Attractive Meat....

Should not only be agreeable to the taste and smell but it should be cut so as to be attractive to the eye. My steak is most carefully selected by me (not by the man I buy it of!), and is tender and juicy, and as good to look at as an Easter hat. But our specialty is

CORNER BEEF.

We know how to make it right. Try it.

DOWNERS GROVE.

Downers Grove is situated in DuPage county, Illinois at miles west of the Union Depot in Chicago, on the main line of the C. & N. W. R. R. It is attractively located on rolling ground in the midst of beautiful groves of natural timber, and contains a population of about 2500. Handsome and costly edifices line its shaded streets and groves, and a wide-awake progressive people are its residents. Its religious and educational advantages are of the best. Its suburban train service all that could be desired. A first-class system of waterworks is now in operation, also telephone connection with the city. The surrounding country is settled by thrifty farmers who make this their market. Our merchants are bright and enterprising business men, all doing a thriving business. The population of the town has more than doubled in the last 4 years and many costly buildings are now in the course of construction. A healthy religious atmosphere pervades the community. Saloons are prohibited by law as well as by public sentiment, and we challenge any town in Illinois to compete with us as a place to invest in either a home or a business location.

E. THATCHER, D. W. CRESY.

Attention is directed to the card of Dr. M. Heydenreich, physician and surgeon, elsewhere in this issue. Dr. Heydenreich has lately located at Downers Grove, coming from Chicago and has opened an office on the second floor of the Farmers and Merchants bank building. He is a graduate of Freunswick College of Pharmacy in Germany and of the Rush Medical College of Chicago, and comes highly recommended as a very efficient physician.

The Rt. Rev. W. E. McLaren, D. D., bishop of the diocese of Chicago, assisted by the rector, Rev. J. C. Sage, officiated at St. Andrew's mission on Sunday last. The services were attended by a large and appreciative audience.

At 3 o'clock the sacrament of Holy Baptism was administered to three persons, one adult and two infants, after which the regular order of evening prayer, with an eloquent and impressive address by the bishop. The choir rendered some fine selections, and the solo by Mr. Turnbull was especially meritorious. It is the intention of the mission to commence building operations this month and the announcement of the date for the laying of the corner stone will be made in our next issue.

Residents of Downers Grove and Naperville will, on Thursday, Sept. 19th, be given an opportunity to enjoy a day of restful pleasure in that most delightful scenic Rock River country in the vicinity of Oregon, Ill. On this day the Burlington will sell round trip tickets for \$1.75, including a ride on the steamboat up Rock River. A more beautiful stretch of country, than that surrounding Oregon, is impossible to find. It is proposed to form a community of from fifty to one hundred people to take possession of the bluffs north of Oregon, known as Deer's Walk to start a summer colony. The situation is the most beautiful on the Rock river and while it is high enough to offer a magnificent view and catch every passing breeze, it has just sufficient stretch of low land lying along its base to give unlimited facilities for boating and bathing.

The first "Ladies' Evening" of the season will be given by the Downers Grove Club Saturday evening next. A decidedly attractive programme has been arranged and it is evidently the intention of the club members to make these "Evenings" even more successful than last year.

Rev. Dowling and wife did not leave for Dakota last week as stated in the Reporter. Mrs. Dowling was taken so much worse that it was impossible for her to undertake the journey. The climate of Dakota is peculiarly beneficial to sufferers with asthma and it is to be hoped that Mrs. Dowling will soon recover sufficiently to stand the strain of the journey.

On or about Sept. 20th a party of people from Downers Grove and vicinity will leave to inspect the fertile farming regions along the lines of the Burlington & Missouri River Ry. in Nebraska. Why pay high rents here when you can buy good farming lands as low as six dollars per acre. Low rates of transportation have been obtained. Come and join us. Apply to Isaac Mason, Downers Grove, Ill., for full particulars.

A small blaze in the piano factory early Wednesday morning would have developed into a conflagration had it not been discovered in time by Officer Hoffer. A heap of shavings in the engine room became ignited from a live coal, which had fallen from the open furnace door and was burning briskly when Fred Hoffer chanced to pass, and giving the alarm P. C. Gallup, Earnest Gallup and D. Latimer came to his assistance. By their united efforts they succeeded in extinguishing the flames before much damage had been done. Nightwatchman DeBolt had made the rounds of the factory a short time before the alarm and found everything all right.

The home of Dr. W. A. Tope was the scene of a brilliant gathering last Saturday evening when about 300 friends and neighbors escorted, by the Hinsdale band, gathered to surprise and congratulate Mrs. Tope on the anniversary of her birthday. No more brilliant or enthusiastic social event has been given this season. After a serenade by the band the doors of this hospitable home were thrown open and the self-invited guests heartily welcomed. Dr. and Mrs. Tope stood in the parlor and exchanged greetings and received the good wishes of all who came. After this informal reception the party adjourned to the Auditorium led by the band. J. B. Hull, on behalf of the company, welcomed the guest of the evening and tendered some very appropriate remarks, after which all were invited to partake of the sumptuous repast prepared for them. After the banquet the grand march was struck up by the orchestra and from then on till about midnight the floor was filled with the merry dancers. All present at this enjoyable affair returned to their homes wishing Mrs. Tope many returns of the day and acknowledging the evening to be one of the most pleasant they had ever spent.

