Democratic Press Burst All Bonds in Their Indignation.

In every contest in Ohio, Iowa, Illinois and Michigan when the Democrats were on a free islver or cheap money platform they have been overwhelmingly beaten. What evidence have we that there is to be a change in '96?—Montgomery (Ala.)

Advertiser. When a great party has reached that stage of moral depravity that such creatures as Tillman, Altgeld & Co. are permitted to speak to it, much less take an important part in moulding its politics, its course is, indeed, about run.-Wabash (Ind.) Times.

Americans will never give this crowd control of the country until they shall have fallen to the level of the old world communists. That will not happen this year, at least. The people must be degraded in their own esteem before they will vote for a war of class against class .- Memphis Scimitar.

The financial plank in the platform adopted by the Democratic national convention at Chicago is distinctly a declaration for such repudiation of existing debts, public and private, as can be secured by the enforcement upon the country as legal tender money of a debased silver coinage conformed to a degraded standard of money.-New Orleans Picayune.

Scratch a silver man and you come to a Populist. In the heart of each burns the desire to get as much as possible and give as little. If either of them happen to be a debtor, this desire takes the form of repudiation. As most of them are delitors repudiation is the thing they are for, and in the Chicago platform they go for it straight .- New York Times.

It is but proper to say in fairness and justice to the grand old Democratic of Populistic declarations might not party of Hamilton, Jefferson and Jack- break up the Populist party, but would 16 to 1 is demanded as an immediate in the appended table: ways of the fathers upon the financial question, and, therefore, cannot, much to our regret, follow the Democratic banner as it trails into a foreign camp; and must, as a matter of self-respect, refuse to support Mr. Bryan upon the financial platform upon which he has been placed and stands.-Dayton (O.)

Till the contest is decided our voice shall be raised and our influence given for the election of Mr. McKinley to the presidency. The security of the currency is the paramount question of the hour. It eclipses issues. Believing that this security can best be attained by the success of the Republican party. we promise it our sincere and hearty support for its presidential ticket in the impending campaign. We have never believed that the Republican party made the best selection possible to it, but it is difficult to see how any candid man can deny that the selection of the Republienn party was eminently more fitting and appropriate. There is an absence of dignity in the Democratic selection which is seen both in the candidate himself and in the circumstances that attended his nomination,-Boston Herald.

The true interests of the people ask for the election of Mr. McKinley, not for himself but for the absolute pecessity of the whole people of the United States and of the greater world of which they are after all but a part. In any event let us be reasonable. Don't talk of "sectionalism" or of "anarchy" or of "revolution." Remember always that compared with the unity of country | cherish the priceless interests of constifor; one country, one flag.-Springfield Republican (Ind.-Dem.)

No reasonable man can ask the Times to stultify and dishonor itself and longtimed Democratic principles. While supporting to the best of our ability the state nominations for executive offices and legislative nominees, we feel assured that all true Democrats will justify us in deciding that we cannot give the support of the Times to the Chicago convention and its politically diseased candi date. We shall do all we can to sustain the good name and the organization of the Democratic party, but we cannot support principles nor candidates of Bland, Teller and Altgeld stripe. cannot conscientionsly ask honest to vote for them .- Hartford Times.

We repudiate the 16 to 1 plank in Bryan's Chicago platform and will not support any candidate on such a platform. It is too Populistic and Nihilistic. -Machias (Me.) Union

Our worst fears have not only been realized but new and horrible doctrines have been added to the Chicago platform. which cannot possibly bind a Democrat who is unwilling to abandon the fundamental principles of his party.-Richmond (Va.) Times.

What Harry Bingham feared only as hare possibility has come to be a stern reality. The "madmen" of whom he spoke have controlled the national conrention and declared for free silver at 16 to 1. The Democrats of New Hampshire cannot go with them .- Manchester (N. H.) Union.

Circumstances have made William Mc Kinley the man around whom all must rally who desire to defeat determinedly the candidate for the pseudo-Democracy, William J. Bryan, who stands for fiat money under the guise of bimetallism: for nullification of lawfully-contracted liabilities; for communism and lawless

Mckinley and the party he repre sents have until now induced Democratic and independent voters to look for means by which they could avoid the necessity of supporting the Republican ticket. This has been shown to be hopeless, and there is no other way but to offer our support to our old opponents.-New York Staats Zeitung, the leading Eastern German

Democratic daily. We have no fear that the sound-money Democracy will acquiesce in a free silver platform, a ticket of repudiation, of anarchy and the trampling out of the rights of the sound money delegates in the convention. A bolt is inevitable. A Democratic ticket for which Democrats from participation in the nomination of can vote is becoming a necessity. will be supplied. The Anarchists, the Populists, the Communists and the Nihilists who are controlling this convention will never control this country; they will never control the Democratic party .-

The parting of the ways has been reached, and for the sake of party honesty and electoral integrity it is to be hoped that the division will be complete. A paramount issue like that for the pending coinage question demands a speedy settlement and a voter's convictions upon it have not been subordinat ed to the demands of party expediency There can be no honorable compromise with or submission to the free silver faction.-Galveston News.

