A meeting of the vice presidents of the DuPage County Agricultural society will be held on Saturday, February 3, at two o'clock p. m. at the court house, Wheaton, to fix a date for the 1900 fair, and to appoint superintendents of departments. Every officer of the association should be present.

An exchange tells us that the proper method to keep apples in winter is to wrap them in old newspapers so as to exclude the air. A contemporary suggests that the newspaper must be those on which the subscription has been paid, otherwise dampness resulting from what is "dew" may cause the fruit to spoil.

Are you interested especially in baseball, golf, billiards, shooting, bowling, prize fights, yachting, bicycling or race track news? Read the Times-Herald and you will know more about these things—any one of them and all of them—than your neighbors will know if they happen to be unfortunate enough to omit the reading of this great Chicago newspaper from their daily pleasures.

It has become the universal remedy for that disease. M. V. Fisher of Liberty, W. We believe that it is not only the best cough remedy, but that it is a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by Bush & Simonson.

Danger Signals!

Do you take cold with every change in the weather? Does your throat feel raw? And do sharp pains dart through your chest?

Don't you know these are danger signals which point to pneumonia, bronchitis, or consumption itself? If you are ailing and have lost flesh lately, they are certainly danger signals. The question for you to decide is, "Have I the vitality to throw off these diseases?"

Don't wait to try SCOTT'S EMULSION "as a last resort." There is no remedy equal to it for fortifying the system. Prevention is easy.

SCOTT'S EMULSION is the one standard remedy for inflamed throats and lungs, for colds, bronchitis and consumption. It is a food medicine of remarkable power. A food, because it nourishes the body; and a medicine, because it corrects diseased conditions.
