The trial tests of the new mail during all of last week has been a success. Beginning Monday morning Nov. 5 The mail cars on No. 13, due here at 8:57 a. m. will now leave the city at 8:50 a. m. and arrive at Aurora at 9:40 a. m. giving it 50 minutes for the run. The first passenger train west will arrive at Downers Grove on the old time 8:57 a. m., but will be known as No. 19 instead of No. 13 as formerly.

The final democratic rally, which was arranged for with care and looked forward to with delightful anticipations of success, failed to materialize last Thursday evening. It was not the fault of local managers, for they are wide awake, enterprising, vigilant and up-to-date in every respect. But the advertised speaker failed to put in appearance, and nobody felt like serving as substitute on such short notice, notwithstanding local talent is not lacking which is almost as good as the best if given time to make the necessary preparation.

All records for warm weather have been knocked into a cocked hat by the month which closed Wednesday. It has surpassed the record of every other October that has yet been observed by the weather bureau in its high average temperature. What is more, there has not been an October in thirty years that has had so many hot days in succession, and yet between the warmest and coldest days of the month there has been a range of forty-five degrees. It has been an October of sunshine, of cloudless skies and of prevailing southern winds, instead of the usual, blustering, gloomy and sometimes freezing month to which we are accustomed.
