WHERE COLORS COME FROM

Africa Mas a Mird Whose Plumage Will Bot "Wash."

"The man who devotes his life to the study of color in all its remarkable phases occasionally comes across some queer facts," recently said the senior partner of a well known firm of artists' color men. "The printing of a newspaper color supplement sets thousands of unsuspected toilers in motion. The nat ural earth of Sienna and Umbria, in Italy, produces the raw colors, and the same material fused the familiar 'burnt sienna' and 'burnt umber.' 'Turkey red' comes from the Indian madder plant. 'Carmine' and the 'lakes' are squeezed cochineal. 'Sepia' is, of course, taken from the cuttlefish. 'Gamboge' is the yellow sap of a Slamese tree. 'Ultramarine' is, or should be, made from the priceless lapis lazuli, while 'prussian blue,' which was stumbled upon by accident, is the burnt product of horses' boofs and impure potassium carbonate. 'India fuk' is made in China, 'blue black' is the charcoal of the vine stalk and 'bister' is made from ordinary wood ashes. "As you are probably aware, the dis-

tinguishing feature of India ink is its refusal to 'run' when subsequently covered with tipted washes. It is what the drapers call a 'fast' color, and for this reason is exclusively employed by engineers, draftsmen and others.

"Most persons imagine that all natural colors, such as those of birds plumage, are 'fast.' This is erroneous. The well known African touraeo (plantain eater) is a case in point. If this bird is caught in a shower of rain, the brilliant crimson found in his plumage will 'run,' leaving the erstwhile crimson feathers a species of dirty white, notwithstanding that his green feathers will remain perfectly 'fast.' Inquiry into this curious 'running' trait reveals a marvelous provision of nature. A careful analysis of the crimson feathers shows that the brilliant coloring is due to the presence of a large quantity of copper."-Fiber and Fabric.

HARD TO PURCHASE.

The Peculiar Red Ribbon of th French Legion of Honor.

The peculiar red ribbon which mem bers of the Legion of Honor of France are entitled to wear is to be had in New York at one establishment, which is naturally sought out by Americans honored with this decoration. But they never have the satisfaction of getting the ribbon until the firm that has the exclusive sale of it has received official notice that the persons applying have the right to display it.

"I know it," said one of the clerks the other day to a would be purchaser of the ribben. "I know that you are a member of the legion and have a right to buy the ribbon, because I read your name in the paper and know who you are. But we have not received official notification of your appointment and you have not your diploma. So I could not sell you any of it.

"We had to make this rule first because the French government required it of us when we received the agency. but we also realize the necessity of it. All kinds of persons who have no right to this ribbon try to get hold of it. All of them pretend when they find that we sell it only to persons entitled to wear it either that they are members of the legion or that they are buying it on behalf of persons who do belong to the order. The ribbon is not like any other, and we know that if any of this ribbon is bought in New York that it comes from us. For that reason we are particular to the extent of requiring documentary proof from every appli- by E. N. Truman, one of the wealthy more beautiful than the color displayed cant unless we have received official notification of his right to wear it."--New York Sun.

Bruisca.

use a mild astringent of some sort, such as witch hazel or vinegar. Keep the bruise constantly wet until the pain ceases, using a bandage of old muslin for wrapping. If the pain is very intense, laudanum may be added. After the pain has ceased and only discoloration and swelling remain to tell the tale it is a good plan to apply a stimulating liniment. This induces an extra flow of fresh blood to the spot. In the case of a severe bruise the supply of blood to the injured part must be lessened by elevating it above the heart and applying cold water or even

Of course when the bruise, or contusion rather, is of such moment house remedies should be indulged in only while waiting for a doctor, a truth that necessarily applies to all the various emergencies that arise. In cases of severe burns physicians are often hampered by the home remedles that cover the burns and hide the real extent of the injury.

Massage For Apoplexy.

