DOWNERS GROVE.

Downers Grove is situated in DuPage county, Illinois 21 miles west of the Union Depot in Chicago, on the main line of the C. B. & Q. R. R. It is attractively located on rolling ground in the midst of beautiful groves of natural timber, and contains a population of about 2500. Handsome and costly edifices line its shaded streets and groves, and a wide-awake progressive people are its residents. Its religious and educational advantages are of the best, its suburban train service all that could be desired. A first class system of waterworks is now in operation, also telephone connection with the city. The surrounding country is settled by thrifty farmers who make this their market. Our merchants are bright and enterprising business men, all doing a thriving business. The population of the town has more than doubled in the last 4 years and many costly buildings are now in the course of construction. A healthy religious atmosphere pervades the community. Saloons are prohibited by law as well as by public sentiment, and we challenge any town in Illinois to compete with us as a place to invest in either a home or a business location.

Through the courtesy of Ed. F. O. Swisher the writer was shown the inner workings of the Chicago post-office Tuesday afternoon. Any attempt to fully describe the novel sight on our part would be an undertaking of too great a magnitude for us to attempt; one must see to appreciate. Suffice to say that there are some 3,500 men regularly employed in the various departments and when the force is at work, it is a veritable hive of industry. At every turn in the huge old ruin, one is struck with surprise at the ease and rapidity with which the immense volume of mail matter is handled by the keen eyed and quick motioned clerks as they work at their schemes, as they are called of sorting and distribution. Mr. Swisher, who by-the-way has lately become a resident of Downers Grove, has one of the best positions, being in charge of the box department and his is about the only department where hurry and bustle is not found. But we might go on and write columns regarding the many interesting sights, and not half exhaust the subject, but will refrain and only add if you wish to spend a few hours of novel entertainment, get solid with Mr. Swisher and induce him to show you around.

The entertainment to be given at the M. E. church next Wednesday evening by Naperville talent promises to be one of the best yet given this season. All the numbers on the program are good and will be rendered by artists who are first class in their various roles. Don't fail to attend. The program:
