The proposed plan for establishing a reserved fund for the Modern Woodmen of America at the meeting to be held at St. Paul next June will be defeated. The vote will probably be about three to one against the proposition. The movement which will this time be defeated undoubtedly has probably been the opening of a light which will continue until a reserve fund is established for the order on some basis. The matter will be thoroughly debated in the coming convention and in the meeting at St. Paul, and out of it all will come some sort of a plan for the establishment of a fund for reserve. The idea of a large number of members, it is believed, will be presented a year and have the money something into a reserve fund.
