

Mrs. Pinkham Saved me from an Operation.

Hospitals in our great cities are sad places to visit. Three-fourths of the patients lying on those snow-white beds are women and girls. Why should this be the case? Because they have neglected themselves. Every one of these patients in the hospital beds had plenty of warning in that bearing-down feeling, pain at the left or right of the womb, nervous exhaustion, pain in the small of the back. All of these things are indications of an unhealthy condition of the ovaries or womb.

Mrs. Knapp tells of her Great Gratitude.

"DEAR MRS. PINKHAM:—I have received much benefit from using your Vegetable Compound and Sanative Wash. After my child was born, blood poison set in, which left me with granulated inflammation of the womb and congested ovaries. I had suffered from suppressed and painful menstruation from a girl. The doctors told me the ovaries would have to be removed. I took treatment two years to escape an operation, but still remained in miserable health in both body and mind, expecting to part with my reason with each coming month. After using one bottle of the Compound, I became entirely rid of the trouble in my head. I continued to use your remedies until cured.

"The last nine months have been passed in perfect good health. This, I know, I owe entirely to Lydia E. Pinkham's Vegetable Compound. My gratitude is great indeed to the one to whom so many women owe their health and happiness."—Mrs. F. M. KNAPP, 1533 Kinnickinnic Avenue, Milwaukee, Wis.

\$5000 REWARD. Owing to the fact that some skeptical people have from time to time questioned the genuineness of the treatment of the letters we are constantly publishing, we have deposited with the National City Bank of New York, \$5,000, which will be paid to any person who will show that the testimonial is not genuine, or was published without obtaining the writer's special permission.—LYDIA E. SHERKLE SAVED FROM MOB

Illinois Soldiers Guard Him at Trial.

ORDERED OUT BY GOVERNOR.

The Prisoner Finds Guilty in Order to Escape Physical Violence—His Imprisonment Ordered by the Court Under State Indeterminate Law.

Albert Shenkle, charged with assaulting Gracie Giller, a daughter of Charles H. Giller, the girl being aged but 13 years, pleaded guilty in the court at Carrollton, Ill., Friday, and was sentenced by Judge Owen Thompson under the indeterminate law. He was taken to the depot immediately upon the announcement of the sentence and hurried by special train under a heavy guard to the south Illinois penitentiary at Chester. Upon the arrival of the prisoner from the county jail at Springfield, walter he had been taken to avoid a lynching, a large crowd had assembled in the street at Carrollton, but all plans of violence were frustrated by the presence of four companies of state militia, specially ordered out for the occasion by Gov. Yates. The accused marched through the streets heavily shackled, with a strong cordon of police keeping the mob back along the line of march. No hostile demonstrations were made, the people appearing to be aware that the numbers of the soldiery were sufficiently large to insure the failure of any attempt to subvert the due processes of law.

No unnecessary time was wasted in preliminaries. The warrant charging Shenkle with the crime was read and the prisoner asked to plead. "I plead guilty," said Shenkle. "The judgment on your plea is that you be confined in the penitentiary at Chester, there to remain until your discharge in the due process of law," said Judge Thompson. Shenkle flushed, bit his lips and then sat down. Sheriff Conlee arose, and without a word the condemned prisoner extended his hands for the shackles. A moment later the militia formed a guard around the sheriff and his prisoner and started down the street for the station. Within five minutes after their arrival the train departed for Chester. Shenkle made a full confession of his crime while on the way from Springfield to Carrollton.

Kills Son and Burns Home. Murder, suicide, and wholesale destruction of property were the results of Henry Warn's insane fury Friday morning. Warn was a German farmer living six miles north of Denton. He became seized with a savage desire to kill and destroy. He killed his son, William, aged 21, burned the house, and then proceeded systematically to set fire to everything he possessed. He destroyed the farm waterworks, fastened his cattle, hogs, and chickens securely, and set fire to every building on the place. While he was at his work neighbors, seeing the smoke, rushed to the place, but he drew a revolver, fired several shots, and drove them away. After firing the remaining buildings he went into the burning barn and his charred body was found among the bodies of the horses.

