Live Stock Davelopment. Farmers' Review: As I have

taking your valuable paper for than twenty years I feel privileged to contribute the following comparison of our live stock at the fairs thirty years ago and now. When I began attending fairs in this county (Jefferson) the rural population was of course much smaller than it is now. f found a few McGee hogs with apron ears, big bones, long bodies and snouts to fit, and a few Chester Whites with faint spots in evidence of avatism. The other pens were full of hazel splitters well fattened. Cattle were all of the Durham type, white and roan, for the red fad had not reached the west then, and there were but three herds in the county. There was not a horse of any recently imported breed. The roadsters we had were rather too fast to haul milk and too slow to go for the doctor, but I think their owners were as proud of them as are the owners of Dexter and Patchen. The fun of the show was to see the riders, bareheaded and with overalls above their knees, co under the wire, time about four minutes. No carts or sulkies were in evidence then.

I must not forget the silver hoofs (sheep). They were generally the tag ends of large flocks of small Merinos from Washington county, Pennsylvania, that were shipped here and replaced at home by Vermont sheep of large breed. Many of these Merino sheep brought distress to their owners as they were narrow chested weaklings. We had no trouble with wolves as dead sheep were plentiful. The sheep at our county fair this year were fine specimens of the mutton type, as good as could be found any where, and their owners know now to make the most of them.

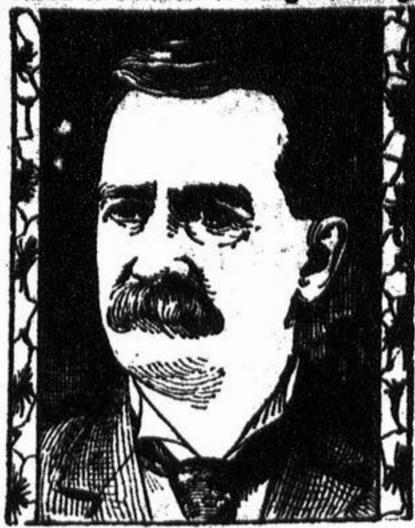

The swine pens this year were full of gilt-edged hogs of all breeds and included some prize winners from the state fair. In the cattle exhibits Shorthorns, Galloways, Polled Angus, Herefords and Red Polls were represented. More than one hundred horses were on exhibition, in fact there are more horses sold in this county than in any other in the state. A regula: auction sale once a month for nine months is held in Fairfield at which as large sums as \$40,000 have been pald. Buyers come from New York, Boston, Philadelphia, Pittsburg and the pineries. -John Ross.

Outlook for Cattle Prices. For many years to come the prices of cattle must be good, especially for the better class of meat. The recent depression had the effect of checking the breeding of cattle of all kinds and the number of cattle in the country fell steadily for a number of years. The result of that curtailment of the cattie supply is that the base on which to produce the yast numbers now annaally required is restricted. There is another factor that enters very largely into the solution of the problem and that is that the people are demanding more than ever a finer quality of beef. There was probable never a time when the difference between the poorest and best meats in the markets was so great as it is today. So it comes about that in the city of Chicago one can get porterhouse steak at 25 cents a pound or at 12 cents a pound, and at all prices between the two. The quality of the steaks varies, of course, according to the prices, except when poor meat is dishonestly palmed off on the customer for high-quality meat. The difference in prices indicates that the high-quality meats are in great demand. These high-quality meats come from pure-bred and grade stock. The increasing prices for the high-quality meats indicate that the money in the future for cattle raisers is in well-bred animals. Most assuredly that man that is doing his best to grade up his herd of cattle is paving the way for good money returns in the future. The experience of the past few years, when men rushed out of the business of breeding good cattle because there was a temporary fall in the values, should teach men today that the course of wisdom lies in steadily improving the quality of their cattle.

Increase of Cream Trade. The Dairy Commissioner of Massachusetts says: The consumption of cream is increasing very rapidly in Massachusetts. In all of the large cities cream has become a staple article in all grocery and provision stores, while large amounts are delivered by the milk peddler. Most of this cream comes from Maine, and several Maine creamerles have built up an enormous business. Professor Cooley estimates that only about onewentieth of the cream sold in Massachusetts is produced in the state. would seem as though the production of market cream holds out great possibilties to Massachusetta creameries. especially in view of the fact that the demand for cream is the largest in the summer, when the production of butter is largest, the surplus most burdensome and the price the lowest. Where there is a market for cream, butter fat is worth from 2 to 3 cents a pound more in market cream than in butter. The production of cream at creameries on the factory plan promotes uniformity in quality, and enhances popular confidence in it.

The farmer that is engaged in makng butter, and who desires to make the best, should ponder on the reasons that have tended to make creamery butter a leader on the market. It must not be forgotten that one of the reasons is that the butter made in the creamery is put, in a room by itself and kept isolated from all objectionable odors till it is sent to market. This is one thing that should receive the particular attention of the farmer, We have seen milk set to cream and, butter churned in cellars where all kinds of vegetables were kept

Oured of Catarrh of Long Standing.

Ex-Congressman A. T. Goodwyn.

Ex-Congressman A. T. Goodwyn, from Alabama, writes the following letter: The Peruna Medicine Co., Columbus, O.: Gentlemen-"I have now used two bottles of Peruna, and am a well man today, I could feel the good effects of your medicine before I had used it a week, after suffering with catarrh for over a

year." Respectfully, A. T. Goodwyn. Catarrh in its various forms is rapidly becoming a national curse. An undoubted remedy has been discovered by Dr. Hartman. This remedy has been thoroughly tested during the past forty years. Prominent men have come to know of its virtues and are making publie utterances on the subject. To save the country we must save the people. To save the people we must protect them from disease. The disease that is at once the most prevalent and stubborn of cure is catarrh. Public men of all parties recognize in Peruna a national catarrh remedy of unequaled merit. Send to Dr. Hartman, Columbus, Ohio, for a free book on catarrh.

