text stand for lawmakers. Joseph was the Lord Treasurer of the Egyptian government, and among other great things which

men on earth ought to be endowed with wisdom, it is senators, whether they stand in congresses, parliaments, or reichstags, or assemblies, or legislatures. By their decisions nations go up or down. Law-makers are sometimes so tempted by prejudices, by sectional preferences, by opportunity of personal advancement, and sometimes what is best to do is so doubtful that they ought to be prayed for and encouraged in every possible way, instead of severely criticised and blamed and excoriated, as is much of the time the case. Our public men are so often the target to be shot at, merely because they obtain eminence which other men wanted but could not reach, that more injustices are hurled at our national legislature than the people of The wholesale belying of our public men is simply damnable. By residence in Washington I have come to find out that many of our public men are persistently misrepresented, and some of the best of them, the purest in their lives and most faithful in the discharge of their duties, are the worst defamed. Some day I want to preach a sermon from the text in II. Peter "They are not afraid to speak evil of dignities. Whereas angels, which are greater in power and might, bring not railing accusation against them before the Lord. But these, as natural brute beasts, made to be taken and destroyed. speak evil of the things that they understand not." So constant and malignant is this depreciation and scandalization in regard to our public men that all over the land there are those who suppose that the city of Washington is the center of all corruption, while, what with its parks and its equestrian statuary, and its wide streets, and its archicity under the sun, but has the highest one intoxicated man in the more than six months of my residence, and I do not think any man can give similar American continent.

The gavets of our two houses of na-

tional legislature will soon fall, and adjournment of two bodies of men as talented, as upright and as patriotic as ever graced the capitol, will take place. The two or three unfortunate outbreaks which you have noticed only make more conspicuous the dignity, the fraternity, the eloquence, the fidelity which have characterized those two bodies during all the long months of important and anxious deliberation. We put a halo around great men of the past because they were so rare in their time. Our senate and house of representatives have five such men where get appreciated. The world finds it safer to praise the dead than the living. because the departed, having a heavy pile of marble above them, may not rise to become rivals. But, before the gavels of adjournment drop and the doors of Capitol Hill shut, there are one or two things that ought to be done, and let us pray God that they may be accomplished. More forcibly than ever before, congress has been implored to acknowledge God in our constitution. The Methodist church, a conference requested our congress to them, and there I broke down. tence. But of all the ENATORS in this decent men of the revolution believed in God, and our American congress, now assembled, will only echo the sentiments of the fathers when they enthrone the name of God in the constitution. We have now more reason for inserting that acknowledgement of divinity than our fathers had. Since then the continent has been peopled and great cities from the Atlantic to the Pacific built, and all in peace, showing that there must have been super-1812, and ours the victory! The man who cannot see God in our American history is as blind of soul as he would be blind of body if he could not the at 12 o'clock of an unclouded noon see United States can possibly imagine, the sun in the heavens. As a matter of gratitude to Almighty God, gentlemen of the American congress, be pleased to insert the four words suggested by the Methodist conference! Not only because of the kindness of God to this nation in the past should such a reverential insertion be made, but because of the fact that we are going to want Divine interposition still further in our national history. This gold and silver question will never be settled until God settles it. This question of tariff and free trade will never be settled until God settles it. This question between the east and west which is getting hotter and hotter and looks toward a republic of the Pacific, will not be settled until God settles it. had better go and join them." Print that word "God," or "Lord," or "Eternal Father," "Ruler of Nations,"somewhere between the first word and the last. The Great Expounder of the constitution sleeps at Marshfield, Massachusetts, the Atlantic ocean still humming near his pillow of dust its prolonged lullaby but is there not some one now living, who, in the white marble palace of the nation on yonder hill, not ten minutes away, will become the irradiator of the constitution by causing to be added the most tremendous word of our English vocabulary; the name of that being before whom all nations must bow or go into

