The following preamble and resolution presented by the representatives of the Aurora, Wheaton and Chicago Railway Company, was read to the full board and Supervisor Bartlett moved its adoption, which motion was seconded by Supervisor Hammerschmidt. Roll being called on the motion, the vote was as follows: Aye, Supervisors Fischer, Bartlett, Isherwood, Hull, Hammerschmidt, Blodgett and Batts, Nay, Bender, McClintock, Cramer and Kohley. The vote being 7 aye to 4 nay, the resolution was declared adopted:

Whereas, The Aurora, Wheaton and Chicago Railway Company, a corporation organized under the laws of the State of Illinois, is about to establish and operate a line of railway through the city of Wheaton, in the county of DuPage and the state of Illinois, the present motive power being electricity; and

Whereas, said railway corporation is desirous of acquiring a strip of land off of the North side of the parcel of land known as the court house grounds in the city of Wheaton, as a right of way over, along and upon such strip of land off of the North side of said court house property, as hereinafter described, the said Railway Company is willing to so construct its said railway as to require, by purchase or otherwise, all the buildings and property adjoining the right of way of the Chicago and Northwestern Railway Co., and on the south, and extending southward to south Railroad street, and lying between Cross street on the east and Bird street on the west in said city of Wheaton, and;

Whereas, said Railway Company has agreed to acquire the said ground, and to remove all the buildings now situated thereon, and to use said ground for railway purposes only, until the time hereinafter mentioned, without any buildings thereon, except that said Railway Company may, in its discretion erect a passenger and express depot, with the usual appurtenances, upon said land, in which to accommodate passenger and express traffic; and

Whereas, the said Railway Company has proposed to make said purchase of said land and lots, and to remove the buildings thereon, and to continue to use said land for railroad purposes only, until the County of DuPage or the City of Wheaton has the right, under this contract, to exercise the option to purchase a portion of said land as hereinafter mentioned; and if it shall exercise said option, and purchase said land, until the time of payment therefor hereunder shall expire. And the said Railway Company has agreed to and with the said County of DuPage that it will, within the term of four years, from the time when said railway shall go into operation, determine what portion of said land it desires to retain for the purposes of its railway; and that upon such determination being made by it, said railway, it will sell to said County of DuPage or to the City of Wheaton, either jointly or severally, the portion of land not so desired to be retained by it, at a price to be fixed and determined by arbitration; the said railway company to select one arbitrator, the said County of DuPage and the said City of Wheaton, or the one thereof proposing to purchase, to select one arbitrator, and the other to be selected from disinterested persons by the then presiding Judge of the United States District Court for the northern district of Illinois, the valuation agreed upon by any two of said arbitrators to be regarded as the price at which said land is offered to be sold by said railway company. And the said County of DuPage or the said City of Wheaton, jointly or severally, shall determine within one year after such determination by said railway company to sell, and notice thereof in writing filed with the clerk of said county and of said city, whether they or either of them, will take said property, at such appraised value. If it shall be determined by the said County of DuPage or the said City of Wheaton, either jointly, or either of them separately, to take said property within said one year after such determination to sell, payment therefor shall be made by such purchaser or purchasers in cash to said railway company of the amount and price of said land so fixed, within two years after such election to purchase.

JAMES H. TELLER SPEAKS.

The Democratic Club held a meeting Friday night and listened to an address by the Hon. James H. Teller at the Auditorium. Mr. Teller is an entertaining speaker and gave the best democratic speech heard here this campaign. He denounced the republican party for drifting away from the principles of the founders of that party, which he said was responsible for his being a democrat. He said that republicans were far away from Lincoln Republicanism and that the democrats were standing on the same platform Lincoln did. He denied that the present prosperity was due to the republican administration and blamed McKinley and Mark Hanna for all the ills that oppress the American people. Trusts were denounced as the iniquitous outcome of a protective tariff, but Mr. Teller failed to state the democratic position on the question of trust legislation. Imperialism was the key note of his address with the silver question and tariff for revenue as side issues.

NEW FAST MAIL.

The Burlington Route has put another west bound flyer into commission for testing purposes. It began its race against time Sunday, and it will be a daily exhibition of what the road can do in the way of fast running during the remainder of the week. The new train is at present running as a special without a number. It carries through mail, and its run is from Chicago to Lincoln, Neb., where it will turn the mail over to regular train No. 41 to take to Billings, Mont. It is scheduled to leave Chicago at 8:50 a. m., get to Lincoln at 11:10 p. m., and to reach Billings at 1:55 of the second morning. This is fast going, and is said to be seven hours speedier than was made by the Northern Pacific for the same run. It only takes a single car to haul the mail and no postal clerks are taken to work it for it is all made up for the western states on the Pennsylvania and Lake Shore roads, off which it comes too late to be sent out on the Burlington's No. 7.

FORWARD MOVEMENT DAY.

"Forward Movement Day" at the Congregational Church will be observed next Sabbath. Morning service, 11 a. m. Subject, "The Coming Movement." Processional by the members of the Sabbath School at 12 m. The case was called yesterday afternoon, but was continued until Saturday on account of the inability of the defendant's attorney to be present. Messrs. Gray & Bunge represent the plaintiff.

BURLINGTON TO CHANGE TIME.

