NO ASSESSMENT FOR SEPTEMBER.
 It is announced that the Modern Woodmen will have no assessment to pay for September. This makes two skipped this year, the first being in April. This is the first time for several years that the number of assessments has fallen below 11, and speaks well for the health of the men comprising the great and growing order.

NEW DUPAGE COUNTY MAP.
 The new DuPage county map is now completed and ready for delivery. It shows everything usually found on a county map, besides a large amount of other useful information.

It has been critically examined by a great many people of each township who are competent to judge, and passed upon as being correct.
 It has the indorsement of all the county officers, and the board of supervisors have practically endorsed it, by ordering five copies in the new court house.

The map shows all farms with the number of acres and names of owners, together with all section lines and numbers, wagon roads, railroads, streams, cities, villages, post-offices, cross roads, settlements, school district boundaries, and numbers, school houses, and part of the drainage canals of the Chicago Sanitary District that passes through DuPage county. The diversions of the channel of the Desplaines river that cost millions, are also shown.
 The size of the map is 46x54 inches, beautifully colored by school districts, and with a distinct band of colors around the boundaries of all the corporations.

For use in the school rooms of the county the map is especially useful as it shows the localities in which the pupils are personally interested, and consequently references to it would attract their attention and retain it. Pupils can readily see from the map how a township is numbered, how school districts, cities and villages are bounded and what they are, which would all lead to the inquiry of why are these divisions made. This would naturally lead the teacher to explain the government of school districts, townships and counties, all of which are in the hands of people in whom the children are interested. And thus the pupils would be instructed in the rudiments of geography and government without feeling the effort usually required in the study of subjects in which they have no personal interest.
 The map has been presented for inspection to only fourteen school boards, and without a single exception, they have each ordered a copy for their school.
 The price of the map, complete, mounted on strong cloth, with rollers at top and bottom, is ten dollars. Communications addressed to Russell & Prout, Wheaton, Ill., will be promptly answered.

Leon Schofield, Walter Weaver and Oliver Heidebrand have returned from their little journey in the world, Klondikeward. They found the pathway to the gold diggings anything but a smooth road to travel and became disgusted and homesick when arriving at Lincoln, Neb., and returned on the first freight.

All young men and young ladies should have a knowledge of business affairs. In order to secure this, a few months spent in such an institution as the Metropolitan Business College of Chicago, will be a splendid investment. Shorthand, typewriting and commercial branches thoroughly taught. Now is a good time to enter.

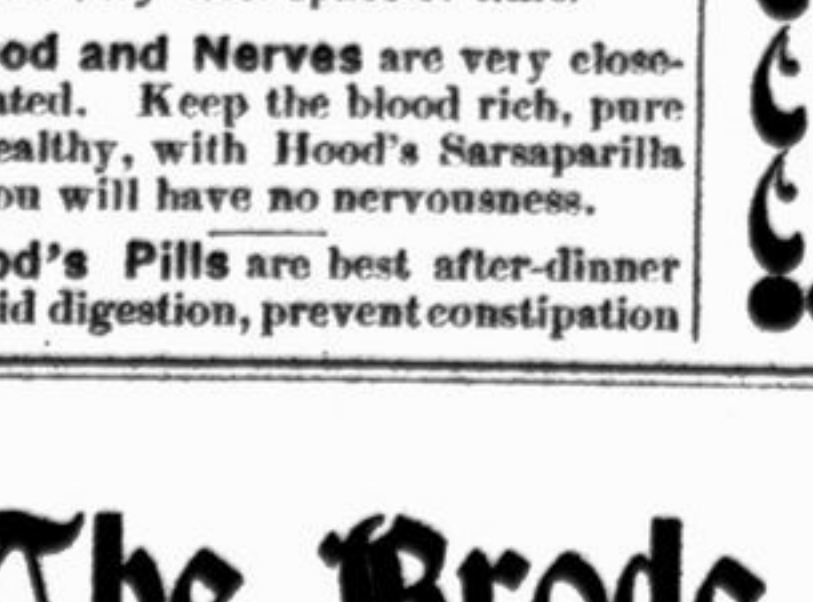

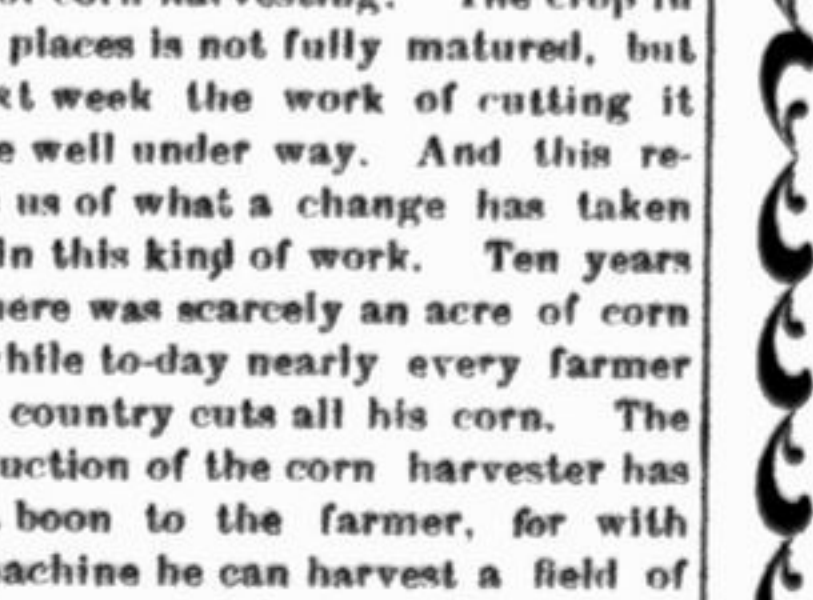

Mrs. Elliott of Washington street was quite seriously burned while lighting a gasoline stove Tuesday morning. The oven burner which had been burning previously, had gone out and the oven became filled with gas. The lady applied a match and an explosion followed. Mrs. Elliott's face was badly burned and the hair and eyebrows were singed, but the wounds are not considered dangerous.

Farmers are now about to begin their work of corn harvesting. The crop in many places is not fully matured, but by next week the work of cutting it will be well under way. And this reminds us of what a change has taken place in this kind of work. Ten years ago there was scarcely an acre of corn cut, while to-day nearly every farmer in the country cuts all his corn. The introduction of the corn harvester has been a boon to the farmer, for with this machine he can harvest a field of corn in a very brief space of time.

The McCormick
Vertical Corn Binder
 Has demonstrated its worth upon thousands of fields. An economical machine to buy because it pays its way. It works where others fail, and, moreover, it SAVES THE CROP where others waste it.

Better than the fresh product is Evaporated Cream...

Better and goes farther than milk and cream. Excellent for tea and coffee. Can be diluted and used for berries and sauces. St. Charles Evaporated Cream is prepared by an improved process by which all water is removed by evaporation, and the cream only condensed and retained. The utmost cleanliness is observed in its manufacture. Try one can. It is a superior article.