The medical profession recognizes today as it has never done before the remarkable sid of massage. It has done marvelous things for paralysis, even for apoplexy, at which doctors once looked on helplessly. Apoplexy is caused by a clot of blood on the brain, and if that clot can be broken up, if an emptying can be effected of clogged veins, recovery is in sight. Constant massage of the forehead and skull will do it (this has been proved over and over again), while paralyzed limbs, by patient, constant kneading, can have new life rubbed into them. - Good Housekeeping.

Some railroads advertise to carry passengers through without change, but they make a fellow pay just the (encouragement) has appointed as Mexsame.-Chicago News.

In Paris the public authorities supply gratuitously sulphurous baths to al markers who manipulate lead.

BANDS FOR PAN-AMERICAN.

Their Music Will Be a Great Feature

of the Exposition at Bullato. Arrangements have already been made for the appearance at the Pan-American Exposition of some of the most famous bands of the American Continent. Throughout the season, from May 1 to Nov. 1, concerts will be

given daily in various parts of the Exposition grounds by these bands, and the variety of musical entertainment thus afforded will be a notable feature of the Exposition. Prominent among the organizations engaged is Sousa's Band, which is known wherever there are lovers of music and whose success in the rendition of military music has been remarkable.

history of international events was perhaps the triumphal tour made by Sousa and his band through Europe, extending from April to September, 1900. It was 22 years since an American band had been heard on the European Continent, and so emphatic was the success of the American conductor and composer that the tour became a series of ovations throughout France, Germany, Belgium and Holland. It was the official band at the Paris Exposi-

The Mexican Government Mounted Band has been engaged to give concerts during the Exposition.

Fanciulli's Seventy-first Regiment Band of New York has been engaged for a series of concerts during the season. This band has also a great reputation for its rendition of military music, and it followed Sonsa's Band in the concerts at Manhattan Beach.

Canada will be represented by several bands, among them the famous Thirteenth Regiment Band of Hamilton which is the crack band music organization of lower Canada.

The Eigin Band of Eigin, Ilis., which stands very high in that state, has also been engaged.

Another well known band is the Carlisle Indian Band, which made a great hit in Washington and New York City. When the Ancient and Honorable Ar-

tillery of Boston made their recent notable tour in Europe, they were accompanied by the Salem (Mass.) Cadet Band, which contributed much to the success of the tour. This band will also be heard at the Pan-American Expo-

men of that section. It has achieved a New York State.

which has been before the public for For an ordinary bruise such as re- two or three years and made a prosults from an ill directed hammer or nounced success, has been engaged. It Why send away from town for the same from a door shutting on one's finger is spoken of highly by musical people in Boston.

Besides these bands from other por tions of the United States, the see bands of Buffalo have been engage for the Exposition, including the well known Seventy-fourth Regiment Band and the Sixty-fifth Regiment Band, which saw service at Camp Alger during the Spanish-American war. Another band of Buffalo is Scinta's

Band, a strong organization.

These local bands have been strengthened to the number of 33 men each and the leaders claim to have put them in a very fine condition, so that Buffalo need not be ashamed of the performances they will give during the progress of the great Exposition.

This is not a complete list of the bands which will be heard at the Pan-American, but simply shows the character of the entertainment to be pro-

Minerals at the Pan-American. Minerals will be fully represented, comprising every production, both useful and ornamental, mined from the earth. All parts of the United States and every country of South and Central America. Canada, Mexico and the islands of the sea will contribute specimens for the exhibit. All kinds of machinery used in manipulating ores will be exhibited. The great advantages that the Americas have over the rest of the world in the wealth of their minerals in connection with climatic conditions, accessibility, etc., will be clearly flustrated. While the exhibits will be under the auspices of the various Governments, many individuals and mining companies will be represented by individual displays, representing their special interests.

Mexican Appointment. The Mexican ministry of fomento ican representative of the Pan-American Exposition Engineer Albino R. Nunclo, who was until his appointment whief of the second section in the afore entd ministry.

