SEVENTEENTH YEAR.

DOWNERS GROVE, DuPAGE COUNTY, ILLINOIS, THURSDAY, FEBRUARY 15, 1900.

NUMBER

## SPECIAL MEETING OF THE BOARD

All members of the village board were present last Friday at a special meeting called to fix rates for commercial electric lights. The object of the meeting was not accomplished, however, the trustees deeming a more thorough investigation of the matter of rates to be necessary and desirable. A committee composed of Trustees Bush, Prince, Mochel and Hughes will inquire into the methods and rates of neighboring villages and cities and report at the next regular meeting.

An ordinance, prepared by Attorney Slusser providing for the licensing of electrical engineers, was read, passed and approved, and is as follows:

**AN ORDINANCE** providing for the licensing of electricians in the village of Downers Grove, DuPage County, Ill.: Be it ordained by the president and board of trustees of the village of Downers Grove, DuPage county, Ill.:

Section 1. That any person desiring to do business in the village of Downers Grove as an electrician shall first obtain a license as such electrician from the president of said village, and shall pay an annual license fee therefor of ten dollars and from the time of the granting a license in any case until the close of the fiscal year a ratable portion of said annual fee shall be charged. No person shall receive a license as electrician who shall not have attained the age of twenty-one years and who shall not furnish satisfactory evidence of his responsibility and skill as an electrician, and of his ability in accordance with the rules, regulations and ordinances of the said village of Downers Grove; and provided, further, that no license shall be issued under the provisions of this ordinance until the applicant shall execute a bond, with two or more sureties, to be approved by the village board, in the penal sum of one thousand dollars, conditioned that he will indemnify and save harmless the village of Downers Grove from all accidents and damages arising from any negligence or unskillfulness on his part in either the execution or protection of his work, or from any unlawful or inadequate work done under or by virtue of his license, and will faithfully comply with all the rules, regulations and ordinances of the village of Downers Grove.

Section 2. When two or more persons are co-partners licenses shall issue in the name of the firm, and no license shall be transferred.

Section 3. Every licensed electrician shall be held responsible for all of the acts of his agents or employees done by virtue of his said license.

Section 4. The work of all licensed electricians shall be in conformity to such rules, regulations and ordinances as may be from time to time prescribed by the village of Downers Grove, and such work shall be under the direct supervision of the electrical engineer of the village and shall be performed to his satisfaction.

Section 5. This ordinance shall be in force from and after its passage and legal publication.

Passed February 9, 1900.  
Approved February 9, 1900.  
P. C. GALLUP, President.  
BERT C. WHITE, Village Clerk.

The bond of M. K. Brunson as plumber was approved.

It was moved and carried that the president have 500 pamphlets printed, containing certain sections of the "Public Health Laws of Illinois," concerning contagious and infectious diseases. The same to be placed in the hands of the health officer for distribution.

The matter of engaging an electrical engineer was deferred to a later date, pending further examination of the candidates for the position.

Board adjourned till the next regular meeting.

## LETTER FROM NEW MEXICO.

The following letter, from a former resident of Downers Grove to W. H. Edwards, contains an interesting description of New Mexico. The writer is a daughter of Rev. E. L. Scofield and is well known here:

"Roswell, N. M.  
Mr. W. H. Edwards: Dear Sir—Yours of recent date came this evening, and as you are liable to get but a business letter from Mr. R. I take the liberty of answering your perfectly natural questions in regard to this strange land to which we have come. Let me say now that we like it here; not only because Mr. R. is improving in health and gaining in flesh, but it has so many new untried experiences—so much to learn. As you suggest, it is wild; we are surrounded by prairie where once the buffalo herds roamed and "Lo, the poor Indian," followed closely after. The prairie dogs are still here and go barking into their holes as we drive by. Back in the mountains are deer, elk, bear, wildcats, rattlesnakes, wolves, etc., but as no one but Chicago hunters and Mexicans frequent the mountains it does not matter much. The people are not wild, but in an average gathering every state if not city in the union will be represented, and they are people of the higher classes—many health seekers. Since the opening of the Pecos valley by a railroad this town has grown from 800 to 3,000 in less than two years. We recently drove to one of the finest ranches in the U. S. recently. It contains 20,000 acres, 13,000 of which is in alfalfa, all irrigated. It is stocked with 2,000 head of cattle and 25,000 lambs, while 38 men are employed. We have 75 artesian wells, one of which sends a 6-inch stream 28 feet high; a \$25,000 school house, fine court house, five fine churches; ours is of cut stone, art windows, a \$4,000 house, all paid for. Our Wednesday Afternoon Club has eighty women enrolled. A men's club has 100 members, with public reading rooms, etc. House rents, appetites and prices are all big here. We pay \$30 per month for a 3-room cottage, but were lucky to get it at that price. Hundreds of fine families live in tents until they can build their six, eight or even ten thousand dollar homes. The climate is superb. Christmas and New Years we sat on the front porch and enjoyed the glorious sun-sets, for which this country is justly noted. Ice has formed one or two nights, but aside from that the air has been balmy, soft, dry, cool, bracing. You can drive out two or three miles and shoot all the ducks you care to. The wood we burn may interest you. There is three kinds—juniper and Texas pine, which grow in the mountains, and the mesquite root which is dug on the plains. This looks like large grape vines and shows a top growth of but 6 to 9 inches, but when struck with a grubbing hoe sometimes 15 to 20 feet of root comes to light. It sells at \$6 per cord and burns like hard coal. During the past two years 2,000 miles of irrigation ditches have been dug in this vicinity, and with moisture thus obtained all kinds of fruit trees, including peach, plum, apple, apricot, fig, do well here. Some things we don't have here are tramps, locks on our doors, mosquitoes, grippe, and neither extreme of hot or cold weather. The only danger that threatens us as a family is that we will starve to death between meals. At present four good meals and a lunch or two every day keeps peace in the family. Our church has let a contract for a nice little cottage for a parsonage to-day, so in 30 days we shall have a home. They often contract for a house and in less than a week the parties are living in it. They do not plaster their houses here, but put on siding, building paper, rough boards, canvas, and fine paper, and as the woodwork is fine—teaswood, it needs but one coat of hard oil to make a good finish inside. \* \*

Truly yours, MRS. V. C. ROCHO."