It is altogether probable that the Democrats who love Democracy and who decline to be counted among its betravers will have a ticket in the near future that will satisfy their desires and aims. This would be the most desirable result, but, come what may, the Chronicle absolves itself from all responsibility for the utterances of the alleged Democratic convention just closed at Chicago, and pledges itself to aid in the defeat of its nominees. To participate in a campuign for such a ticket on such a platform would be to be untrue to every patriotic Democratic principle.-La Crosse (Wis.) Chronicle.

A bright young man with a silvery, demagogic tongue is planted on the anti-Democratic platform adopted at Chicago, and the excited victims of a singular and illogical craze vie with the sympathizers with Anarchy and Populism in the long acclaim to William J. Bryan, the cloquent and eccentric representative of the bolters of Nebraska. . . . The plat-form and the candidate threaten a paralysis of business until the day of election: for a longer period if success could possibly attend; and they condemn the Democratic party to a fate that would be death to any other party, but the Democratic party is undying.-Utica Ob-

Will Lose Hundreds of Thousands. Savannah News: All Democrats will not approve the declarations in respect to coinage, bonds, the currency, income tax and railroads. These latter declarations are much more Populistic than Democratic. It looks very much as if they were put into the platform for the express purpose of currying favor with the Populists. In fact, if we are not mistaken, Senator Tillman said in his speech in the convention that the purpose of them is to influence the Populists to come into the lines of the Democracy and become a part of the Democratic party. He did not seem to take into consideration the fact that the adoption

#### Boss Champions of Disorder.

Trenton (N. J.) American (Dem.) But, whatever may be the course of the politicians and the party leaders, there will be thousands of Democrats in New Jersey who-not in resentment of the contumely with which the state and its interests have been treated, but from personal and public motives-will refuse to give their approval to a convention and a candidate which have publicly and valugloriously threatened the destruction of the nation's credit, the diminution of values, the retardment of business, the attack on property, and the triumph of disorder above the law and those called upon to administer it. And they will so refuse in the belief that all other party issues fade into insignificance in comparison with the issue as it has been formulated at Chicago.

### Danger to Liberty.

Galveston News: The fact is that the programme formulated at Chicago merey marks the skirmish line of a great and final battle for social revolution, industrial reconstruction, and constitutional subversion. Without consitutional safeguards there can be no assurance of either free government or individual liberty. An unchecked social Democracy means no law but the law of brute force, no rule and no order but the rule and order of irresponsible tyranny. Intelligent citizens grounded in wholesome appreciation of the constitutional essentials of a stable republic, who supremely the gold standard is not worth fighting | tutional liberty and security, who feel that there can be no true progress without the conservation of these interests, will not fail to see in present emergencies where their common danger lies, Realizing also that the problem of defense is their common concern, they can well understand that how they may best proceed to combat, defeat and disarm their common enemy is a question of momentary expediency to be decided in the light of current events and modifying circumstances.

# South Dakota Views.

Sionx Falls Argus-Leader: The Democrats have declared for a policy which will inevitably establish the single silver standard; will, in our opinion, wreck the national credit and reputation; will, for many years, make commercial confidence impossible; will sprend ruin over the land; will destroy all hopes of bimetal lism in the generation; and will indefinitely postpone a revival of good times. nder these circumstances the Argus-Leader can see its duty only in one channel. Believing, as this paper does, that the honor, safety and prosperity of the United States would be scriously jeonardized by the success of the Democratic party on its presets platform, the Argus-Leader, with sofrew for the broken associations, with regret at parting from s name it has fevered and loved, but with consciousness of unavoidable duty, withdraws from the grand old Democratic party, which has, in our judgment. left its time-honored principles in pursuit of strange gods, and will throw whatever influence it may possess on the side of the Nation's prosperity and honor.

# To Attempt the Impossible.

Staunton (Va.) News: A law de claring that wheat, regardless of the surplus on the markets or the demand for it, should sell the year round at \$1 per bushel, and that corn and oats, no matetr what their intrinsic value. should always sell at the same figure as wheat, would be just as sensible as a free coinage of silver law and would be just as easy to carry into effect. The gist of the whole matter is that to at tempt to coin silver in unlimited quantitles and to make it even in value at a given fixed ratio with gold is to attempt the impossible and to do what in the very nature of things cannot be done.

Looking to the New York Convention

Stracuse News: The Chicago plat form is a wide departure from the platform adopted by the last Democratic state convention at Saratoga. It was so wide a departure that the New York delegation felt compelled to abstain candidates on that platform. It remains for the coming Democratic state convention to formulate the policy of the New York Democracy. That convention, in nominating presidential electors, will point the way to Democrata which shall lead to the preservation of the party-the preservation of its unsullied bonor and integrity. The party which this year celebrates its 100th anniversary will not be permitted to go down to a dishonorable grave.

# No Excuse for the Insult.

Montgomery (Ala.) Advertiser: Thousands and thousands of Democrats in Alabama will learn with mingled emotions of anger and shame that a Democratic national convention declined to declare of Grover Cleveland the simple Speaking for itself, the Courier cannot age, and fidelity" deserved commendative, only half as much as if they voted the interest of every class in the com-

The German Democratic Press Bolt the Chicago Ticket.

Chicago Staats-Zeitung: The Democracy which declared itself last week in of the Democracy of 1861; in it reigns the old Bourbon spirit which never learns and never forgets. Who, therefore, desires that the United States should further develop their national organism: that the national government should be further strengthened in the interest of all; that national bonor be kept undefiled; that the national credit be kept intact, turns away from a Democracy which has placed itself at the disposal of destructive forces and joins that party which was called in 1861 to save the Union, and which in this year again has the patriotic duty to purify the national organism from the poison of the Populistic Democracy.

The issue is not one of party, but of the highest achievements of the nation, which can be kept secure only by the authority of the Federal government, by an honest currency and by an inassailable credit.

Iowa Tribune (Dem.), Davenport-The recklessness and fanaticism of the silver people at the Chicago convention, who trampled all oppositon under foot, has made a very bad impression even upon many of those who sympathize with the theory of the debasers of money. The majority of our voters is not ready by any means to deliver the nation to such crazy demagogues as Bryan, Waite, Tillman and others.

Waechter und Anzeiger (Dem.), Cleveland-The currency plank, with its decisive declaration against the gold standard, which, with total disregard of the entire other world of culture and commerce, is declared to be an English institution and is stigmatized as such, while the free coinage of silver at the ratio of sands of Democrats out of the Democrat- make an altogether revolutionary impression. > Louisville Anzeiger (Dem.)-Nonsense, hou prevailest! From Grover Cleveland to William Jennings Bryan-this is a jump for which the real Democrat is not so easily ready. The Anzeiger prefers at any rate not to make it. After the peloption of the platform the Anzeiger had no need to pause a moment for the declara tion that it would not support the cendidate who would accept the nomination upon this platform. The nomination of Bryan makes this duty easier and more agreeable. Bland and Boies would have been fought by the Anzeiger on account of the cause which they represent. In Bryan we do not only fight the cause but the person. Only a convention waich placed Tillman above Cleveland and Blackburn above Carlisle would perpetrate the bad joke to present the young hero of phrases from the West for the highest office in its gift.

> Seebote (Dem.), Milwaukee: As the close of the century has brought forth the abominable "new woman," rides a bicycle, smokes, drinks, wears trousers and tears herself loose from all old customs, so there has arisen in Chicago, imbued with the same revolutionary spirit, a "new Democratic party." which stands everything time-honored on the head, denies the traditions of the old party, administers a kick to honesty and decency and comes before the people with a financial programme which is a mockery to all reason. The "new woman" and the "new party" are genuine fin de siecle experiences, and one would consider neither of them seriously if they were not so serious in their consequences. They are on the one hand the regrettable and undeniable excrescences of the liberality of social views and on the other hand of the freedom of the political thought that the Constitution of the United States prevents nobody from making a fool of himself as often as be likes

Davenport Democrat (Dem): The time has arrived for the clean separation of the two irreconcilable wings of the Democratic party, to which the Democrat has called attention for two years. # EDITOR DANA'S ADVICE.

Democrats Should Vote for McKin ley and Not Sacrifice Principle to Party.

New York Sun: The political reasons for not putting up an honest-money caudidate this year on a genuinely Democratic platform are strong and obvious. The nomination of another Democratic candidate would contribute to the personal comfort of Democrats who are reluctant to vote for Mr. Mckinley, but t would accomplish nothing else. And this method of voting for a principle only would surely imperil the result in many a close state. Better far to vote for principle

way that will count.