Since its opening as a continuous

vaudeville theater the Olympic in Chicago has made the most astonishing success ever known in that city. No such programmes have ever before been provided for the patrons of a variety theater. Each week the bill is changed, and the best stars from Europe and of this country succeed each other, which has made the instantaneous recognition of the Olympic theatre as the leading variety house of the west, if not of the country. With its magnificent central location on Clark street, just north of Randolph, and less than a stone's throw from the courthouse, it has advantages that no other theater possesses. It is, therefore, a most popular resort for visitors to the city who are in town for a day; and who do not remain over night. They may run in at any hour after noon any day of the week and witness a performance of the very best character for a merely nominal price of admission.

"Silver and Gold" is a work which purports to give fairly both sides of the monetary question. That it is a fair presentation of both sides it is but necessary to state that the articles composing it are from the pens of John Sherman, Wm. B. Allison, John G. Carlisle, Edward Atkinson, Wm. M. Stewart, W. J. Bryan, Wm. A. Peffer, Wm. H. Harvey, Benj. H. Tilman and others. It gives the basic principles of each recognized school of currency economists and the arguments in favor thereof. It also contains the Harvey-Laughlin discussion in full and extracts from writings and speeches of Senator Vest, Hon. J. C. Burrows, ex-Gov. Boies, ex-Sec'y Foster, Murat Halstead, Lyman J. Gage, Senator Dolph and others. The book is compiled and edited by Trumbull White, author of "World's Columbian Exposition," etc., is gotten up in a neat and attractive form and the price, \$1.50, places it within the reach of all. Captain Cornelius is the agent here and they are selling like hot cakes.

Rev. H. W. Dowling has engaged a large and commodious room in the bank building and has furnished it up as a study. It is not generally known in outside circles that Mr. Dowling is the editorial manager of "The New Columbian" magazine, a Chicago publication which will make its first appearance October 1st, and whose advance sheets promise all lovers of good wholesome literature a rich treat. There is a conspicuous dearth of first-class popular-priced magazines in the west and we predict that "The New Columbian" will find a wide field and a circulation commensurate with its value. The magazine will consist of about 100 pages, well filled with literary digest, news of the world and useful information, and replete with half-tone engravings and etchings. The offices already give employment to four or five persons, which number will be increased with the advancement of the business. The Congregational society and officials, with Mr. Dowling's numerous friends, wish him success and will do all in their power to encourage the new venture.

LISLE SIFTINGS.

We see the red, white and blue floating over our school house.

Hazel nuts now.

Choir practice at F. W. Winbolt's.

John Oldfield is in Cass this week.

The number of bicycles and good roads are growing.

Mrs. Shayard has just returned from a pleasant week's visit in the city.

It makes one nervous to see some of our young ones, who are addicted to the habit of "chewing their quid."

Last Wednesday evening, at a meeting of the taxpayers of Cass, it was voted to have a bell and belfry put on the schoolhouse as well as a flagstaff.

Jerome Smart has just purchased a new corn cutter. It cuts and binds the corn while standing and is a decided improvement on the old cut and run method.

Where is our lecture? Our tickets are getting sold and we are afraid we will lose them. We don't want the tickets any longer; we want the lecture. Please give us the lecture.

A good attendance Sunday evening. It is encouraging to see an effort to complete getting up the church. This is surely an important step in the direction and everyone who feels that a church society with its social privileges, as well as its spiritual worth, is a good thing for Cass, ought to contribute as much as possible to the furtherance of this object.

A sad accident occurred this week to the young man who has been employed at Frank Chivers'. Mr. Chivers had purchased one of the shanties at the drainage canal at Lemont, and yesterday, while tearing it down preparatory to moving it to Cass, one side of the building fell, catching the young man under it and breaking his leg. He was removed to a Chicago hospital for treatment.

HINSDALE.

The concert rendered by Bacon's Band August 27th, is soon to be repeated, not in Hinsdale but at Downers Grove.

Frank Johnson met with an accident while engaged in a practice game of football, Tuesday, which resulted in breaking his collar bone.

Melvin Townsend met with an accident which renders it necessary for him to navigate by the aid of a cane. Wednesday while in the basement of Ditzler and Linsley's store, his foot accidentally came in contact with a broken glass bottle, and the glass penetrated his foot causing a painful wound.

Through the generosity of some of its friends in Hinsdale, Chicago and LaGrange, the officers of The Fresh Air Home are enabled to keep the Home open for another two weeks, and give some more sick children and tired mothers an invigorating rest and recreation before the hardships of another winter. The Home will be closed for the season Sept. 25th, having entertained from 150 to 175 guests this summer.

Two finer days for tennis could not be imagined than last Saturday and Monday, and the people of Hinsdale showed their appreciation of both the weather and the game by taxing the seating capacity provided by the entertainment committee to the utmost. The courts were in the finest possible condition and were kept occupied constantly during playing hours. All the double events except the final were disposed of Saturday and part of the singles had also been played on that day. Monday was devoted to singles and the prize in singles, a fine silk umbrella, and the final in doubles with its attendant three o'clock tea. The contest was between the excellent player and the excellent player, and the contest was a most interesting one. The contest was a most interesting one. The contest was a most interesting one.
