A SCIENTIST SAVED

President Barnaby, of Hartsville College, Survives a Serious Illness Through the Aid of Dr. Williams' Pink Pills for Pale People.

From the Republican, Columbus, Ind. The Hartsville College, situated at Harts- | United Brethren Church at a small place ville, Indiana, was founded years ago in | in Kont County, Mich. Being of an amthe interest of the United Brethren Church, bitious nature, I applied myself diligently when the state was mostly a wilderness, to my work and studies. In time I noticed and colleges were scarce. The college is well known throughout the country, former students having gone into all parts of the world.

A reporter recently called at this famous seat of learning and was shown into the room of the President, Prof. Alvin P. Barnaby. When last seen by the reporter Prof. Barnaby was in delicate health. Today he was apparently in the best of bealth. In response to an inquiry the professor said : "Oh, yes, I am much better than for some time. I am now in perfect health: but my recovery was brought about in rather a peculiar way."

"Tell me about it," said the reporter. "Well, to begin at the beginning," enid the professor, "I studied too hard when at school, endeavoring to educate myself for the professions. After completing the common course I came here, and graduated from the theological course. I entered | bulk, or by the 100), by addressing Dr. Wilhe ministry, and accepted the charge of a linus' Medicine Co., Schenectady, N. Y.

When men look to the Lord there is

that my health was failing. My trouble was indigestion, and this with other trou-

bles brought on nervousness. "My physician prescribed for me for some some time, and advised me to take a change of climate. I did as be requested and was some improved. Soon after, came here as professor in physics and chemistry, and later was financial agent of this college. The change agreed with me, and for a while my health was better, but my duties were heavy, and again I found my trouble returning. This time it was more severe and in the winter I became completely prostrated. I tried varions medicines and different physicians. Finally, I was able to return to my duties. Last spring I was elected president of the college. Again I had considerable work, and the trouble, which had not been entirely cured, began to affect me, and last fall I collapsed. I bad different doctors, but none did me any good. Professor Bowman, who is professor of natural science, told me of his experience with Dr. Williams' Pink Pills for Pale People and urged me to give them a trial, because they had tenefited him in a similar ease, and I concluded to try them.

"The first box helped me, and the second gave great relief, such as I had never experienced from the treatment of any physician. After using six boxes of the medicibe I was entirely cured. To-day I am perfectly well. I feel better and stronger than for years. I certainly recommend this medicine."

To alluy all doubt Prof. Barnaby cheerfully made an affidavit before

Woman's Nerves.

Mrs. Platt Talks About Hysteria. When a nerve or a set of nerves supplying any organ in the body with its due nutriment grows weak, that organ languishes. When the nerves become exhausted and

die, so to speak, the organ falls into deeny. What is to be done? The answer is, do not allow the weakness to progress; stop the deteriorating process at once ! Do you experience fits of depression, alternating with restlessness? Are your spirits easily affected, so that one moment you laugh

and the next fall into convulsive weeping? Again, do you feel something like a ball rising in your throat and threatening to choke you, all the senses perverted, morbidly sensitive to light and sound, pain in ovary, and pain especially between the shoulders, sometimes loss of voice and nervous dyspepsia? If so, you are hysterical, your uterine nerves are at fault.

You must do something to restore their tone. Nothing is better for the purpose than Lydia E. Pinkham's Vegetable Comsound; it will work a cure. If you do not understand your symptoms, write to
