Problems of Great Importance Be Solved.

OUTLINE

the May-Pauscofoto Treaty to He Dis panel of Blest-Indications Are That the Sessions Will Continue Until Next

Washington dispatch: The fifty-seventh Congress will meet next Monday and all indications warrant the belief that it will be one of the busiest and most important congresses in years. David B. Henderson of lows will succeed himself as speaker of the House and Senator William P. Frye of Maine will preside over the Senate. The committees of the two houses will be made up much the same as at the last session. 'The President's message, now in the hands of the printer, will be given a final reading at the Cabinet session of Tuesday and will be delivered to Congress on the afternoon of Monday, December 2. These matters will come up for consideration in the following order: The Hay-Pauncefote treaty, abregating the old Clayton-Bulwer convention; a bill authorizing the construction of the Nicaragua Canal, with proper appropriations; a river and harbor bill, carrying appropriations of \$79,000,000; Legislation for Cuba, Porto Rico and the Philippines; trans-Pacific cable; reduction of the war revenue taxes; the pending reciprocity treaties; revision of the tarif schedules; an investigation of the war with Spain on the naval side and probably a special inquiry into the Sampson-Schley controversy; the Chinese exclusion question; tightening of the immigration laws to prevent the entrance of anarchists; the establishment of a Department of Commerce, with special functions with reference to trusts; a bill by Senator Elkins change some of the interstate commerce laws; ratification of a treaty for the acquisition of the Danish West Indies; ratification of treaties with Nicaragua and Costa Rico for the acquirement of territory for the Nicaragua Canal. In addition to these spectal features the regular legislation for the conduct of the government will be under consideration. Present indications are that Congress will not get through the work now mapped until late in the summer, possibly August or September.

Street Car Blown Up.

Scrauton, Pa., dispatch: Another street car was blown up by dynamite at night. This occurred at Greenridge. The car was badly shattered, and an old lady, the only occupant, became hysterical, though she escaped injury. This is the fifth outrage of its kind in two weeks.

May Make Brodle Governor. It is confidently believed among politicians at Washington that President Roosevelt will appoint A. O. Brodie governor of Arizona to succeed Nathan 7 O. Murphy. Brodie served in Cuba with the Roosevelt rough riders and was one of the officers of that famous regiment.

MAKE ANTI-PASS AGREEMENT.

Passes of Any Kind. Columbus, O., dispatch: The executive committee of the mileage bureau of the Central Passenger Association discussed the pass question at a meet ing here yesterday, and the official announcement is made that passes wi be abolished on Jan. 1. The agreement is as follows: "We hereby agree that for the year 1902 we will not request or issue annual, term, or trip passes." This agreement includes the New York Central, Michigan Central, Lake Shore, Nickel Plate, Big Four, Lake Erie and Western and Boston and Albany of the Vanderbilt system, and the Pennsylvania, both east and west of Pittsburg, Baltimore and Ohio, Vandalia, Norfolk and Western, Chesapeake and Ohio and Erie system.

Lose Lives in Mine. Eight men prominent in the business and political affairs of West Virginia are believed to have lost their lives in the Pocahontas mines. Experienced miners who went down to search for the missing men were driven back by black damp and hope for their recovery has practically been abandoned. The supposed victims are: Walter O'Malley, superintendent of the Pocabontas Collieries Company; William Priest, state mine inspector; A. S. Hurst, chief coal inspector for the Castnor, Curran & Bullitt Company of Philadelphia; Robert St. Clair, chief coal inspector; Morris St. Clair, coal inspector; William Oldham, substitute coal inspector; Frazier G. Bell, mining engineer; Joseph Vardwell, manager of the Shamokin Coal and Coke Company of Maybury, W. Va.

New One Wire Telegraph. Dr. William Duane, professor of physics at the Colorado University, has just been granted a patent for an invention by which a large number of telegraph messages can be sent and returned over one wire at the same time. In the physical laboratory at the university it is said he has had as many as eighteen circuits working in this manner. On any of these circuits the Morse instrument can be placed and used exactly as with the single wire now in use. Dr. Donne's invention is based on the principle of synchroniz-

Clew in Murder Mystery. Stewart Fife, who was a clerk in a store at Savannah, Mo., has been formaily charged with the murder of Frank W. Richardson, the wealthy merchant who was killed in his home nearly a year ago. Fife has not been arrested, as he left Savannah in June. Fife said he was asleep in the Owl club at the time Richardson was killed. Admissions by the young man since the murder, however, are said to be damaging.

