and strawberries will probably begin to ripen in southern counties by the last of the week.

NORTHERN SECTION.

A few showers fell in northern counties on Wednesday and Thursday of last week, with heavy showers beginning on Friday and continuing throughout Saturday and Sunday, and the rain condition still remains. Western counties received considerable wind, some hail and heavy thunder with the storm on Saturday, doing some damage to fruit trees, gardens and a few buildings and fences. Corn planting has progressed rapidly and this week will see practically all of the corn in. Early planting is up and growing finely. Winter wheat, rye, oats, clover, timothy and other grasses are growing rapidly, much revived by the rainfall; rye is heading out in some fields. A few northwest counties report late sown oats not up owing to dryness, these will no doubt start quickly since rain has been received. Fruit trees are either laden with blossoms or with the setting of fruit if petals have dropped. Potatoes and gardens are doing well; early vegetables are being marketed from favored beds.

DON'T STOP TOBACCO.

How to Cure Yourself While Using It.

The tobacco habit grows on a man until his nervous system is seriously affected, impairing health, comfort and happiness. To quit suddenly is too severe a shock to the system, as tobacco, to an inveterate user becomes a stimulant that his system continually craves. Baco-Curo is a scientific cure for the tobacco habit, in all its forms, carefully compounded after the formula of an eminent Berlin physician who has used it in his private practice since 1872, without a failure, purely vegetable and guaranteed perfectly harmless. You can use all the tobacco you want, while taking Baco-Curo, it will notify you when to stop. We give a written guarantee to permanently cure any case with three boxes, or refund the money with 10 per cent. interest. Baco-Curo is not a substitute, but a scientific cure, that cures without the aid of will power and with no inconvenience. It leaves the system as pure and free from nicotine as the day you took your first chew or smoke. Sold by all druggists, with our ironclad guarantee, at \$1.00 per box, three boxes (thirty days treatment) \$3.50, or sent direct upon receipt of price. Send six two-cent stamps for sample box, booklet and proofs free. Eureka Chemical & Manufacturing Co., Manufacturing Chemists, LaCrosse, Wisconsin.

DON'T STOP TOBACCO. IT'S INJURIOUS TO STOP SUDDENLY and don't be imposed upon by buying a remedy that requires you to do so, as it is nothing more than a substitute. In the sudden stoppage of tobacco you must have some stimulant, and in most all cases, the effect of the stimulant, be it opium, morphine, or other opiates, leaves a far worse habit contracted. Ask your druggist about BACO-CURO. It is purely vegetable. You do not have to stop using tobacco with BACO-CURO. It will notify you when to stop and your desire for tobacco will cease. Your system will be as free from nicotine as the day before you took your first chew or smoke. An ironclad written guarantee to absolutely cure the tobacco habit in all its forms, or money refunded. Price \$1.00 per box or 3 boxes (30 days treatment and guaranteed cure) \$2.50. For sale by all druggists or will be sent by mail upon receipt of price. SEND SIX TWO CENT STAMPS FOR SAMPLE BOX. Booklets and proofs free. Eureka Chemical & Mfg. Co., La Crosse, Wis.

Dear Mrs. - I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of tobacco for the time being, at least. I tried the so-called "Koolay Cure," "No-To-Bac" and various other remedies, but without success, until I accidentally learned of your "Baco-Curo". Three weeks ago today I commenced using your preparation, and today I consider myself cured; I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful and can fully recommend it. Yours truly, C. W. HORNIK.
