and reputation that is world-wide, became that preparation is meritorious M you go into a store to buy an article that has achieved universal popularity Whis Cascareta Candy Cathartic for ouample, you feel it has the endorsement of the world. The judgment of the people is infallible because it is impersonal. The retailer who wants to sell you "something else" in place of the article you ask for, has an ax to grind. Don't it stund to reason? He's trying to sell something that is not what he represents it to be. Why? Because he expects to derive an extra profit out of your credulity. Are you easy? Don't you see through his little game? The man who will try and sell you a substitute for CASCAR-TTS is a fraud. Beware of him! He is trying to steal the honestly earned benefits of a reputation which another business man has paid for, and if his conscience will allow him to go so far. he will go farther. If he cheats his customer in one way, he will in another and it is not safe to do business with him. Beware of the CASCARET substitutor. Remember CASCARETS are mover sold in bulk but in metal boxes with the long tailed "C" on every box and each tablet stamped C. C. C.

Queer Combination of Names. Some queer combinations of names arise in cases at law. A Mr. Driver in a southern state was accused of stealing hogs from a Mr. Pig. There was a witness of the name of Hamm and lawyers with the suggestive names of Miles and Chew in the case. Another recent case was headed "Bridge va Ford." Others bore the titles "Bridges vs. Shallcross," "Just vs. Wise," "Tan-

mer vs. Skinner."

Best for the Bowels. No matter what alls you, headache to a cancer, you will never get well antil your bowels are put right. GASCARETS help nature, cure you without a gripe or pain, produce easy matural movements, cost you just 10 cents to start getting your health back. CASCARETS Candy Cathartic, the genuine, put up in metal boxes, every tablet has C. C. C. stamped on it. Beware of imitations.

I concluded to write to you for advice. In a few days I received such akind, motherly letter. I followed your instructions and am my 'old self' again. noon on the Lehigh and New England railroad, near Slatington, Pa. Several families were wiped out of existence and many homes were rendered desolate. Seven persons are lying in hospitals, most of whom cannot recover. Out of a party of twenty-four only three escaped. The dead are: Remaley, aged 70, of Slatington; Mrs. Eli Demaley, his wife, aged 65; Mrs. James Kern, their daughter, aged 32; Samuel Mummy, aged 60, of Walnutport; Mrs. Samuel Mummy, his wife, aged 58; Mrs. Elias Sourwine, a widow, aged 53, of Slatington; Mrs. William Kane, aged 51, Walnutport; Miss Carrie Smith, aged 22, of Walnutport; Mrs. James Minnich, aged 33, of Walnutport; Mrs. Tilghman Kuntz, aged 35, of Walnutport; Mrs. Stephen Reinhard, aged 60, of Slatington; Mrs. Susan Choen, aged 67; Mrs. Alfred Rhorig, Walnutport; Mrs. Robert Selbert, Walnutport; David Kern, 5-yearold son of Mrs. James Kern. The inured are: Miss Dizler of Walnutport; will die. Mrs. William Resch, hurt internally; may die. Louis Kuntz, seriously; may die. Miss Carrie Nagle of Walnutport, internal injuries; may die. George Minnich; probably die; Bryan Walp, Walnutport; may die; Miss Alice Nagle, will recover. The omnibus, driven by a man named Peters, was returning to Slatington from a funeral the occupants had been attending at Cherrysville. The coach belonged to Henry Bittner of Slatington, and the dead and injured were nearly all relatives of Sophia Schoeffer, at whose obsequies they had been present. The train was a special, and consisted of an engine and one car. A the point at which the collision occurred there is a sharp curve in the road, and the omnibus came along at a good rate of speed, the occupants unconscious of any impending danger. As the vehicle swung around the curve the engine and car came in sight. It was too late to stop either the omnibus or the train, and, as the driver of the former whipped up the four horses to cross the track ahead of the train, the latter crashed into its middle The occupants were thrown in all directions, bruised and bleeding. The fifteen dead were killed outright. Physicians and a special train were sent for, and the injured were taken to South Bethlehem. No watchman is employed to warn teams or pedestrians of approaching trains, and those living in the vicinity say it is impossible to hear a train coming. A peculiar feature of the accident was that the horses drawing the omnibus escaped unhurt.

Ship Americans Back Home. The department of state at Washington is in receipt of a dispatch from the consul general of the United States at Cape Town, dated July 9, further relating to the shipment of American on British transports. In this instance Mr. Stowe remarks that he sends home prevented. The means used to obtain men at New Orleans, as told by the men, are simply disgraceful."

Socialist Editor Arrested.

Max S. Hayes, editor of the Cleve. fand Citizen, a socialist weekly, and nominee of the Socialist Labor party for the Vice Presidency of the United States until he withdrew in favor of Judge Harriman, was arrested while addressing a street meeting at Cleveland. The meeting was one of protest against the twenty-five-year extension of Senator M. A. Hanna's street railway company's franchise. Hayes spoke bitterly against Mayor Farley. The police say they arrested Hayes for using bad language, but Hayes and his friends say he said nothing but what was proper, and insisted the arrest was because he abused the mayor. Hayes was released on bail.

Respite for Condemned Men. The executive department of Arizona has been advised by the department of justice at Washington that a respite has been granted Thomas and William Halderman, whose execution was to take place at Tombstone, Aug. 10. The respite until Oct. 5 will give time to substantiate the assertions that the killing of Chester F. Ainsworth, deputy sheriff, and Ted Moore in the Chiricahua mountains a year ago was in self-defense.

Suicide Dies Amid Flames. The body of Mrs. Watkins, an old woman living in Hamilton township, four miles from Decatur, Mich., was found in the woods, where she had been cremated. She left the house in the morning to gather berries. A search was made and late in the afternoon her body was found some distance from the house. She had poured kerosene over her clothing and then set it afire. The jug in which was the kerosene and matches were found a short distance from the body. Suicide was evidently her intent.

Birthplace of Dr. Johnson. The announcement that the Lichfield City Council has purchased the birthplace of Dr. Samuel Johnson, in Market square, is not the first sign of the town's appreciation of its most illustrious son. In 1767, at a common hall of the bailiffs and citizens, it was ordered (without solicitation) that lease of the ground upon which the house stood should be granted to the doctor for a term of ninety-nine years at the old rent, which was five shillings, and that no fine should be paid. Johnson also had a high opinion of his native town. "Sir." he said to Boswell, "we. are a city of philosophers; we work with our heads, and make the boobles of Birmingham work for us with their hands." It was in Lichfield, too, that Johnson fell in love with an actress who played Flora in "Hob in the

A BANKER'S DISCOVERY.

What to use when you are sick is very important subject. In a large number of cases it is far better to call a physician than to experiment with a large number of remedies now on the market. There are remedies sold, however, which produce wonderful results, far surpassing any doctor, but to separate these from the worthless class is a very difficult task.

In Topeka, Kansas, there is perhaps one remedy which is revolutionizing the practice of medicine. A gentleman by the name of Dr. W. W. Gavitt, who for a number of years has been in the banking business, has been experimenting and has made in the last few years, it is said, some most wonderful discoveries for old chronic diseases, especially kidney, liver and stomach troubles.

The western papers are full of comments. It is causing a great sensation with the doctors and invalids. A two cent stamp would likely bring you all the particulars.

Daisles in the South.

A southern man says the daisy was never known in the south until after the war. Now every part of the south visited by the Union army is covered with daisles, "Sherman brought them to us," he said, "and the march to the sea can be followed in the summer time by keeping where the dalay grows. The seed seems to have been transported in the hay that was brought along to feed the horses, That is the only explanation that has ever been made of it."
