## REGISTER AND VOTE.

The registration last Tuesday showed a total of 650 voters in the two precincts, a gain of 178 over the vote of 1894. The total vote cast in the two precincts in 1894 was 478. The names to be added to the list will increase the number somewhat. Taking a reasonable number for first voters and increase in population these figures show that somewhere near 100 voters stayed at home on election day in 1894 and did not vote. Then there was not so much at stake as in the coming election. Every voter owes the duty to himself and to his country the exercise of his right of suffrage, and should no more think of neglecting to vote than to neglect any other important duty of his business. If you do not already do so, we hope that you do not fail to register next Tuesday and then turn out and vote Nov. 3rd.

## CHEAP MONEY—FIRST SILVER THEN PAPER.

The free coinage of silver is only part of the financial system advocated by Mr. Bryan. In an article published in the Arena for February, 1895, Mr. Bryan said: "When the United States, without awaiting the aid or consent of any other nation, opens its mints to the free and unlimited coinage of gold and silver at the legal ratio of 16 to 1, it will bring relief to its people and will lead the way to the restoration of bimetallicism throughout the world. "It will then be prepared to perfect its financial system by furnishing a paper money invested with legal tender qualities and sufficient in volume to supply the needs of commerce. Its paper money will not be loaned then to farmers, but will be paid out in the expenses of government so that all may receive the benefits in decreased taxes."

Mr. Bryan's plan for getting this money into circulation was explained by him in a speech published in the Congressional Record for June 5th, 1894, in which he said:

"We might, by the issue of a few millions a year, connect the Mississippi river with Lake Michigan, and thereby increase the commerce between the northwest and the south. We can use any available coin on hand to take up the matured bonds, and replace the coins so used with paper money. I have introduced a bill during this session to provide in this way for the payment of the 3 per cent bonds now outstanding, payable at the option of the government and amounting to about \$25,000,000. These methods are suggested as a legitimate means of distributing government issues without resorting to money loaning or to the use of the banks. Government paper should be issued in the place of national bank notes as they are retired."

And the populist platform adopted at St. Louis, on which Mr. Bryan has accepted nomination for the presidency, contains a demand in line with Mr. Bryan's views.

A vote for Bryan is a vote to return to cheap paper money.

The greatest political demonstration ever known in history was that which occurred in Chicago last Friday, the 9th. The date marked the anniversary of the awful calamity that the young metropolis had to bear 26 years ago—the great Chicago fire. The parade of the cent money loan consumed nearly seven hours' time in passing a great point and was composed of nearly 100,000 enthusiastic followers of McKinley. The demonstration was a feat of splendid management and displayed the overwhelming strength of republicans and sound money sentiment in the former stronghold of democracy.

In connection with a great many other thoughtful men, Archbishop Ireland commended the free silver plank of the Chicago

popercrate platform the most dangerous and baneful to the country. He says: "The movement which had its expression in the Chicago convention, and which now seeks by means of popular suffrage to enthrone itself in the capital of the nation, is, in its logical effect, against the United States; it is, in its logical effect, the occasion of 1891, which our soldiers believed they had assigned to eternal death at Appomattox, but which demands again recognition from the American people. The declaration in the Chicago platform has and can have no other meaning."

Day by day the anti-silver converts to the glittering fallacies of the silver forces are coming back into the line of the sound money and national integrity and honor column. This has been a campaign of education. It is educating those who were temporarily led astray, that the real panacea is to open the mints to the unemployed, thus making a home market for the products of the farm. Protection will accomplish this; but it must be backed by sound money with which to pay the laborer and producer.

Candidate Bryan complains that the C. R. & Q. R. R. Co. is forcing its employees to vote for McKinley. Bosh, interview our gentlemanly and efficient station agent here, G. H. Bunge, and ascertain his politics. He is not ashamed of his views on politics or any other subject and while not offensive in his arguments will give free expression to his opinions. He does not carry the "stock label" of the popercrat stump speakers that "he has always been a republican"—makes no such pretension or claim.

Those who claim that the price of silver has gone down because it has been demonetized by the United States and other great nations, will please explain, if this depreciation has resulted from the action of all these nations jointly, how there can be an appreciation of silver to the old figure by the independent action of one of them? If it took all of them to degrade that metal, as claimed, to its present position, why should it not require all of them acting in harmony to restore it to favor?

Every person having resided in the state one year, in the county ninety days, and in the election precinct thirty days, next preceding any election therein, who has obtained a certificate of naturalization, before any court of record, or who shall be a male citizen of the United States, above the age of 21 years, shall be entitled to vote at such election.

The popercrats are claiming the north side precinct in Downers Grove will be solid for Bryan. We presume this claim is based upon their list of "claimed" ad vocates of free silver, which has been proven to be padded in more than one instance. Their claims will fall as far short of being the truth in this latter instance as when the former claim was made.

The popercrats claim 40,000 majority for Bryan in Nevada. In 1890 the total population of that state, men, women and children, was only 44,327 and it had lost in 10 years, 17,438. That seems to be on a par with the reckless statements of some of their alleged "leaders" in Downers Grove.

A safe manufacturer in Tuesday's Chicago News advocates free coinage on the ground that labor in his line costs so much measured by the gold standard, that he cannot sell safely to compete with those who manufacture on a free coinage basis.

Voters who failed to register last Tuesday will have another opportunity next Tuesday, the 20th, of which they should avail themselves. Remember, you throw away a valuable vote if you neglect this duty.

A vote for McKinley is a vote to return to the prosperous times of the Harrison administration. A vote for Bryan is a vote to return to cheap paper money—times of panic and depression. For whom will you vote?

The "kickers" kept themselves well hidden at the laying of the corner stone at Wheaton. Not a murmur of dissent was heard.

## Nervous Prostration

Cared by Dr. Miles' Nervine.

Prolonged derangement of the nervous system not only affects the brain and mental powers, but develops disease in some of the vital organs. The most dangerous of these indirect results is when the heart is affected. This was the case of the Rev. N. F. Surface, Fawn River, Mich., who writes under date of Feb. 14, 1895:

"Fourteen years ago I had a slight stroke of paralysis. Overwork brought on nervous prostration. I was exceedingly nervous and the exertion of public speaking caused heart palpitation that threatened my life. I used two bottles of Dr. Miles' Nervine and now I feel better than I ever expected to feel again. I can speak for hours without tiring or having my heart flutter as it formerly did, and I have you to thank that I am alive today."