RAINBOW CITY.

Pan-American Exposition Aglow With Beautiful Colors.

Perhaps nothing has been more talked about than the color scheme of the Pan-American. It was a daring thing to attempt to array in colors the extensive buildings of this Exposition, for scarcely any precedent existed for such an undertaking, and to attempt it and fail would be disastrous indeed. It was out of the question to duplicate the White City at Chicago. Something absolutely new must be devised for the Pan-American at Buffalo. Happily the Spanish renaissance architecture furnished the hint for the solution of this The most notable achievement in the problem, and now that it has been solved and the color scheme is seen to be so well adapted to the purposes of exposition architecture it is resized

FIGURE OF REBOIC MUSIC.

that a new discovery has been made. With the buildings arrayed in colors which will harmonize with the general scheme of the Exposition and please rather than offend artistic taste, the Rainbow City cannot fail to become popular in a degree scarcely hoped for by those who planned its construction.

The Director of Color, Mr. Charles Y. Turner, N. A., of New York City, studled the requirements of the situation and in his studio in New York by means of models carefully worked out the designs and drawings for the mural decoration. The experts experimented with paint and obtained an article that may be used without fear that it will lose its staying qualities before the Exposition is over. The test already made shows that the paint after being once applied to the staff is going to hold its color well.

RARE COMBINATION.

The Floral and Electrical Display at the Pan-American Exposition. There is a saying that "Flowers are the poetry of earth, as stars are the poetry of heaven." If this be true, the beauty of the floral effects to be seen at the Pan-American Exposition will be pronounced as a rare combination of both, for never yet at an exposition have such magnificent effects been seen as will be visible in some of the ON AURORA ROAD, adjoining Naperfountain basins at the Pan-American. There beautiful plants and flowers, kissed to a state of dewy dazzlement by the falling spray and the glow of concealed incandescent lamps, will delight the visitor.

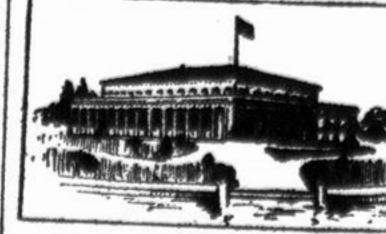

At the exposition in Omaha some little success was obtained in thus lighting up the flowers and the foliage of plants in the water basins, and this has led Henry E. Rustin, chief of the mechanical and electrical bureau, to attempt to enlarge upon what he accomplished in Omaha. When thus lighted, the flowers and plants take upon themselves new colors, each one seemingly under full sunlight. Then the little great reputation in the central part of mystery of where the illumination comes from is delightful, and, knowing The Boston Ladies' Military Band, this, the skilled electrician is most careful to conceal his lamps where least likely to attract the eye. Perhaps an artificial leaf, an artificial flower, is used to hide the lamp, but its full brilllancy is allowed to beam upon the plant and flowers, making a picture that is lasting. It is when such effects are obtained that the full appreciation of enjoyment is expressed in the single word "beautiful." It was so at Omaha, and it will be more so at the Pan-American.

Automobiles at Exposition. The automobile has been developed since the Columbian Exposition at Chicago. What marvels may be exhibited and in practical daily use at the Pan-American Exposition can only be dimiy conjectured. The railway, vessel and rehicle exhibits at Buffalo this year will outrival in interest anything that has been possible in the past,

In 1981 the largest are light machine made supplied current for 16 lights, OFFICE IN THE COURTHOUSE-AT and when Mr. Brush made a 50 light machine it was a giant. In the electrical exhibits of the Pan-American Exposition the largest type of Brush are light machine will be shown, and this will afford interesting comparison with the machines of 20 years ago.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child

reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose

Women as well as men are made miserable with kidney and bladder trouble and both need the same great remedy The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fiftysizes. You may have a sample bottle by mail free, also pamphlet tell-Home of Swamp-Root.

ing all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and
