MANY STRIKERS KILLED

Deputy Sheriffs Fire Upon Marching Miners in a Public Road.

The coal strike situation reached a terrible crisis on the outskirts of Latimer Friday afternoon, when a band of deputy sheriffs fired into a crowd of miners. Reports run from fifteen to twenty odd killed and forty or more wounded.

Sheriff Martin claims he ordered the strikers to disperse and was set upon and badly wounded. For the protection of his life, he says, he ordered the deputies to fire. The strikers were on a public road. Great indignation is expressed at the conduct of the sheriff, which is believed to have been uncalculated for. Governor Hastings immediately sent troops to the scene.

The closing of the cafe de Madrid, for a long time a favorite resort for Parisian men of letters, recalls a couple of anecdotes, says the Bookman. Proth resisted, saying there were too many quarrels in that cafe, only people with hot tempers, etc.

MRS. KRINER'S LETTER

About Change of Life.

"I suffered for eight years and could find no permanent relief until one year ago. My trouble was Change of Life. I tried Lydia E. Pinkham's Vegetable Compound, and relief came almost immediately. I have taken two bottles of the Vegetable Compound, three boxes of Pills and have also used the Sensitive Wash, and must say, I have never had anything help me so much, I have better health than I ever had in my life. I feel like a new person, perfectly strong. I give the Compound all the credit. I have recommended it to several of my friends who are using it with like results. It has cured me of several female diseases. I would not do without Mrs. Pinkham's remedies for anything. There is no need of so much female suffering. Her remedies are a sure cure."—MRS. A Question Answered.

The State Board of Nebraska recently sent out circulars to the farmers of the state, asking the question: "Does farming pay?" The following letter reproduced from the September number of "The Corn Belt" would seem to answer the question pretty effectively:

Seward, Neb., Aug. 25, 1897. To the Editor of the Corn Belt: I landed in Seward County Nov. 22, 1868, from Pennsylvania overland with a team and wagon and about \$800 in money. I now have 400 acres of well improved land within sight of the county seat, unencumbered, worth \$20,000. I also have 30 head of horses, 35 head of thoroughbred Hereford cattle and 100 head of thoroughbred Poland-China hogs, some 8 or 10 of them costing me \$110 each. I also have city property to the amount of over \$2,000, and some \$3,000 or more of personal property, besides several thousand bushels of corn and grain. I have made it a point to feed all I raise. I do not believe I have sold over a thousand bushels of corn since I have lived in the state. While we have had a few short crops, we have never had a total failure. I am well pleased with farming in Nebraska and would advise all my friends to cast their lot with us. Yours very truly, Levi Hofer.

Miraculously Saved.

Up in the city hall they were talking about fires the other day, and somebody spoke of the narrow escape a citizen had not long ago. According to the story he left a certain dwelling just ten minutes before it was struck by lightning.

"It was an awful close call," said the narrator.

Chief Dickinson's eyes twinkled.

"That reminds me of a narrow escape I had during the war," he said. "I arrived on the field of battle—it was one of the fiercest engagements of the war—just twenty-four hours after the fight was over. Of course, if I had been there in time I would have been killed. In fact, I have often thought, with a shudder, of that unusually close call."

And the man with the lightning story walked away.—Cleveland Plain Dealer.

The Popular Jacket for Next Winter.

"The tendency of the winter jacket is toward the blouse effect, which is obtained by darts," writes Isabel A. Mallon in the Ladies' Home Journal. "Yokes, collars, cuffs, pipings in fur, whether it be mink, Persian lamb, ermine, sable, silver and black fox, or monkey, will be popular. Velvet and silk braid of all widths are much used. Satin cloth is really the novelty of the day, and obtains in heliotrope, green, mode, golden brown, silver gray, royal blue, dove and Lincoln green. On this are seen, not only the fur decorations mentioned, but also a very thick, coarse black woolen braid, and tiny straps of leather matching or contrasting with the cloth in color. Collars continue high, are gored and undulating, and may be led with fur, velvet or lace. Watteau effects are seen. Capes will continue to be worn. The novelty in their trimming is a founce of the same material about the edges, described by the French modiste as 'c t in round.'"

Who are Injured by the use of coffee.

Who are injured by the use of coffee. Recently there has been placed in all the grocery stores a new preparation called GRAIN-O, made of pure grains, that takes the place of coffee. The most delicate stomach receives it without distress, and but few can tell it from coffee. It does not cost over 1/4 as much. Children may drink it with great benefit. 15 cts. and 25 cts. per package. Try it. Ask for GRAIN-O.

A Criticism.

"But," said the argumentative friend, "there is some reason for people complaining at the increase of price for sugar." "Not necessarily," replied Senator Sorghum blandly. "Sugar is unhealthy as a diet, anyway. Where they made their mistake was in not letting sugar alone and saving up their money to buy stock."—Washington Star.

The Blue and the Gray. Both men and women are apt to feel a little blue, when the gray hairs begin to show. It's a very natural feeling. In the normal condition of things gray hairs belong to advanced age. They have no business whitening the head of man or woman, who has not begun to go down the slope of life. As a matter of fact, the hair turns gray regardless of age, or of life's seasons; sometimes it is whitened by sickness, but more often from lack of care. When the hair fades or turns gray there's no need to resort to hair dyes. The normal color of the hair is restored and retained by the use of Ayer's Hair Vigor.
