POSTPONED.

After one side of the REPORTER which contained an announcement that the Poland Comedy Co. would appear here Saturday evening, had gone to press, we received the following notice from Mr. Leath:

Chicago, Ill., Nov. 20, '95.

EDITOR REPORTER—

I regret very much to state that Mr. Poland of the Poland Comedy Company who was to appear at the Auditorium Saturday evening next, met with a serious accident last night which compels his postponing his performance until the middle of December or even later. Will you kindly, without fail, insert a notice in to-morrow's issue which will cover the above, stating that money already paid for tickets will be refunded to purchasers, on demand. Yours truly,

J. L. LEATH.

There was a serious accident in the laboratory of the college one day last week. While Miss Julia Blanchard was performing experiments in chemistry, the chemicals which she was using exploded, throwing glass into her eye and cutting it dangerously and also the side of her face. She was taken to the city. It has since been learned that she will lose the sight of her left eye. It is feared there is glass still in it. If this is the case the eye will have to be removed. As her father remarked, "she has paid this price for her knowledge of chemistry." No others in the room received injury, but were frightfully conscious of the explosion.—Wheaton Illinoian.

Shamrock flour is sold by W. H. Colville, the north side grocer. It is absolutely the best flour for general home use on the market. \$4.00 per barrel. None so good. Try it.

CORRESPONDENCE.

CASS.

Mrs. Davy and Miss Anna Oldfield are on the sick list.

We are glad to see in Luce news that the railroad project is started again. We hope it will be a go this time.

The REPORTER from now till Jan. 1st will be sent free to those paying one year in advance. We wish to increase our circulation in Cass. Take advantage of this offer at once.

We don't like bad roads, but in the interest of the wells we would like to see them suffer this time. If winter should come on with the present condition, there would be very much inconvenience, to say nothing of the danger of drinking surface water at such a time. The recent rains have not seemed to help the wells to any great extent.

Delegates were appointed Sunday to attend the Sunday School convention at Turner. Rev. Bacon occupied the pulpit. The announcements for next Sunday are a little uncertain on account of the proposed work of ceiling up the church, which is to be taken up this week. The trustees met Monday to see what could be done with the north foundation wall, which is in a very bad condition.

The entertainment given by the school was a success. No forgetting and no delays. A thorough and careful preparation must have gone before it. Among the many excellent selections, some of which were appropriately chosen to the season, were two essays entitled "Who Discovered America" and "John Smith and What He Did," rendered respectively by Misses Anna Oldfield and Genevieve Davy. The way in which these subjects were handled indicated a good understanding of them, and did credit to the young ladies. The way in which these parts were recited by Nellie Smart in English and in prophecy that one will have an excellent one of these days. Mr. Whitcomb shows by this entertainment that advancement in the newspaper is necessary.

HINSDALE.

From Dolans and The Beacon.

Washington street has several cases of diphtheria. Mr. Cole has been very ill for some days, and the small child of Mr. and Mrs. Blodgett across the street has also had the disease.

The skating club was organized Thursday evening and officers will be elected at the next meeting. Arrangements are being made to secure the lot on the corner of Second and Washington streets for a skating rink.

Another accident occurred in the city street sewer, Tuesday. This time no one was injured, although Henry Bush a laborer, was enveloped in an avalanche of earth. He was immediately dug out and with the exception of a few slight bruises suffered no injuries.

There was an attempt at a runaway on First street Wednesday morning about 10.30. A big black horse attached to a lumber wagon, felt his oats and started to lengthen out for a sprint or two. He succeeded in scattering the sideboards of the wagon body for a couple of blocks along First street.

The ladies of the Grace church Guild gave a birthday party at the residence of Mrs. Washburn Tuesday evening. The birthday feature consists of a contribution made previously or brought, of a little bag furnished by the Guild and supposed to contain a number of pennies, nickles, dimes or larger coin, equal to the years of the contributor's age. Otherwise there was no admission fee and the social features of the evening were very pleasant.

Owing to the failure of the village clerk to notify the Western Springs board of trustees, the conference of the two boards did not occur last week Friday. The meeting was held Monday evening and all the members of each board were present with the exception of C. A. Allen. A large number of citizens who are interested in the electric road project were also present. Trustees Wickham of Western Springs said that the majority of the people of that village were in favor of the Suburban Electric Road, but they were not over enthusiastic.

Another member of the Western Springs board stated that the electric company has asked for a fifty year franchise from that village and right of way on Chestnut and Maple streets. After considerable discussion it was decided that a committee of two should be appointed from each board to confer with each other and map out routes through the two villages, and if those routes were accepted by the electric company, then each board would grant franchises under proper conditions. It was the opinion of both boards that these routes should be north of the C. H. & Q. railway.
