"NIAGARA TO THE SEA." To the uninitiated this may seem rather vague, but should anyone be desirous of knowing something of the beauties of the most wonderful scente trip on the continent, if they will write to the Richellen & Ontario Navigation Company of Montreal, that company will be most pleased to forward them illustrated booklet and folders descriptive of the trip, which embraces a sail on their steamers through Lake Ontario thence to the St. Lawrence river through the picturesque scenery of the 1,000 Islands (America's Venice), the exciting descent of the marvelous rapids to Montreal, where connection is made with the Richelieu Company's palatial steamers for a trip to quaint old Quebec. After a night's sail and on the approach to Quebec in the morning, a magnificent panorama may be seen by the tourist from the decks of the steamers. The rugged and steep cliffs, made famous by General Wolfe's historic climb during the struggle between France and Britain for the possession of the key to Canada first comes into view, and at the very pinnacle of these cliffs the antique, but majestic forts crown the heights, then as the steamer approaches the landing, many quaint and curious buildings fairly reveling in historic association are to be seen.

On landing at Quebec transfer is immediately made for trip down the lower St. Lawrence to Murray Bay and Tadousac, at which point two magnificent hotels have been erected for the convenience and comfort of the American tourists, these hotels are owned and operated by the Richelieu and Ontario Navigation Company and are luxurious in all their appointments and are very popular with tourists from all parts of United States and Canada. The steamer then proceeds up the famous Saguenay river, whose magnificent capes amongst which are "Trinity" and "Eternity" together with falls, mountains, etc., and peculiar atmosphere (which is a combination of mountain and sea air) for the restoration of health has no equal, make this one of the most delightful trips within the reach of the tourist on this con-

Mark Beautt.

A banquet at the University Club in Buffalo, given in honor of Mark Bennitt, chief of the bureau of publicity of the Pan-American Exposition, was a fitting tribute to the genius of the man who has so successfully exploited the merits of the exposition.

Mr. Bennitt stands foremost among newspaper men in the United States today, having within the past year proved his masterly grasp of the requirements of such an important posttion. He not only knows what material is required, but he knows how to get it and where and when to send it. His work is known and appreciated by every editor in the United States and Canada.

He brought to the exposition an experience of twenty years in every branch of newspaper work, reaching all the way from the Crossroads Weekly, to the Metropolitan Daily. He possesses not only ability to do things himself but the still more necessary qualifications of being able to select a capable staff and to inspire the members thereof with his own seal.
