Mrs. Lasher's Remarkable Story-Dr. Greene's Hervura

The case of Mrs. Fred. C. Lesher, Jr., a well-known woman of Westport, W. T. is one of the most interesting on record. It is an actual fact that headaches caused her head to split.

"For thirteen years," she says, "I suffered from terrible headaches night and day, until the bones of my skall opened so that the doctor could lay his thumb right into the opening on to my brain. Two doctors attended me and elaimed that I was on the verge of insanity. I was under their care for nine years, but got no relief. Then I tried Dr. Greene's Nervura blood and nerve medy, and inside of a year the bones of my head had taken their natural shape again."

That Mrs. Lasher's statements are true is vouched for by reliable men or Westport, and by a Justice of the Peace there. Dr. Greene's Nervura blood and nerve remedy cured Mrs. Lasher when all other remedies failed, and it cures cousands of suffering women every year. If your head sches, if you cannot sep and are weak and nervous, remember that this great curative agent, Dr. Breene's Nervera blood and nerve remedy, will make you well and strong.

Dr. Greene's Nervura blood and nerve remedy is a physician's rescription, formulated from a discovery after years of investiga-ion and experiment. Dr. Green, 28 West 14th St., New York City, a the discovery. He can be togethed free parametry or by letter.

COUNTRY THINGS FLOURISH.

Country things which flourish in London have been receiving a good deal of attention of late. At the present time there may be seen a number of fine bunches of fast-ripening black grapes on the south wall of the Hosgital for Incurable Children at Chelsea. No doubt the poor mites within will be enjoying them before long. In a garden at the King's road end of Flood street, Chelsea, there is a mulberry tree which has this year borne a fine srop of fruit. It was picked during the present month. Mulberries are not always to be obtained in London, and they are expensive. This, by the way, has been a good year for mulberries in various parts of the country. They have been allowed to fall from the trees and rot on the ground in some places. The reed harvest is a small matter, but not one to be altogether overlooked in districts where this tall, handsome plant flourishes. The mowers are now among the reeds, which go down before the old fashioned scythe. They are bound up in sheaves like the corn, and when dry, stacked and used as they are required for thatching purposes .- London Express.

A LIFE SAVED.

A Druggist's Timely and Straight-For ward Advice Saves the Life of a Prominent Citizen.

Chicago, Ill., Nov. 26.—(Special)— Among the Catholic Foresters in this city, none is better known or more universally esteemed, than Mr. S. P. Rush, Conductor (President) of Holy Name Court, Number 26.

His many friends, inside the Order and outside of its ranks, were, therefore, much startled to learn that his life was in danger, he having Bright's Disease, that most terrible and fatal disease.

Mr. Rush, however, made a grand struggle for his life, taking prescriptions, and pills and powders, until his stomach refused food. At last, his local druggist, guided by the numerous inquiries being made at his store for Dodd's Kidney Pilis, advised Mr. Rush to buy and try some. This he did, and to his delight he was restored to health and strength.

Mr. Rush says that after commencing the use of Dodd's Kidney Pills, he felt much better, but it took two months to effect a cure.

"I took nothing else but Dodd's Kidney Pills during that time, so know that I owe life and health to them."

What this wonderful remedy has done for Mr. Rush, it will certainly do for anyone. It is the only remedy that has never failed to cure Bright's Discase.

Mr. Rush is just now receiving the congratulations of his friends, but always' finds time to say a good word for the Medicine that saved his life. Sold for 50 cents a box. All dealers.

Advice to Poor Married Couples. Common sense, prudence and selfdenial are the essentials and safeguards in a union of small means. With a bountiful supply of these estimable qualities a married couple may live more comfortably, bring up their children more creditably, and leave behind them a better name than another with double their income, but half these helps to matrimony.

Sincere regret to expressed in Londen on all sides over the death of Sir Arthur Sullivan, the musical composer, who gave to the world "Pinafore," "Pirates of Penzance," and other comte operas. He died as the result of heart failure at 9 o'clock Thursday

He was chatting and laughing with members of his household, when he fell to the floor and died within a few minutes. Sir Arthur Sullivan had been in poor health for some time, and several weeks ago alarming reports as to his condition came from the continent, where he had gone for rest. The reports were afterward denied and Sir Arthur returned from Switzerland apparently in better health. Arthur Seymour Sullivan was born on May 13 (14, according to one authority). 1842, at London. Taken all in all he is the greatest composer England has yet produced.

Report New Gold Fields.

The steamer Bertha arrived at Seattle from Kodiak and Valdes with 150 passengers and \$50,000 gold in individual holdings. She reports the schooner Emma Louisa a total wreck at Turnagain. The Bertha rescued the schooner Mermaid with supplies for the army post at Valdes from going to the rocks near that place. Passengers report a rich gold strike about 200 miles north of Valdes. The revenue cutter Bear, Captain Tuttle, arrived at Seattle from Nome, having left there Nov. 8. She was compelled to heave to for three days 300 miles from Cape Flattery because of the recent storm. Colonel Wright, head of the revenue service at Nome, came down on the cutter.

Panther Kills Two Children.

Jesus Luterio of a ranch near Costulla, Tex., lost two children, aged 18 months and 21/2 years, through the ravages of a panther. The first child disappeared early in the morning, and no trace of it was found, though vigorous search was made. The mysterious disappearance was solved later in the afternoon when the mother saw a panther spring upon and carry away the other child. Four men on the ranch began a hunt for the child and beast. The dogs, though badly fatigued, caught the panther, but before the men came up four hounds were killed. The beast was laid low with a rifle. The crazed mother of the dead children was taken to San Antonio for medical treatment.

Fatal Explosion in Mud Lake. While lightering the cargo of the stranded steamer Isaac Ellwood in Mud lake, near Detour, Mich., Sunday morning the forward boiler of the lighter Stewart blew up, killing three men and injuring six others. The known dead: Rankin Workman Louis Carpenter of Sault Ste. Marie William McKenzie of Detour. John Henderson of Sault Ste. Marie suffered a fracture of the skull and cannot live. Frank Hilder of Sault Ste. Marie is missing and it is thought he was blown into the water and drowned. The dead and injured were brought here. The Ellwood is still fast.

Jeff Davis' Stave In Poverty.

Accustomed to a life of plenty, Mrs. Adelia Burton, colored, is compelled in her declining years to face actual poverty. Notwithstanding that the woman, who is 87 years old, was a slave during the greater portion of her life, and that the hardest duties she was asked to perform were those of maid in some of the best southern families, including the family of Jefferson Davis, Mrs. Burton's only place of refuge now is in a shed in the rear of No. 7323 Railroad avenue, Chicago.

Natives Rise in Jubaland. The Somalis have risen in Jubaland, a province of British Bast Africa. About 4,000 well-armed men are on the warpath. Sub-Commissioner Jenner, who has been on a tour inland with a small force, is said to have been attalked. Re-enforcements from Mombasa have been sent to Kismayn.

Standard Oil in Control.

"The Standard Oil company," says the Bucharest correspondent of the London Express, "has obtained concessions for mining and erecting pipe lines on all the government tracts, as well as almost a monopoly in sinking oil wells in Roumania. The price of the concession was £400,000."

Music for Cigar Girls. A firm of cigar manufacturers at Trenton, N. J., has achieved great results by an idea tending to elevate its employes. A pisno has been placed in one corner of the big wrapping-room, where 200 girls are at work, and an ac complished instructor enlivens the by playing, singing, and after hour teaching them the art.