Scalpers Win in New York. The law passed by the last legislature prohibiting ticket scalping was declared to be unconstitutional by the court of appeals at Albany, N. Y. The decision was rendered in the case of Clarence Fleischman, a ticket broker of Buffalo, vs. Sheriff Samuel Caldwell of Erie county.

MAP SHOWING SITUATION OF COLON, WHICH HAS BEEN TAKEN BY COLOMBIAN INSURGENTS

New York, dispatch: Captain Baron Fersen, Russian naval attache at Washington, and Lieutenant W. C. Herbert of the bureau of steam ensincering at Washington, inspected the company at Greenport, L. I. One of the tests was a submarine run of two miles, at the end of which a torpedo was fired at a target, striking within tree feet of the center. Captain Fer-

Caracas, Venezuela, dispatch, via Haytian cable.-President Castro, believing that a conspiracy to overthrow him existed, caused the arrest at Puerto Cabello of Ramon Guerra, the minister of war. The president also brought about the arrest at Caracas of a number of partisans of Ramon Guerra, among them being Montauban, who claims to be a French citizen. The arrests have caused a great sensation. M Lientenant Herbert were Josehim Garido succeeds Ramon GeerBETTING MUSICAL PITON.

Musical pitch has a curious tendency to creep in. It is said that Buch' music sounds much differently now from what it did when Bach wrote it because the instruments are now pitched higher. In 1882 it was found that the pitch of high A at the Vienna Court Opera had crept from the prescribed 435 double vibrations a second to 443, and in 1885 this number had further increased to 450. Accordingly a musical conference was held, and a resolution was taken to re-establish the old pitch of 435 vibrations per second. Upon this announcement the Reichsanstalt, the Imperial Physical and Technical Institute of Germany, set up standard instruments, and has since tested and corrected many hundreds of tuning forks, shortening them if they are too low in pitch, and thinning the arms if they are too high. All the military orchestras of Germany are pitched alike, and the Reichsantait keeps the tuning forks correct. And this solicitous care of the government in preserving standards is one reason why the world now goes to Germany in musical matters.-Pearson's Magazine.

CANADA'S CAPITAL AFOUSED. Nover Was There Such Excitement-Physicisms' Association Trying

to Explain. Ottawa, Canada, Nov. 25th.-This city is stirred up as never before. Some seven years ago the local papers published an account of a man named George H. Kent of 408 Gilmour street, who was dying of Bright's Disease and who at the very last moment after several of our best physicians had declared he couldn't live twelve hours, was saved by Dodd's Kidney Pills.

People who know how low Mr. Kent was refused to believe that he was cured permanently and the other day in order to clinch the matter the papers published the whole case over again and backed up their story by sworn statements made by Mr. Kent, in which he declares most positively that in 1894 he was given up by the doctors and that Dodd's Kidney Pills and nothing else saved him, and further that since the day that Dodd's Kidney Pills sent him back to work seven years ago, he has not lost a single minute from his work. (He is a printer in the American Bank Note Printing Company.)

Mr. Kent is kept quite busy during his spare hours answering inquiries personally and by letter, but he is so grateful that he counts the time well apent. Indeed he and his wife have shown their gratitude to Dodd's Kidney Pills in a very striking way by having their little girl-born in 1856christened by the name of "Dodds."

Altogether it is the most sensational case that has ever occurred in the history of medicine in Canada and the perfect substantiation of every detail leaves no room to doubt either the completeness or the permanency of

The Falls of Glomen, in Norway, are to be utilized for the operation of an electrical generating plant almost sa large se the one at Niagara.

John Dougles of Melvern, when a young man, swore at a murder trial in Illinois that he saw one man stab another by the light of the moon. Abe Lincoln, who was attorney for the defendant, showed by an almanac that there was no moon on the night of the murder. Douglas has never yet unraveled the mystery of the defendant's acquittal.

Donfindes Connet Be Cured by local applications as they cannot reach the diseased portion of the car. There is only this way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness in the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarria, which is nothing but an inflamed condition of the mucus surfaces.

the mucus surfaces.

We will give One Hundred Dollars for any case of Deafness (esused by eaterth) that cannot be cured by Hall's Catarra Cure. Send for sirculars, free J. CHENEY & CO., Toledo, O. Sold by Druggista, The. Hall's Family Pills are the best.

Ban on Chickens. In Los Angeles, Cal., there is an ordinance imposing a fine of \$5 for allowing chickens to run on the streets and other people's property. The success of the ordinance is such that the city of Oakland will adopt one similar to it.

There is no trick in dyeing. You can do it just as well as any one if you use PUTNAM FADELESS DYES. Boiling the goods for half an hour is all there is to it. Sold by druggists, 10c. package. The first glass made in this country

was manufactured in Jamestown by the English colonists in 1609.
