Illinois will be asked this week to do its share towards creating a suitable memorial to President McKinley in Canton. A committee will be appointed by Alexander H. Revell of Chicago, the Illinois representative upon the board of trustees of the National McKinley Monument association, and the call for subscription will issue within a few days. "We do not desire to make this movement the affair of a few wealthy men," said Trustee Revell. "We would rather permit it to become a spontaneous contribution from the masses of the middle or the poorer classes, among whom Wm. McKinley had so many admirers and friends. We shall therefore make no direct request upon anybody for money, but shall simply ask anybody who is in favor of building a monument over the grave of our venerated president at Canton to give whatever he or she feels like adding, whether it be 5 cents or \$5,000."

The elevation of Judge George W. Brown of this county, to the appellate bench is a matter of a great deal of satisfaction to his friends throughout the county, and in fact the entire circuit. He has risen through his own unaided efforts from the farm until he has become one of the brightest and best known jurists in the state of Illinois, and is certainly deserving of the honor conferred upon him by the supreme court. While county judge of DuPage county, and as circuit judge of the sixth judicial circuit, his course has been marked with dignity and fairness, and he has shown superior ability and fitness in both capacities. As a judge of the appellate court his technical knowledge of the law will enable him to pass upon the cases of the lower courts with insight and a thorough understanding of the legal features involved.

It was the chief object of the framers of the new revenue law to uncover the large amounts of personal property that in years past have escaped taxation in this state, and the operation of the law shows that it is accomplishing that purpose. The returns of the assessors show a net increase of \$1,000,000 in the assessment of the state property over that of last year, and the greater portion of this increase comes from the listing of the personal property

that heretofore has escaped taxation. A still greater increase can be counted upon next year, because the assessors will be more familiar with the methods resorted to for the purpose of covering up personal property that should be taxed.

Senator Cullom has expressed the opinion that there will be no general revision of the tariff at the next session of congress. This is the general view of Republican members of congress. Reciprocity treaties that are pending will be considered, beyond these it is not likely that anything will be done. The senator represents that a general revision of the tariff is open to the objection that the debate creates an uncertainty harmful to business. The country is doing well under the present tariff law and there is no good reason for general overhauling. Foreign trade is increasing, the factories generally are all running, and there is little sense in introducing a disturbing factor at this time. Senator Cullom's position is that of Republicans generally.

The Democratic Louisville Journal is reminded that it has only been a few years since the free silver advocates pointed to India, then under the silver standard, to prove everything. The financial statement of the Indian secretary, just made to the house of commons, more than realizes, as he claims, the government's expectation for the gold standard, the balance sheet which he showed being the most favorable since India became a British possession, in spite of the three years' drought and the immense sums expended for relief of the famine sufferers.

Commenting upon the action of the late Iowa Democratic convention the Davenport Democrat, a leading political paper of that state, says in a leading editorial, under the head of "Still Wedded to Their Folly." "The Bryanites of Iowa thus set themselves up in opposition not only to reason and evident logic of the times, but to Democrats of all older states that have so far voiced their views. Folly could not go farther, stupidity could not be more dense, and punishment is as certain to come as the ballots are to be cast."

The "general demand for a revision of the tariff" about which we read, comes from the defeated and discredited Democratic party, that "generally demands" a change of any policy which means the bettering of the condition of the people, everything Republican in fact.

Blood.

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor.

There is nothing else to live on or by.

When strength is full and spirits high, we are being refreshed, bone muscle and brain, in body and mind, with continual flow of rich blood.

This is health.

When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the blood, is food, to keep the blood rich. When it fails, take Scott's Emulsion of Cod Liver Oil. It sets the whole body going again—man, woman and child.

If you have not tried it, send for free sample, its agreeable taste will surprise you. SCOTT & BOWNE, Chemists, 109-111 Pearl Street, New York. 50c and \$1.00; all druggists.
