Illimois Will Help. In no state in the union was the late President McKinley held in higher regard than he was in Illinois, and there is no occasion to advance any argument in favor of a fitting participation by the people of this state in the movement that has been inaugurated for the construction of a national monument in his honor at Canton, his home city. It may be safely as sumed that the citizens of Illinois as a whole will contribute as liberally towards this enterprise as will those of any other state, and all that needs

be said upon that subject is to call attention to the fact that the funds required for the construction of the proposed monument have been asked for. and that those who are desirous of contributing will aid the movement by forwarding their subscriptions promptly. There always is danger that matters of that kind, which can be postponed so easily, will be neglected entirely, but it must be apparent that those in charge of the movement cannot formulate their plans or inaugurate the construction of the memorial until they ascertain how much money will be placed at their disposal, prompt response to the call that has been issued will be as striking a manifestation of popular admiration for the departed president as will be the

It is probable that the people since March 4, 1897, under Republican administration, have become weary of prosperity, peace and plenty, and will embrace the first op-portunity to change the programme? We would guess not. Sparts Plain-

The Party of Distranchisement. The Democrats of Maryland buye held their state convention, nominated a ticket and adopted a platform. The chief interest of the occasion was centered in the suffrage plank of the lat-

This precious declaration, inspired by ex-Senator Arthur P. Gorman---who is anxious to get rid of the "ex" in our exclusive home market," because front of his title-proposes to disfranchise by wholesale the colored vote of the state. It says that "the peace, good order, personal safety and proper development of our material interests depend upon the control of the commonwealth by its intelligent white residents. Without the aid of the 60,000 colored voters the Republican party in Maryland would be a hopeless minority."

That is brutally frank. In effect it says: "We, the Democrats of Maryland, desire to win the next election in Maryland: but to do it we must exclude from the polls 60,000 Republican votes, and that can be done only by forcibly robbing the black citizens of the state of their votes. Therefore, resolved, that all colored voters be disfranchised."

This infamous proposition is entirely in keeping with the character of the Democratic party and the political repfirmation of devotion to the principles enunciated by Thomas Jefferson. Thomas Jefferson's "principles," as interpreted by the Democracy, are clastic enough to cover any form of meauness or villainy that will serve the supposed interests of that party. Jefferson was supposed to to be a devotee of human equality irrespective of race,

But the Democratic party's professions or regard for either liberty or equality are mere lip service. So long as slavery existed it was the apologist for and defender of slavery. It has never yet lifted a finger to improve the condition of the colored race. Wheneven it takes any action regarding the negro, let the latter look out, as he may be sure that the Democratic

party is his enemy every time. Having begun the process of disfran- OFFICE IN THE COURTHOUSE-AT chisement in Maryland and other states, how long will it be before the Democracy, should find its interests lie in that direction, will aim to disfranchise some class of voters in the north? We may be sure that no consideration of "principle" would hinder it one hour if votes or possession of the government were to be gained in that way.

Free Soup And Coxin, It must now be sadly conceded by our Republican friends that crop failures and strikes will occur under one political party as well as another,-Carmi Democrat.

Yes, this is true. For once the editor of the Democrat has told the truth. But pardon us for making a few side remarks. The strike to-day is simply to make the steel mill operators recognize the union. During the Cleveland administration they were against the lowering of wages. See ing the Cleveland administration were not caused by failure of crops, for crops were never so abundant, but it was because the farmers couldn't get any market or price for their crops after they had produced them. See the point? Two things there are, bowever, that occur only under Democratte administrations. They are free soup houses and Coxie armies. See the point?-Benton Republican.

If the esteemed Democratic editors could be believed, it would be neces sary to reach the conclusion that "the common people" are in a very decided minority in this country. It is one of their favorite assertions that "the Republican party has no use and no conthough the Republican party is the ple." But that is by no means the only delusion the esteemed Democratic editors labor under.—Belleville Advocate.

Bryan's candidacy on platforms built of his own wild financial and economic theories and vagaries, class hatred and flag furling, insured Republican victory in this nation of sanity and prosperity. As Mr. Bryan is responsible for the downfall of the Democracy the him, for they found the old Democracy occassionally a hard opponent to down, while Mr. Bryan's Democracy has become almost too easy to be interesting. -Galesburg Mail.

The Ohio Democrats demand tariff reform on the ground "that the productions of the country far exceed its power of consumption." There's logic and reasoning for you. They recom-If "the tariff is a tax on the con- mend removing the tariff so more foreign goods can come in, thereby increasing the amount of products for us to consume.-Greenfield Argus.

In the absence of any real live issue for the next campign the Democratic leaders are drifting back to their old howl, "tariff for Revenue only." If According to Senator Teller, the peo- they would make it: "We want office for revenue only" they would get a Home News.

It is no wonder that the "Progressive Democratic party" in Ohio cannot get a start. There never has been anything progressive about Democracy and it would be just as easy to mix 7.05 pm Bryan has bought a \$340 standard off and water as it would be to unite progres and Democracy, Geneva Re-

> The Democratic plan of campaign is at present something like the position the young lady who prepared to shoot at a mark. She said she could tell better what she was aiming at after she had shot. It has only just been discovered what the real object of the party was in the last campaign. --- Watseka Stalwart.

It may be well to recall the fact that the people in 1892 sought "the markets of the world" under the promise of the Democratic party that free trade would open the way. The experiment was rulnous. Protection of our industries was then restored under President McKinley, and, lo, the markets of the world are ours. The son is obvious, "Let well enough
