You can talk freely to a woman when it is revolting to relate your private troubles to a man-besides, a man does not understand-simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you

can consult a woman, whose knowledge from actual experience is greater than any local physician in the world. The following invitation is freely offered;

accept it in the same spirit: MRS. PINKHAM'S STANDING INVITATION.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken.

Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance. - Lydia E. Pinkham Medicine Co., Lynn, Mass.

out of the state of Massachusetts. This a matter of much regret. Thus far the dangerous and destructive pest now gypsy bug has cost Massachusetts ecvers an area of 200,000 square miles, \$700,000, and it will cost a few hundred but its ravages are not nearly so ex- thousand mor- before there is an end tensive and could as they were a few of it. Year after year vast sums were years ago. The United States never had appropriated to stamp out the bug, and
