dicial convention to endorse him by nominating him to succeed Judge Upton who will retire. A place he is amply qualified to fill. DuPage county will certainly speak out next Tuesday at the county convention, and the delegation which will go to Elgin in February will be instructed by unanimous vote of the convention to give Judge Brown a sould support.

One of the most important recommen dations which, it is said, Govenor Tanner will make to the legislature in his first message will be for the establishment of a board of pardous. The appoyance suffered by the chief executive of the State on this one feature of his duties is so great that a change is demanded and it is said a bill will be introduced in the session looking to the establishment of a board similiar to those in existence in New York and Pennsylvia. In order to make no mistake in granting executive clemency a great deal of time must be given in making investi-Last week the REPORTER noted the cul- gations of the claims set up by the applimination of the rowdy actions of some of cants. Some one is very much to blame for the manner in which the diphtheria quarantine restrictions are disregarded in Downers Grove. Since diphtheria first made Office Haura: its appearance in the village last spring, and the first case was quarantined, there has been an unwholesome disregard of the health officer's orders. Occupants of houses that have been quarantined have in several instances ignored the law and holdto congregate for lawless sport or criminal ly went about their business without let or hindrance. It is about time such procedure was stopped. It is the health officers business to see that the law is obeyed not only to protect citizens, but to and if no other method is effective, a few arrests for disregarding quarantine might have the desired effect. Perhaps then those men who imagine their business interests of more importance than the publie health may learn a grain of caution and common sense.

> The subject of good roads is just now being agitated throughout the state. The rapid development of the country adjacent to Chicago in truck gardening and dairying has emphasized the necessity of a more extensive good roads system. Hundreds of faomers in this section are engaged in truck gardening and dairying. They must get their product to the railroads daily and quickly. To do this they they need good roads. Bad roads cost the farmers in loss of time, injury to stock and vehicles and vexation and worry, thousands of dollars annually. Good roads lessen the cost of transportation, lessen the time required to make the trip, lessen cost of repairs to vehicles and should be extended as fast as means permit.