## TO WHOM IT MAY CONCERN.

We wish to notify the citizens of this county that we have secured the agency for Dr. Caldwell's Syrup Pepsin the great cure for constipation, indigestion, sick headache and stomach trouble, and guarantee it to do as recommended. We always keep the best drugs on hand and solicit a call, promising the very best of everything.

Yours truly, BUSH & SIMONSON.

Mr. Sucher left Naperville seventeen years ago and has been engaged in the clothing business until lately. Edwin Frank has purchased an anti-septic cabinet which he has placed in his barber shop for the protection of his customers. It consists of a case in which all his tools, towels and implements are placed before using. An alcohol lamp burns disinfecting tablets, the vapor of which permeates the case and destroys any disease germs which might be upon any of the utensils. In this way any possibility of the danger of contracting diseases from the tools or linen is obviated.

The lecture given by Mary Rose Beritzhoff at Carpenter's Hall, on St. Valentine's day, proved a complete success in spite of the snowstorm that raged, there being about sixty ladies present. The lecturer spoke in such an interesting and convincing manner on "Facts Women Should Know," that the audience was all attention throughout the discourse. At the close of the same the speaker promised to give the ladies another talk on Feb. 28 at Carpenter's Hall.

W. H. Edwards, cashier of the Farmers & Merchants bank, has a curiosity in the form of a ten dollar treasury note, which he secured of Mr. Lehman of Laoc, who was unfortunate enough to accept it in a business transaction. The note is a genuine treasury bill and the curious part of it is that some former owner of the bill had carelessly erased the figures and words of the amount evidently with the intention of raising the figure. Wherever the figures "10" or the word "ten" occurred, the figure "1" and the word "ten" were carefully erased.

## PATRIOTIC BANQUET.

The event of the coming week will be the patriotic banquet given on Washington's birthday, at the Auditorium, by the ladies of the Methodist church. It will be remembered that the first one of these annual events was held last year, and in spite of inclement weather and the prevalence of sickness in the village, it was a great success. A glance at the program and menu following will give something of an idea of what may be expected this year.

## WEDNESDAY CLUB RECEIVES.

A delightful reception was given by the ladies of the Wednesday club at the home of Mrs. E. H. Prince on Oakwoods avenue Monday night. The reception was given in honor of the board of education, the school teachers and clergymen of the village and was attended by a large party, nearly two hundred people being present. The guests were received by Mrs. E. H. Prince and Mrs. E. C. Kuenzel, the president of the Wednesday club, in the handsome reception room. At nine o'clock a pre-arranged program was given which consisted of selections by an orchestra composed of Messrs. E. H. Prince, E. C. Kuenzel, A. E. Courtwright, Hantz, Wm. Roth, F. C. Lancaster and Wm. Lancaster, together with piano duets by Mesdames J. C. White and E. H. Libby, and vocal selections by Carlisle Tucker, all of which were well received and called forth repeated encores. During the evening the guests were ushered to the dining room, where a buffet luncheon of sandwiches, coffee and olives, was served. The orchestra closed the program with a selection and the function came to an end about midnight. Following is the musical program that was given:

## THE WRONG CLUB.

Some of the ladies (?) of the village, either through ignorance or malice, are endeavoring to bring the Downers Grove club into disrepute, and to that end have been circulating stories to its detriment. The officers and members of the Downers Grove club hearing of the stories circulated, immediately began an investigation of the charges, being fully satisfied in their own minds of the falseness of the story. The persons who had been instrumental in spreading the libelous slander on the good name of the club were interviewed and admitted their share in the gossip. It finally developed that the "club" designated in the slander was a "club" of young men and boys who have rented the rooms on the second floor of the Oldfield building, over the Chinese laundry, and that it was frequenters of this organization and not of the Downers Grove club that were concerned in the charges. This "club," in the minds of the gossip vendors, was conficted with the Downers Grove club, and the story implicating the latter organization resulted.

## A FAIR RECORD.

L. G. Schofield sold in 1899 over eight hundred garments in men's and boys' clothing. Every garment ordered was delivered and paid for in full. Not one dollar lost, one garment rejected or one garment on hand. With the year's experience and greatly increased facilities he hopes to double his trade in 1900.

The patronage at the clothing out-let at J. B. Moss' has been large. Fine goods at low prices the attraction.

## FIREMEN'S MASQUERADE BALL.

People in all sorts of costumes representing the inhabitants of all nations, danced on masquerade Tuesday night at the first annual masquerade given by the Downers Grove fire department. Shortly after 10 o'clock the maskers commenced dancing, and at 8:30, when the grand march began, fully 175 people crowded the field's hall to its fullest capacity. In fact, the crowd was almost too large for comfort, but the firemen made as comfortable as possible and the party proceeded with the best of order and good feeling. Music was furnished by Varolla Brothers' orchestra of Chicago and was pronounced excellent. There was certainly the most successful any masquerade ever given in Downers Grove, and the firemen contemplated making it an annual occurrence. From 8:30 until 10:30 o'clock the fancy waltzes and two-steps with waltzes, the ladies, old maids and stately old dames of the time of Washington. At 10:30 masks were removed and the prizes announced. C. F. Davis and the musicians officiated as judges, and their awards of the prizes found popular favor. The awards were as follows:
