

Dr. Llewellyn Jordan Dr. Llewellyn Jordan, Medical Examiner U. S. Treasury Department, graduate of Columbia College, and who served three years at West Point, has the following to say of Peruna:

"Allow me to express my gratitude to you for the benefit derived from your wonderful remedy. One short month has brought forth a vast change and I now consider myself a well man after months of suffering. Fellow sufferers, Peruna will cure you."

Catarrh is a systemic disease curable only by systematic treatment. A remedy cures catarrh must aim directly at the depressed nerve centers. This is what Peruna does. Peruna immediately invigorates the nerve-centers which give vitality to the mucous membranes. Then catarrh dis Finland. The inexorable system of appears. Then catarrh is permanently eured. Peruna cures catarrh wherever located. Peruna is not a guess nor an experiment-it an absolute scientific certainty. Peruna has no substitutes no rivals. Insist upon having Peruna.

A free book written by Dr. Hartman, on the subject of catarrh in its different phases and stages, will be sent free to any address by The Peruna Mediine Co., Columbus, Ohio,

A NATION GOING.

Finland's Mattenal Muletones With Secon By a Thing of the Past.

Tragedies of history are becoming so numerous in the world just now that the world ceases to wonder. One of the latest moves in the crushing out of Finland by the heavy hand of the by Gov. Bobrikoff, Russia's tool, of Finnish schools. Russia, which has suppressed the Finnish newspapers thought to be inimical to a programme of blotting out Finnish nationality, is now, it is thought, preparing to lay its hands upon the Finnish system of education. The unexpected attack on Finnish national integrity was begun on Feb. 15, 1899, by a ukase of the czar, which made the legislature of the grand duchy a mere council for consultation for recording the imperial wishes. The czar refused to listen to Finnish protests, and the programme of making Finland a Russian province has gone steadily on ever since. A people which from time immemorial has had a constitutional government and its own system of religious, military and educational organization is

to be dominated by a nation having brute force as its chief recommendation. Finland, with the smallest percentage of illiteracy in Europe, is to be overrun with benighted Russian moujiks and reduced to the educational level of Russia iself. While the czar of Russia was issuing his call for a universal peace congress his minions were crushing out the national life of Russia is stronger even than the czar. His humane sentiments cannot stand in the way of Russian world policy. Neither can any considerations of civilizations or humanity stand in the way. The crushing out of Finland is one of the darkest of the many tragedies now being enacted on the stage of world history. It is not relieved even by a gleam of promise for a better civilization in the country which is to lose its national life. Yet the world looks on indifferently. A general callousness seems to have taken hold of nations. The cry of the weak and oppressed brings no response. Sympathy seems to be altogether with the strong. nation may do anything it is powerful enough to do.—Baltimore News.

FREE LUNCHES.

Men Are No Longer to Enjoy a Monopoly of Them.

Hitherto men have had the exclusive privilege of indulgence in free lunches, but now the fairer and better sex are to be endowed with a similar boon. Feminine shoppers have found out how to do it. All you have to do is to go into the grocery department of one of the large department stores. There, if you are fond of cereals, you can get a good start on the many kinds of breakfast foods that are given away as samples. Sometimes the maid in charge gets generous and gives a substantial helping, again it is only a taste, but when there are fifteen or twenty kinds to sample you can always manage to get enough. This is merely a first course. Next you try potted meats and crackers that the manufacturers are anxious to introduce to the public. Sometimes baked beans will be served. For dessert there are canned friuts of every kind, jeilies, fancy cakes and preserves, and you can finish with a bit of cheese. The bill of fare varies daily. There are constantly new dishes to be advertised by giving away. At times crystallized fruits, dainty bits of preserved ginger. fancy pickles, olives, wafers and even ice cream are served. "We don't lose anything by the scheme," said the manager of one of the department stores, "for every woman who in this way saves a quarter is so proud of the feast that she comes downstairs and spends it right away. She calls that financiering."-Chicago News,

