

THE OPEN-TOP CAR CHILIHITI.

The very newest thing in railway car construction is a passenger car for scenic roads, built very much on the lines of the summer trolley car, except that this car can open up the top as well as the sides.

mountains could be enjoyed to the fullest extent would be from a car without sides or top. The following season a coal, or gondola car, with board seats, was attached to the American Tourist Association train, and every traveler on that train climbed into it.

Mexico. The car was invented by Beau Campbell, the Mexican traveler, and came about as follows:

Some years ago when Mr. Campbell was traveling through the great Tancoco Canon, he had a seat on the side of the car next to the mountain, the rocks of the cliff were within two feet of the window, and of course he could get not even a glimpse of the canon, as all the windows on the other side of the car were taken up by the occupants of the adjoining seats.

car had to go. Then the building of a passenger car without a top was decided on, and the Chilihiti came in evolution from a work car to the coal car, and to the consummation of itself.

The Chilihiti became famous, and from an observation car went on duty as a pavilion by the sea, and a roof garden, for it is electric lighted, and has an outfit of Chinese lanterns. But the favorite is also remembered as a dining car of the tropics, attached to a special train, that, during meal hours, could stand still or run just fast enough to secure a breeze, and not raise a dust.

There Is a Class of People

WOES OF WORKERS.

The American man or woman is industrious. Our leisure class is small, our working world very large. Many of our leading citizens of great wealth are hard workers. Our laboring classes are found in herds and hordes in the "hives of industry."

Dr. Greene's NERVURA for the Blood and Nerves.

What does the worker do when some chronic trouble manifests itself? He takes some stimulant or something which is designed for temporary effect, and simply weakens his already overworked system.

Mr. JOHN D. SMITH, Electrician for the Thomson-Houston Electric Co., of Lynn, Mass., says:

"When a man has been sick and is cured, it is his duty to tell others about it, that they, too, may get well. Three years ago I had been working almost night and day, could get no rest, and got only a few hours' sleep at night. I could not stand that long, and I soon began to be prostrated. I could not sleep when I tried, and my food would not stay on my stomach. I was in a terrible condition, and was much alarmed."

Dr. Greene's Nervura's discovery will give all health seekers the most complete relief. His office is at 25 West 14th Street, New York City, and his advice may be secured by personal call or by letter through the mail; no charge is made in either case.

PROCEEDINGS IN CONGRESS.

Summary of Legislation in National Body.

MEASURES IN BOTH HOUSES.

In the House Several Bills Are Introduced—Organized Labor Wants an Amendment—A New Coin Proposed—The Ship-Subsidy Bill.

The second session of the LVIII congress, which will close one century and usher in another, opened auspiciously Monday.

Messrs. Payne (Rep., N. Y.), Grosvenor (Rep., Ohio), and Richardson (Dem., Tenn.), were appointed to join the committee of the senate to notify the president that congress was in session and ready to receive any communication from him.

Aside from the reading of the message and the administration of the oath of office to William B. Dillingham, the new senator from Vermont, who succeeds the late Justin S. Morrill, no business was transacted in the senate.

Mr. Crumpacker (Ind.) presented a bill in the house to reduce representation of certain southern states in congress.

SEVEN DIE AMID RUINS.

Killed in Explosion at Depot in Chicago.

Seven persons were killed and sixteen others were more or less seriously injured as a result of the explosion of one of the large steam boilers in the power-house of the Chicago and Northwestern railway at Chicago Monday evening. By half a second's time—the interval between the passage of the Milwaukee flyer by the power-house and the moment the boiler weighing several tons was projected across the track—the passenger train escaped wreck.

Pauper Devours a Child.

An 8-year-old daughter of C. F. Riley, a farmer living about sixteen miles from Cartwright, Wis., in the Mad Brook settlement, was carried away by a panther and devoured. Only a few fragments of the remains could be found. The girl was walking in the road near the farm, when the beast sprang from the woods, and taking the girl in his jaws, carried her into a swamp, where she met a horrible death.

MRS. F. J. LYNCH, GRAND RAPIDS, MICH.

Mrs. F. J. Lynch, 324 South Division street, Grand Rapids, Mich., writes: The Peruna Medicine Company, Columbus, Ohio: Gentlemen:—I earnestly recommend Peruna to any suffering woman as it cures quickly. I had a most persistent cough which nothing seemed to cure. Two bottles of Peruna did more for me than all the doctors seemed to do. In a couple of weeks I found myself in excellent health, and have been enjoying it ever since. Hence I look on Peruna as a true friend to women."

Chronic Coughs and Colds Are Catarrhal Diseases.

Catarrh is the Continual Scourge of Christendom.

Catarrh hovers ominously over every city, and nestles treacherously in every hamlet. It flies with vampire wings from country to country and casts a black shadow of despair over all lands. Its stealthy approach and its lingering stay makes it a dread to the physician and a pest to the patient. It changes the merry laugh of childhood to the wheezy breathing of croup, and the song of the blushing maiden to the hollow cough of consumption. In its withering grasp the rounded form of the fond wife and mother becomes gaunt and spectral, and the healthy flush of manhood turns to the sallow, haggard visage of the invalid. Cough takes the place of conversation, speech gives way to spitting, the repulsive odors of chronic catarrh poison the kiss of the fondest lovers, and thickened membranes bedim sight, impair hearing and destroy taste.