But it will not be journment of our American congress, until after they are dead that they will it ought to be decided and forever settled that no appropriations be made to sec tarian schools, and that courtship between church and state in this country be forever broken up. That question already seems temporarily settled. wish it might be completely and forever settled. All schools and all institutions, as well as all denominations, should stand on the same level before American law. Emperor Alexander of Russia, at his Peterhoff Palace, asked me how many denominations of religion there were in America, and I recited church that is always doing giorious their names as well as I could. "Oh!" says some one, "there are people in this country who do not believe in a God, and it would be an insult to them." Well, there are people in this country who do not believe in common decency, or common honesty, or any kind of government, preferring anarchy. Your very platform is an insult to them. You ought not to regard a man who does not believe in God any more than you should regard a man who refuses to believe in common decency. Your pocket-book is not safe a moment in the presence of an atheist. God is the only source of good government. Why not, then, say so, and let the chairman of the committee nal supervisal. Since then the war of on resolutions in your national conventions take a pen full of ink and with bold hand head the document with one significant "Whereas:" acknowledging the goodness of God in the past, and begging his kindness and protection for the future. Why, my friends, this country belongs to God, and we ought in every possible way to acknowledge it. From the moment that, on an October morning in 1492, Columbus looked over the side of the ship and saw the carved staff which made him think he was near an inhabited country, and saw also a thorn and a cluster of berries (type of our history ever since, piercing sorrows and cluster of national joys), until this hour our country has been bounded on the north, south, east and west by the goodness of God. The Huguenots took possession of the Carolinas, in the name of God. William Penn settled Philadelphia, in the name of God. The Hollanders took possession of New York, in the name of God. The Pilgrim Fathers settled New England, in the name of God. Preceding the first gun of Bunker Hill, at the voice of prayer all heads uncovered. In the war of 1812, an officer came to Gen. Andrew Jackson and said: "There is an unusual noise in the camp; it ought to be stopped." General Jackson said, "What is the noise?" The officer said, "It is the voice of prayer and praise." Then the General said, "God forbid that prayer and praise should be an unusual folse in the encampment. You at Valley Forge. Prayer at Monmouth. Mountain, Prayer at Gettysburg, "Oh!" says some infidel, "the northern people prayed on one side and the Southern I have heard good Christian people confounded with the infidel statement, when it is as plain to me as my right hand. Yes; the Northern people prayed in one way, and the Southern people prayed in another way, and God answered in his own way, giving to the North the re-establishment of the government, and giving to the South larger opportunities, larger than she had ever anticipated, the harnessing of her river; in great manufacturing interests, until the Mobile and the Tallapoesa and the Chattahoochee are Southern Merrimacs, and the unrolling of great Southern mines of coal and fron, of which the world knew nothing, and opening before her opportunities of wealth which will give ninety-nine per cent more of affluence than she ever possessed; and instead of the black hands of American slaves, there are the more industrious black hands of the coal and iron mines of the South which

are achieving for her fabulous and unimagined wealth. And there are domes of white blossoms where spread the white tents

And there are ploughs in the track where the war wagons went, there are songs where they lifted as Rachel's lament.

I take a step further, and say that before the gavels of our senate and house of representatives and our political conventions pound adjournment, there ought to be passed a law or adopted a plank of intelligent helpfulness for the great foreign populations which are coming among us. It is too late now to discuss whether we had better let them come. They are here. They are coming this moment through the Narrows. They are this moment taking the first full inhalation of the free air of America. And they will continue to come as long as this country is the best place to live in. You might as well pass a law prohibiting summer bees from alighting on a field of blossoming buckwheat; you might as well prohibit the stags of the mountain from coming down to the deerlick, as to prohibit the hunger-bitten nations of Europe from coming to this land of bread as to prohibit the people of England, Ireland, Scotland, Italy, Norway, Sweden and Germany, working themselves to death on small wages on the other side the sea, from coming to this land where there are the largest compensations under the sun. Why did God spread out the prairies of the Dakotas and roll the precious ore into Colorado? It was that all the earth might come, and plough, and come, and dig. Just as long as the centrifugal force of foreign despotism throws them off, just so long will the centripetal force of American institutions draw them here. And that is what is going to make this the mightiest nation on the earth. Intermarrying of nationalities! Not circle intermarrying circle, and nation intermarrying nation. But it is going to be Italian and Norweigan, Russian and Celt-Scotch and French, English and American. The American of a hundred years from now is to be different from the American of today. A New Volume of Posms. Home-Made Poems," by Nixon Waterman, should be in every household. Mr. Waterman is a young western poet of peculiarly fascinating and original talent, who has, by his rare gift, made many friends both in the east and west. His writings show evidence of that power which makes the works of any great artist live—the power to touch and move human hearts and sympathies. The versatility of his style is shown in the strange intermingling of pathes and humor, and the sentiment will always be found as pure and refreshing as the draught of water bubbling forth from the mountain spring.