Peril of Young Finalita

German physicians are considering the best modes of treating a disease which they have found to affect many young planists in that music loving country. At the recent medical congress in Berlin considerable attention was devoted to this subject by the assembled scientists. Many of them declared that the disease is one of the brain and analogous to that which afflicts copyists, who write much, and violinists, who use their fingers s great deal. One distinguished surgeon declared that he had several offices 310covered an excessive inflammation of the nerves of the arms, which was the direct result of too much plane plane ing. He also said that young girls who attend conservatories of music are liable to suffer from a special weakness because their hands are not large enough for the exercises which they are required to practice, and that for this reason it might be advisable to construct pianos somewhat smaller than the ordinary ones specially adapted for the use of young girls who are required to practice a good deal.

How Philpot Curren Got Even. John Philpot Curran, one of the wittiest lawyers who ever faced a court, was once arguing a case before Lord Clare, the Irish lord chancellor, Clare cherished a cordial dislike for Curran, and in order to show his contempt for that gentleman affected to pay no attention to the argument and devoted himself to fondling a mastiff, which he had brought with him to court. Presently he stooped down ostentatiously to pat the dog. Instantly Curran stopped speaking. "Go on, Mr. Curran." "I beg your lordship's pardon," replied Curran, "I though you were engaged in consultation."

An Irish politician says that half the lies told about him are not tree.

SPONGE CROP OF THE GULP.

votop the Industry. The study of the sponge fields Florida is to be undertaken by the government with a view to developing an important industry. Florida is the only part of the United States productions and the most delicate atomach receives it without distress. If the price of coffee. 15c and 25 only part of the United States productions are perpendicated from pure grains, and the most delicate atomach receives it without distress. If the price of coffee. 15c and 25 only part of the United States productions. "great white czar" is the requisitioning ing sponges of a commercial value. There are 310 vessels with more than sample copies of all text books used in 2,000 men employed in the industry and it is estimated that the 1900-1901 crop will have a commercial value of \$850,000. Sponges are found on the eastern and western coasts, but are more abundant on the western coast, owing to the equable temperature and moderate depth of the water and the absence of flerce hurricanes. The sponge grounds of the Gulf of Mexico extend from the Florida reefs to St. Mark's and for a distance of fifteen miles from shore. The best sponges in color, texture and size are indigenous to deep water, and as these command the highest prices in all markets the sponging vessels frequently work for days together out of sight of land. There would seem to be no reason why a flourishing industry should not be built up. The government has been so successful in the various efforts it has made of this character that much is to be expected of its contemplated

VETERAN SPEAKS.

Honorable Moses B. Crane of Tacoma, Wash., Tells How Old Soldiers May Help Thomselves.

Tacoma, Wash., Jan. 5, 1901.-(Special.)-"I used to have Heart Disease, but thanks to Dodd's Kidney Pills I now have Heart's Ease.

"Five years ago I was a continual sufferer of Heart Disease. Exposure during the war, and a tendency to grow over fleshy, had greatly aggravated this dread disease. I often had to sit up half the night. I had it so bad when would lie down. Life looked pretty blue to me, as I thought there was no relief, until one day I read an advertisement of Dodd's Kidney Pills. I bought a box that same day, and it was the best day's work I ever did. Before I had used all the first box I could eat and sleep better than I had done for many years, and after three months' faithful treatment, my health was completely restored. I am an old man now, but my step is as elastic and my brain as clear as when I was thirty years of

These are the words of the Hon. Moses B. Crane, secretary of Odin Lodge, No. 123, I. O. O. F. of this city. The Hon, Mr. Crane is also Senior Vice-Commander of G. A. R. Post No. 5, Tacoma.

Those who know Mr. Crane have the fullest confidence in his honesty and truthfulness, and know that he would not give this unsolicited testimonial unless he had actually experienced the relief which he indicates in his letter. Dodd's Kidney Pills are having a wonderful sale among Mr. Crane's friends -and their name is legion-in this part of the country. There does not seem to be a single case of Heart Disease, Kidney or Bladder Weakness, or Rheumatism, that Dodd's Kidney Pills do not permanently cure,
