AN INCONSISTENT PAPER.

What the outcome of this fall's election may be, no one knows. The conditions are different from those of any previous campaign. However certain the republicans have been in the past of carrying the county election, this year there is a good chance of having a democrat for county clerk. This man is John G. Bohlander, Jr., of this village, who is one of the most popular, able and honest young men of the county. Today the republican stronghold in DuPage county rests in Downers Grove Township as the other sections of the county are almost entirely democratic. When the republican convention of July 18th failed to recognize Downers Grove in nominating J. P. Bush for county clerk, it split the vote of this township. It will not be a surprise if at the election Mr. Bohlander secures almost every republican vote in this township—and he deserves them-Hinsdale Doings.

There is an apt saying regarding consistency that would fit this case. As a matter of fact the republican party is no stronger in any town- ance in Chicago about the 10th inst. ship in the state of Illinois than it is here in Downers Grove township, and November will witness the largest republican in Downers Greve township ever shown, and this, too, notwithstanding the libelous atterances of the Doings man regarding the believers in sound money. Downers Grove republicans will never vote for any man who endorses such a platform as that formulated at the Chicago cony ention.

FROM A SILVER MINE OWNER.

Major McKinley is in receipt of a letter from A. W. Harris, a "silver king" of New Mexico. Mr. Harris says: "You will doubtless he surprised to hear the avowal of sentiments in opposition to the free and unlimited coinage of silver by a silver mine owner and operator of twelve years standing, but such is the fact. have never hesitated to declare that it was my settled opinion, derived from constant study and investigation of the subject, that free and unlimited coinage of silver at a ratio of 16 to 1 would result in silver monometalism and the constant everwhelming disturbance of the general financial systems of the country. The idea of making it a leading issue was conceived a speech of repudiation and an anarchthe desire to break down the national enking system and the manufacturing and industrial system of the country. Now, while my chief interests are innately associated with silver mining, THE "POOR MAN'S MONEY."

This deposit was made in gold so small space. They are a whole medicine or its equivalent. The free coinage measure advocated by Bryan and his platform would enable these banks to pay back these depositors in money worth 53 cents on the 100 that was deposited. The same rule would apply on pensions of which there are paid annually 140 million dollars and it would affect directly eleven million pensioners. Verily, it would be poor money for the poor man.

John G. Carlisle, one of the ablest of democratic statesmen and the present secretary of the United States treasury, ought to be as good authority on the government's financial affairs as the Altgelds, the Tilmans or any of the free silver, 50cent dollar advocates. Here are five points selected from an address he recently delivered on the currency question:

First-There is not a free coinage country that is not on a silver basis.

Second-There is not a gold standard country that does not use silver as money

country that uses any gold as money husband of Alice Wiles, that the said petitioner, along with silver.

country that has more than one-third as much money in circulation per capita as the United States has.

Fifth-There is not a silver standard country where the laboring man receives fair pay for his day's work.

The Harvard Herald, and by the way one of the best printed and most ably edited weekly newspapers in the state of Illinois, now has a new home of its own, a handsome two-story and basement brick structure. While only eight years old the Herald has been successful beyond its proprietors' expectations-and they are rustlers. Mr. Walsh, the editor, is especially well known as one of the brightest newspaper makers in the state as well as being a recognized leader in the republican political ranks of the eighth district.
