Don't be fooled by the way father used to paint, it stands to reason that S. W. P. Co. with their modern machinery can mix paint better than some painters with a stick. He is in an old rut, don't be contented with the hack number. See C. S. Hughes about modern painting.

Plans are still in the hands of the civil engineer for a sewerage system for Wheaton but will undoubtedly be taken up by the city council on Monday evening. A sentiment is fast growing over the country that private funerals are more acceptable and in harmony with such sad occasions than a public burial. This question has been argued pro and con for years, but it has been noticeable of late that the sorrows of death have been confined to the home where sickness and dissolution followed. One of these days in the future a short home service will be held and the remains will be accompanied to the cemetery by only the immediate family. In all the city papers these days most of the death notices end with the "funeral private."

Fourteen noted writers were sent by the Cosmopolitan Magazine to the Pan-American Exposition to study the most interesting features with a view to preparing the most beautiful souvenir of any exposition ever made, from both a literary and an artistic standpoint. The Cosmopolitan Pan-American souvenir will be an even finer number than that of the Chicago Fair. To those who have visited the exposition it will recall vividly in days to come every feature they have seen and those who are unable to go there will secure such a comprehensive view of its attractions as will be well worthy of preservation.