The Prominent Feature.

Why do all writers and talkers on beauty conspire to neglect the most prominent feature? We hear a great deal about eyes, complexion, lips, hair, expression, even ears, but very rarely anything at all about noses. The heroine may have the most glorious orbs in the world, but who would look at her if she hadn't a nose? Whereas, if she had a good nose, what an amount of sympathy she would command if she had the misfortune to be blind as well. The fact is that a person without a nose is simply disgusting. When Gaspard de Tavannes said to Queen Catherine de Medicis that at a word from her he would cut off Diane de Poitiers' nose, he knew what he was about. The favorite's reign would not outlive this reduction of her charms. Therefore, let there be no more injustice to noses. Their prominence should be recog-

## DISCOVERIES OF THE CENTURY.

It is fortunate, since there are left no new lands to be discovered on this terrestrial globe, that inventive man has turned his mind to more useful things. So we have steam, electricity and many other advantages not enjoyed by our forefathers. Medicine, too, has made great strides; for even man's old enemy. Rheumatism, has at last found its master in Swanson's "5 Drops," The success of this truly marvolous specific for Rhoumatism has been astonishing and never equaled in the annals of medicine. It gives instant relief, kills germs, prevents disease and positively sures all forms of chronic and acute Rhonmatiam, Sciation and Neuralgia. It is also used with unfalling effect in all Nervous Affections of every description, Catarrh. Croup, Bronchitie, Stomach, Liver and Ridney Trombies, La Grippe, Maiaria, Creeping Numbuess and kindred diseases.

and by the Swanson Rheumatic Cure Co. 164 Lake street, Chicago, Ill. In some places the druggists are agents. If the smedy is not obtainable in your town, refer direct of the manufacturers. Large size bottles (300 dones) \$1.00, prepaid by express or mail. Trial bottle will be sent m receipt of 25 cents. Agents wanted in sew territory. Write now.

Restrice Rules on Freshman.

The sophomores at Columbia College have put forth sules for the guidance of the freshman class. There are to be "No girls, no canes, no pipes, no golf breeches, no hands in pockets no sporty socks, no turned-up trousers, no soft hats, no sitting on benches on campus." The freshmen are required to further pay general respect to the "sophs," Loud-mouthed freshmen are to be dealt with summarily.

Deafness Cannot Be Cared by local applications as they cannot reach the liseased portion of the ear. There is only oue may to cure deafness, and that is by consti-jutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Enstachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hear-ing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal ondition, hearing will be destroyed forever: nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of

the mucus surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for F. J. CHENEY & CO., Toledo, G.

Most Important Period in Woman's Existence.—Mrs. Jo son Tells How She Was Holp Over the Trying Time.

Owing to modern methods of living, not one woman in a thousand and proaches this perfectly natural change without experiencing a train of very annoying, and sometimes painful symptoms.

Those dreadful hot flashes, sending the blood surging to the heart until in seems ready to burst, and the faint feeling that follows, sometimes with a as if the heart were going to stop for good, are only a few of the symptoms of a dangerous nervous trouble. The nervos are crying out for assistance. The cry should be heeded in time. Lydia E. Pinkham's Vegetable Compound wa prepared to meet the needs of woman's system at this trying period of her list The three following letters are guaranteed to be genuine and true, and still further prove what a great medicine Lydia E. Pinkham's Vegutable

Compound is for women. "DEAR MRS. PINKHAM : - I have been sick for a long time. I was tol sick with flooding. All my trouble seemed to be in the womb. I ache all the time at the lower part of the womb. The doctor says the womb is sovered with ulcers. I suffer with a pain on the left side of my back over the kidney. I am tifty years old and passing through the change of life. Please advise me what to do to get relief. Would like to hear from you as soon as possible."

Mus. CHARLOTTE JOHNSON, Monclova, Ohlo. "I have been taking your remedies, and think they have helped me a great deal. I had been in bed for ten weeks when I began taking your Vegetable Compound, but after using it for a short time I was able to be up around the house. The aching in the lower part of womb has left me. The most if troubles me now is the flowing. That is not so bad, but still there is a li

every day. I am not discouraged yet, and shall continue with your medicine for I believe it will cure me."— Mas. CHARLOTTE JOHNSON, Monelove, Ohio. " I send you this letter to publish for the benefit of others. I was slok ! about nine years so that I could not do my work. For three months I so not sit up long enough to have my bed made. I had fivedifferent dogson all said there was no help for me. My trouble was change of life. I suffere with ulceration of the womb, pain in sides, kidney and stomach trouble, back ache, headache, and dizziness. I am well and strong, and feel like a me person. My recovery is a perfect surprise to everybody that knew me. Tou all to Lydia E. Pinkham's Vegetable Compound. I would not do w your medicine for anything. There is no need of women suffering so much

they would take your remedies, for they are a sure cure." -- Mas. CHARLOS JOHNSON, Monelova, Ohio. When one stops to think about the good Mrs. Johnson derived from Mrs. Pinkham's advice and medicine, it seems almost beyond belief; yet it is all true as stated in her three letters published above at her own request. As a matter of positive fact Mrs. Pinkham has on file thousan letters from women who have been safely carried through that danger pe "Change of Life." Mrs. Johnson's cure is not an unusual one for Mrs. Pin

ham's medicine to accomplish. HEWARD. —We have deposited with the National City Bank of Lynn, the which will be paid to any person who can find that the above testimental left are not genuine, or were published before obtaining the writer's mental mission.
