Wednesday, February 20.

The senate spent the day on the postoffice appropriation bill. The amendment of Mr. Butler proposing a reduction of about 9 per cent in the pay for railway postal service was defeated-18 to 51-after a debate in which Mr. Depew answered Mr. Butler's criticisms on the large profits made by American roads.

The house passed the sundry civil appropriation bill and entered upon consideration of the general deficiency -the last of the general appropriation

Thursday, February 21.

The senate considered postoffice appropriation bill. Amendment providing for pneumatic tube service killed. The old controversy over the special appropriations for fast mail service engaged much attention. It was decided to begin holding night sessions Friday night.

Friday. February 22.

Senate passed two of the great supply bills-the postoffice and the diplomatic and consular appropriation. During the greater part of the session a proposition to discontinue the appropriations for fast mail facilities from New York to New Orleans via Atlanta, and from Kansas City, Mo., to Newton, Kan., was under discussion. By a decisive vote the appropriations were continued. An effort was made to obtain an appropriation to continue the pneumatic tube service in New York. Boston and Philadelphia, but it failed.

House devoted an hour to unanimous consent legislation and two hours and a half each to the passage of private claims bills and private pension bills. Nine bills were passed by unanimous consent and twenty-nine claims bills and 139 pension bills were passed. Among the latter was the senate bill to pension the widow of the late Gen. Henry W. Lawton, who was killed in the Philippines.

Saturday, February 23-

The president has issued a proclamation calling a special session of the senate for executive purposes immediately upon the dissolution of the present congress, March 4.

The text of the proclamation is a

"By the president of the United States of America-A proclamation: Whereas, Public interests require that the senate of the United States be convened at 12 o'clock on the 4th day of March next to receive such communications as may be made by the executive: Now, therefore, I, William McKinley, president of the United States of America, do hereby proclaim and declare that an extraordinary occasion requires the senate of the United States as convene at the capitol in this city of Washington on the 4th time be entitled to act as members of that body are hereby required to take notice. Given under my hand and the seal of the United States at Washington the 236 day of February, in the year of our Lord one thousand nine hundred and one, and of the independence of the United States the one hundred and twenty-fifth.

Revokes Indianapolis Saloon License. The Anti-Saloon league of Indianapolis have scored what its leaders assert is a great victory. Judge Alford revoked the license of Saloonkeeper John Heltkam, it being Heitkam's second conviction to a charge of violating the Michelson liquor law. It is the first case of the kind in the county. although many saloonkeepers have been twice convicted.

Promisent Virginian's Soicide.

Major Randolph Harrison Finney, a man of means and a member of one of the most prominent families in Virginia, hanged himself to the transom of his chamber door at his residence in Richmond, Va., and was dead when found by his wife. A wound received while at the head of a battalion in the confederate army resulted in blindness some years ago, and this, with bad health, caused him to take his life. One of his sons is secretary to the secretary of the navy.

Fifty Mon Lost in a Mine.

A disastrous fire in Diamondville coal mine, No. 1, near Kemmerer, Wyo., was attended with serious loss of life and great destruction of property. There were some fifty miners and fifteen horses entombed, but one miraculous escape was made, however, by John Anderson, who was working near the mouth of the level when he realized the mine was on fire. With much difficulty he reached the main lead, and by throwing a heavy overcoat over his head and shoulders be pushed his way through the flames and reached the main shaft completely exhausted and terribly burned, but will recover. He was taken out by friends. It is believed that none of the others can be saved.

Potrified in the Grave.

At the cemetery near Fountain City, north of Richmond, Ind., when the grave of Mrs. Thompson Smith was opened, in order to remove the body to another cemetery, it was found to be solid stone. The features are plain, and the teeth and hair are the same as when the remains were placed in the grave. It took four persons to lift the body from the grave, The body is as white as chalk, and is intact, except a portion of one foot. It is said that the petrification resulted from the fact that the ground is a pecultar clay mixture, and that water stands there a considerable portion of the year.

Her Contribution Limited.