Every Democratic vote cast for William McKinley as the representative of honest money and the nation's honor and the preservation of democratic institutions against the wild horde now preparing to attack them, will do just twice as much service for the common cause as can be done by a Democratic vote for a third candidate standing no chance of election.

Let every Democrat who appreciates the magnitude of the present crisis keep this fact steadily in mind: His vote for McKinley and Hobart is worth double his vote for the best Democrat that the same part of the party could put up as a protest against the inquity consum mated at Chicago.

Is there any sincere Democrat who, inderstanding all that the election means for our beloved country, is willing to cut his vote in two this year; to deprive his ballot of one-half its efficiency? It will be said that there are such

Democrats. It will be said that there are Democrats who can persuade themselves under no circumstances to cast their votes for any Republican candidate for President. Perhaps that is so. Let them register their protest against Chicago by refusing to vote for presidential electors. Let them concentrate their partisan enthusiasm upon the state and local tickets. They will help in this way to defend the nation's honor and the continued existence of the institutions been based since the resumption of specie which the repudiators and the revolution- payments in 1878 shall remain unchanged ists are assailing. These men, in the absence of a satisfactory Democratic candidate on a sound platform, will not conseut to surrender one-half of the potency of their suffrages for the sake of over-Chicago is a new and degenerated edition refined ideas of political consistency. They will want to put their votes where their votes will do the most good as against Pepulism, repudiation and na tional dishonor. They will fire their bal-

lots straight at the common enemy, even though the ballots be labeled McKinley It would be a piece of political folly amounting to crime to divert the attention of this class of Democrats from the main question, and to jeopardize the result of the election, by setting up inopportune claims to a partisan allegiance which, in an emergency like this, is nominal at the best.

Mass every honest American vote on one candidate representing honest money, the nation's honor, and the intention of this people to preserve the government and the institutions which their fathers handed down to them. Waste no ammunition when Populism is shricking its battle cry, and anarchy is lurking close behind in the rear with torch in

McKinley's personality is nothing in this contest. His previous political affiliations are nothing. Accident has decreed that he shall stand for the time for something a thousand times more precious than any party badge.

#### A VITAL ISSUE.

The Republican Party's Consistent Stand as Regards the Tariff.

From 1878 to 1892, the period of maxi mum national prosperity under Republican economic policies—which the first Cleveland administration, lacking control of Congress, was mable to disturbthe foreign movement of our gold gave us practically no concern. It is illustrated

Exports ...... 495,873 During nine of these fifteen years the

trend of the gold movement was in our favor, and during only two of the remainng six years-that is to say, in 1889 and 1891-was the outward movement large enough to attract attention. In 1889 there were large importations under the tariff of 1883 for the purpose of anticipating the increased duties of the Mc-Kinley bill, and this caused an outward flux of gold in payment. In 1891 the extraordinary outflow arose largely because of the Baring failure, which caught in its crash many foreign holders of American securities, who, being pinched for rendy money, had to return some of those securities to this country fror redemption. These explanations are ample to account for the exceptional exports which characterized two of the years of the Harri son administration, when the revenues of the country were upon a highly protective basis. Adding imports together and comparing results for the fifteen years in question we find that the aggregate imports of gold exceeded the aggregate exports to the amount of \$101,568,310. During this period the national debt was reduced from \$2,349,507,232.04 in 1879 to \$1,563,612,455.63 in 1892, a total reduction of \$785,954,776.41.

Now let us turn to the years from 1893 to 1896, when "tariff reform" held the boards: Exports ..... 4.528,942 895. Exports ...... 30,984,449

Here we have a total loss of gold during the short era of Democratic "tariff reform" of \$197,531,106, or a net loss in four years of \$95,962,976 over the net gain accumulated during the preceding fifteen years. During these same disastrous four years of Wilson-Gorman tariff reform, the national debt has been increased in principal \$200,454,330, and in interest yet to be paid almost \$250,000. unalterable national principles, as they | 000, or over \$500,000,000 in all. Recapitulating these losses, and not saying anything of the tremendous personal losses inflicted by the "tariff reform" experiment upon all classes of American citizensfor these in the aggregate are obviously incalculable-we find that the "change of 1892" from McKinley protection to Wilson-Gorman free trade has cost the government of the United States directly, in its finances, not less than \$949,174,-625,32, a conclusion reached as follows: Loss of gold through actual would have been imported

This loss has nothing to do with the question whether a gold or a silver standard is the better. It is a direct fruit of the Democracy's unwise agitation against protection; a palpable demonstration that the tariff is emphatically an issue in this campaign. -- Scranton (Pa.) Tribune.

