

BLUSHING

Blushing and pallor result from the sudden action of the mind on the nervous system; if the mind is forewarned and prepared for emotion, both habits may be overcome; but when the nervous system is highly strung it is a difficult task. Blushing is neither an art nor a sign of ill-breeding, and it is just as natural for some folks to blush on occasions as it is for others to turn pale on other occasions.

Dodd's Kidney Pills—Dear Sir—I wish to tell you what Dodd's Kidney Pills have done for me. As far as I am concerned they are the best in the world, for they not only saved my life, but they have given me new life and hope.

I have since recommended Dodd's Kidney Pills to hundreds of people, and I have yet to hear of the first one that did not find them all that you claim for them. I can remember of two people to whom I had recommended Dodd's Kidney Pills, and who afterwards said to me that they received no benefit.

I still continue to use the Pills off and on, and would not be without them if they were \$50 a box. I think that every old gentleman in the world would be healthier and better if he would take one after each meal.

I wish I could think of words strong enough to express to you my gratitude for what your Medicine has done for me. It is not often, I suppose, that a man who is staring death right in the face, is permitted to live and tell of the means which saved him, and as that is my position, my heart is overwhelmed with thankfulness to God for His mercy to me in permitting me to see the advertisement of Dodd's Kidney Pills, when it seemed that I was beyond all earthly power to save, that I cannot express my real feelings.