Prepare to Give Better Service West of Riverside—To Lessen Stops at Small Towns

Nov. 1 a new suburban time table will be put in effect by the Burlington Road, and it will incorporate several important changes. It is the present purpose to cut out several of the stations between Chicago and Riverside, at which many of the suburban trains now make stops. The passenger department of the company is not ready to make a definite announcement, but it is admitted that the service now given to the towns in question is more adequate than the business warrants. It is not likely that any town will be cut off without a single train, but there will be a material reduction of service for several towns. Another consideration that has led to the decision is the better time the company will be able to make on account of the reduced number of stops. If the number of trains are reduced which stop at the towns in question a material improvement will be made in the remainder of the suburban service. Statistics of the company show that comparatively small revenue is derived from Blue Island, Douglas Park, Hawthorne, Crawford and Morton Park. The residents of every one of these towns, no doubt, believe that they need every bit of train service now given them, and will undoubtedly protest against any change. The passenger department of the road, however, has about determined that the street car service is adequate for some of the towns between Chicago and Riverside, and that any loss of revenue due to a reduction in train service would be more than made up by increased business that would result from better service to other places.

STAMPS THE ARTICLE FALSE.
In regard to the article in the Chicago Record of last Tuesday concerning the connections of the heirs of Elisha Smart, his son Jerome Smart in an interview declares it is false in almost every particular. About three years ago, he states, his father gave him a deed of what he considered about the son's share of his land. This Jerome Smart accepted and agreed to care for his father during the rest of his life if he desired to remain with his son. No influence Jerome states was used to induce his father to give him a deed. It was the senior man's own idea and he was the one who proposed it. The son indignantly denies opposing his father's trip to Chicago and, he says, has no intention of contesting with anyone for the privilege of caring for him. "It is generally conceded," said Mr. Smart, "that every man has the privilege of doing what he pleases with his own, and if he saw fit, before his death, to legally make arrangements with my share, so that I, the only son, could always remain on the old homestead, I do not see that it concerns anyone except ourselves."

JUDGE L. Y. SHERMAN

EX-SPEAKER DELIVERS MASTERLY REPUBLICAN SPEECH SATURDAY

Best Address of the Campaign Heard by Hundreds—State Issues Debated—Democratic Fallacies Shattered.

Hundreds of interested listeners sat in the Auditorium Saturday night and with unflagging attention gave heed to the political arguments and propositions presented by Judge Lawrence Y. Sherman, ex-speaker of the lower house of the 41st general assembly. The meeting was the largest of the campaign, standing room only being available when the meeting was opened, with a selection by the Zenda orchestra. Following came a selection by the Glee Club, and a solo "William and Teddy" sung by Chas. Roe, preceded the introduction of the speaker by Captain T. S. Rogers, who presided.

Judge Sherman's speech was the best exposition of the political questions heard here this campaign. He is a direct speaker and for two hours poured forth an array of argument, composed of interesting facts so eloquently and tersely presented that not for a moment was the interest of his hearers relaxed. His manner carried conviction and his sincerity in arraying his indictment of the mismanagement of Algeid's democratic administration, made deep and lasting impressions on his auditors. For many minutes after his speech was finished the audience continued to applaud the eloquent utterances of the able orator.

Judge Sherman opened his speech by paying tribute to the excellent character and abilities of both republican and democratic nominees for state office, referring especially to the personal worth of Samuel Alschuler. In the beginning he drew a distinct line between democracy and Bryanism. Bryan's party, he said, had stolen the signboard but not the stock of democracy. He reviewed at length the complex destroying administration of Ex-Governor Algeid, who when inaugurated found a surplus of \$2,000,000, and during whose administration not only expended the surplus but left a debt of over \$2,000,000 for the following republican administration to liquidate. This the republicans had done. The republican party he said, has always been noted for its ability to do things.

Democratic frauds and padded pay rolls in the grain inspector's office were shown. Embarrassment and loss of state funds by Algeid's appointment to the amount of \$200,000 were shown to have been made.

Alschuler's criticism of the 41st general assembly in his stockyards speech, was denounced and Judge Sherman challenged the democratic nominee to show any act passed by that body which would render it open to criticism. In this connection he spoke of the excellent work and business abilities of the representatives of this district and his tribute to Representative Bush was greeted with hearty applause.

Judge Sherman reviewed the expansion treaties. Expansion has been the policy of the United States for 100 years. Bryan was scored for securing the ratification of the Spanish treaty buying the Philippines and then declaring against holding the islands. McKinley's duty, he said, was to see that law and order was enforced, and peace made before self government could be given the Filipinos. Bryan's long distance philanthropy in his policy of the United States forming a protectorate over the islands would not do. When Uncle Sam puts his name on paper, he said it must be as principal, not as security. Better men than that thirty years ago to keep the flag flying.

President for holding the islands "without the consent of the governed" was found in the Florida territory situation, when Andrew Jackson, then sterling democrat, was appointed governor general. Jackson without authority made his own office absolute and enforced an arbitrary tax levy with red hot cannon balls and if what Mr. Bryan now insists is imperialism exists, it began with Jackson in Spanish territory 80 years ago. Ten years from now President McKinley's course will be seen to have been in line with our traditions for 100 years.

In closing, he said, the present administration is hampered the same as was Lincoln by the cowardly in the year 1861, but that when election day comes he confidently expected the 10 counties in the state of Illinois would say by their votes that the policy of the republican party was just and right.