DEBTOR AND CREDITOR CLASSES.

From a Pamphlet Entitled "The Silver

What has been said about the merits of the question in a philosophical sense is plain and seems sound, but may there not be other reasons why silver should be corned at the ratio of 16 to 1?

What other reasons can there be? Well, such reasons as those given with respect to the debtor class as against the creditor class,

Name some. It is said that the country for the past twenty years has been gradually getting into the hands of what is called the creditor class, which is alleged to be a very small proportion of the population, while the great majority have fallen into the debtor class and into the absolute control of the others. Now it is alleged that these creditors, as a rule, are barsh and practically owning the unjority of the people and able to dictate to them, are 'sucking" what is called the "life blood" out of the country.

Who are these terrible creditors who are doing this? Name a single class. Well, the bankers and money lenders. for instance; the "money power," as it

Then the country is gradually getting into the hands of a class of which the bankers are the representatives, these "vampires" are sucking the blood" out of the country, crushing the them. That is the argument then, is it Well, you are from Rockford, Ill. Let us take the situation right in Bockford.

number of bankers in that city gether, thirteen, and the total amount capital which these thirteen bankers has \$875,000. The total amount of posits in their banks is \$3,400.000. Up to date 199 Democratic newspapers that these thirteen bankers, with a total have bolted. By locality the following paying capacity of but \$375,000, and showing is made:

New England.

The property of but \$375,000, and entrusted with \$3,400,000 of other people's money with which to do business. in any manner they choose. Upon face, it would seem that any number o men who have a total paying capacity of but \$375,000 must be of great integrity, uprightness and reliability to be entrust ed by the very people with whom they live and do business with whom the their paying capacity, or \$3,400,000. Who are the people who have entrusted this thirteen with so large a sum of money, so much in excess of their paying capacity? They number 9,500 in that city of a total population of 80,000 In this case, therefore, who are the debtors? They are undoubtedly the bankers. These thirteen men owe these 9,500 depositors \$3,400,000.

Now, if all that has been said about the rapacity of the creditor class be true think of the situation in which these de positors have these poor bankers. If all that has been said about the poverty, the wretchedness and the enslaved condition of the debtor class be true, think of the miserable plight of these poor bankers.

What is true in Rockford must be true of the whole country. The real debtors of the country are bankers, and the real creditors of the country are the depositors, and it is to the credit of the bankers of the United States. as it is to the credit of the bankers of Rockford, that although they could not 50 per cent, on the dollar if the coinage of free silver at 16 to 1 were made legal, by paying their depositors who have deposited gold at 32 to 1 with them in silver at but 16 to 1, none of the bankers of the City of Rockford, and but very few of the bankers in the United States, who would have so much to gain by the adoption of this free silver lunacy, have advocated this policy, which would enable them at one stroke to clear so much money.

This brief statement makes it plain that all the vilification which has been bestowed by Populist orators and newspapers upon the creditor class of the United States has been emitted because of totally false misapprehension as to who the creditors are, and it is but a sample of the profound ignorance underlying the whole free silver agitation that they have undertaken to describe as vampires, blood suckers, Shylocks, etc., the great producing classes of this country who are its real creditors and who own all the money deposited in the banks and upon which bankers do bu ness and upon the borrowing of which most of the manufacturing and production of this country is carried on. . that the Populists of this country who have been claiming to be the friends of the people, have been denouncing them upon the supposition that the denunciation has been describing the bankers: whereas, the real truth is, the bankers are the debtors and the depositors are

the creditors. According to that the Populists won't accomplish free silver?

Well, there are in the United States 9,000,000 depositors in the savings instituposits amounting to about \$5,000,000,000.

If all the people in the United States who can vote, should vote, the total vo cast in a national election would about 14,000,000; but the largest avera national vote cast is about 11,000,0 hence, the total number of depositors savings institutions in this country large y outnumbers any majority of which has ever been cast in a nation election.

In the single state of New York the are 1,700,000 depositors in the an banks of that state. They have on posit \$000,000,000. In the state of York there are but about 1,200,000 ers; the number of depositors in the ings banks of that state exceeds number of voters in that state by 000. These figures show the utter possibility of any such movement as free silver movement succeeding in country, because its success wo volve the conversion of more people have ever voted on one side up question in this country, to the lute belief that it would pay them to their money lies, at 50 cents on the lar for every 100 cents on the dollar
