### COLORADO.

That is the title of a very beautiful seventy-two-page book published by the C., B. and Q. railroad. It is most entertaining and informative, besides being illustrated with exceptionally fine engravings. The rates to Colorado are so cheap this year that many will take their vacation there. They should ask the C., B. and Q. ticket agent for this book. Price, 6 cents.

## Consumption

is destruction of lung by a growing germ, precisely as moldy cheese is destruction of cheese by a growing germ.

If you kill the germ, you stop the consumption. You can or can't, according to when you begin.

Take Scott's Emulsion of Cod Liver Oil: take a little at first.

It acts as a food; it is the easiest food. Seests not to be food; makes you hungry; eating is comfortable. You grow stronger. Take more; not too much; enough is as much as you like and agrees with you. Satisfy hunger with usual food; whatever you like and agrees with you.

When you are strong again, have recovered your strength—the germs are dead; you have killed them.

If you have not tried it, send for free sample, its agreeable taste will surprise you.

SCOTT & BOWNE, Chemists, 409 Pearl St., New York. 50c. and \$1.00; all druggists.

Every Friday afternoon talks on interesting subjects will be given by some of our citizens.

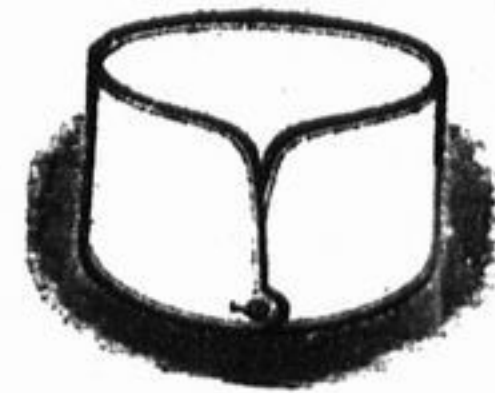

Upon inquiry, the Reporter finds there are many people, besides the physicians, who are alarmed at the appearance of small pox in towns near here and it urges every one here who has not been vaccinated in recent years, the wisdom of taking the precaution. The prevalence of the dreaded disease in places not far from here is ample reason why everyone should take this simple means of becoming immune.

The property owners who are finding their taxes higher this year than last should not attribute the raise to the assessor unless they find upon comparison of the receipts of two years that the equalized valuation is greater now than before. The increase in taxes is due to the higher rate this year, something with which the assessor has nothing to do and if the property was now assessed at the same figure as in 1900 the collector would still require a larger amount than last year.