In a letter to Senator Vest at Springfield, Mo., inclosing a check for \$500, her contribution to the Missouri Confederate Monument association, Mrs. Phoebe A. Hearst says: "I note what you say in regard to my husband's generous donation to the confederate home in your state. While he was living he was making money, and since he passed away I have been trying to accomplish a great many things which have consumed all my income. Besides, I have divided my estate with my eon, giving him the better half, and I am precluded from doing many things which otherwise I would be in a position to do."

Druwns Her Stx Children.

Mrs. Rose Wurzer, a widow, in a fit of insanity, drowned her six children, aged 4 to 12 years, at Uniontown, Wash. Two were boys and four girls. She threw them into a well thirty feet deep, containing two feet of water, then jumped in berself and held the heads of the children beneath the surday of March next, at 12 o'clock noon, face until all were drowned. Mrs. of which all persons who shall at that | Wurzer was found alive in the well with her six murdered children by the neighbors, who pulled her out with a rope. She is violently insane. The woman's husband died a year ago, since which time she has been supported by the county and the charity of neighbors.

From the steppes of Siberia to prosaic New York the face of a beautiful woman, whom he slew, has followed Cel. Otto Biernath. He shot the woman when a pack of wolves was ready to tear her limb from limb. He gave her, as he believed, a merciful death, and at the same time saved her from a living death, as an exiled prisoner of the czar. But that has not taken from him the mental torture he has since suffered, and in despair he surrendered himself to the authorities and was placed in the Bellevus insane hospital.

As a result of the changeable climate, catarrh has become one of the most prevalent and universal diseases known to man. Nearly onethird of the people of the United States are afflicted with catarrh in some of its many phases and stages. Add to this the fact that catarrh rapidly tends to become fixed or chronic. also the further fact that it is capable of producing a great many other diseases, and we begin to realize the true nature of this dread dis-

WONDERFUL CURE OF PSORIASIS.

AS a sufferer for thirty years from the worst form of Paorlasis, finally cured by Cuticura Soap and Cuticura Ointment, I wish to tell you my experience, that others may benefit by it. I was so grievously afflicted that the matter that exuded from my pores after the scales had peeled off, would cause my underclothing to actually gum to my body. After remaining in one position, sitting or lying down, for an hour or two, the flesh on my elbows and knees would split, so thick and hard would the crusty scales become, The humiliation I experienced, to say nothing of physical agony, was something frightful. The detached scales would fairly rain from my coat sleeves. I have read none of your testimonials that appear to represent a case so bad as mine. But as to the cure. I commenced bathing in hot Cuticura Soap suds night and morning, applied the Cuticura Ointment, and then wrapped myself in a sheet. In two weeks my skin was almost blood red in color, but smooth and without scales. Patches of natural colored skin began to appear, and in less than a month I was cured. I am now passed forty years of age and have skin as soft and smooth as a baby's. Hoping that others may benefit by my experience, and regretting that sensitiveness forbids me from dis-I am yours gratefully, closing my name, J. M. M., Boston, Mass., Sept. 30, 1900.

Millions of People Use Cuticura Soap

Assisted by Cuticura Otniment, the great skin cure, for preserving, purifying, and beautifying the skin, for cleanaing the scalp of crusta, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and bealing red, rough, and sore bands, for baby rashee, itchings, and chafings, and for all the purposes of the toilet, bath, and mursery. Millions of Women use Currouna Soar in the form of baths for anneying irritations, inflammations, and excertations, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative antiseptic purposes which readily suggest themselves to women, and especially mothers. Currouna Soar combines deficate emoillent properties derived from Currouna, the great skin cure, with the purest of cleanaing ingredients, and the most refreshing of flower odors. No amount of persuasion can induce those who have once used these great skin purifiers and heautifiers to use any others, especially for preserving and purifying the skin, scalp, and hair of infants and children. No other medicated soap is to be compared with it for preserving, purifying, and heautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in One Boar at One Pason, the mast skin and complexion soap, and the sear toilet and baby soap in the world. Sold by all drugglets.