Constable Kills a Robber. At Clayville, Pa., Town Constable John Neely shot and killed one burglar and captured another, with the aid of a posse, after a desperate fight. The burglars robbed half a dozen houses and were located soon after by the officer. One attacked him with an iron bar and the other shot at him. He drew his own revolver and killed one instantly. The other fled, but was captured later. Neely was badly hurt in the fight. Court Upholds Liquor Act. The important case of The State vs. F. L. Taft and D. H. McQueen, which had been pending in the Supreme court for many months, was decided at Burlington, Vt. While the case is remanded, owing to a technicality, the court held that the liquor law passed by the Vermont legislature in 1888 was constitutional. This law provides that the holding of a United States license for the sale of liquor is prima facie evidence that the holder is a common seller and he may be punished for violating the prohibitory law.

AFTER THE GRIP COMES CATARRH

LIKES A TERRIBLE CYCLONE grip bacillus has passed over our country, from the Atlantic to the Pacific, leaving behind it a dark cloud of anguish and despair. Catarrh follows grip as effect follows cause. A multitude of catarrh victims will spring up in the trail of the awful epidemic of grip that has just passed over our fair country. The hope to these people is Peruna. Most people know this already. Everyone who has had the least touch of grip, should not fail to take a course of treatment with Peruna. Peruna eradicates every vestige of the disease and leaves the system in a normal condition. Hon. Joseph B. Crowley, Congressman from Illinois, writes from the National Hotel, Washington, D. C., as follows: "After giving Peruna a fair trial I can cheerfully recommend your remedy to anyone suffering with coughs, colds, la grippe and all catarrhal complaints."—J. B. Crowley. Hon. George H. White, Congressman from North Carolina, writes: "I am more than satisfied with Peruna, and find it to be an excellent

remedy for the grip and catarrh. I have used it in my family, and they all join me in recommending it as an excellent remedy."—George H. White. Hon. J. P. McGraw, Superintendent U. S. Capital Police Force, of Washington, D. C., says: "Having suffered from the grip, I was advised by a friend to use your Peruna. I also used it for my catarrh, and I can now cheerfully recommend your remedy to anyone who is suffering from the grip and catarrh."—J. P. McGraw. Miss Anna Russell, Post worthy Counselor, Loyal Mystic Legion, 293 Endicott Bldg., St. Paul, Minn., writes: "For years I have unfortunately found my system in a peculiarly receptive condition for catarrh when I was exposed in any way to inclement weather. At those times I would be severely afflicted with the grippe and its unpleasant consequences. "Now for the past year and a half I have used Peruna in such cases and have found that it not only cures me quickly, but it also cleanses my blood and renders me less liable to catch cold. It is the finest preventative of colds that I know of and a very superior tonic."—Anna Russell.

Miss Alice Dressler, 1515 North Broadway Ave., Minneapolis, Minn., writes: "Last spring I suffered from la grippe and was partially cured, but the bad after-effects remained through the summer, and somehow I did not get strong as I was before. In the fall I caught a cold after getting my feet wet and attending a lecture in a cold hall, and I suffered a relapse. An unpleasant catarrh of the head and throat followed, and as I was in a weak condition physically previous to this, it took but little to break me down completely. "One of my college friends who was visiting me, asked me to try Peruna, and I did so and found it all and more than I had expected. It not only cured me of the catarrh, but restored me to perfect health, built up the entire system, and brought a happy feeling of buoyancy which I had not known for years."—Miss Alice Dressler. If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis. DEATH begins in the bowels. It's the unclean places that breed infectious epidemics, and it's the unclean body—unclean inside—that "catches" the disease. A person whose stomach and bowels are kept clean and whose liver is lively, and blood pure, is safe against yellow fever, or any other of the dreadful diseases that desolate our beautiful land. Some of the cleanest people outside are filthiest inside, and they are the ones who not only "catch" the infections, but endanger the lives of all their friends and relatives. There's only one certain way of keeping clean inside so as to prevent disease and that is to take CASCARETS. Perfect disinfectant and bowel strengtheners. All diseases are PREVENTED BY Cascarets LIVER TONIC. BEST FOR THE BOWELS. NEVER SOLD IN BULK. CURE GUARANTEED.
