

Monastery in Luck

One of the problems that confronts the management of the monastery of the Carmelites...

This epilogue of the act of the French chambers is seen on all sides. The fine chapel of the Carmelites on the Boulevard Gambetta at Fontainebleau can be bought for a song comparatively.

Monastery of the Carmelites.

As it is there is a superabundance of churches in the land and religious sentiment in France is rapidly on the decrease.

FOUND AMERICANS BUYING LAND AT SASKATCHEWAN, WESTERN CANADA.

A Michigan Farmer Visits Saskatchewan and in West Prairies. Mr. S. K. Leck was a delegate sent from the farmers of Allegan County, Michigan, to Western Canada, to report on the prospects for successful settlement. His report is as follows: I went from Winnipeg to Edmonton, thence east one hundred miles by wagon. I found the country in that vicinity a rich, black loam, varying from 12 inches to 3 feet deep; the crops are simply something enormous; wheat and oats by actual measurement often standing five feet in height. I have been a farmer for forty years, and consider myself a fair judge of the yield of grain, and I saw wheat that would yield 60 bushels per acre, and oats that would yield 100 bushels per acre; not one alone, but a good many. As for root crops and garden truck, in no country have I ever seen their equal for all kinds except corn and tomatoes; the nights being too cool for these to ripen well. As a stock country it has no equal. East of Edmonton, on the head waters of the Vermillion River, I saw hay meadows containing from 10 to 100 acres, the grass standing 4 feet high, and would often cut 3 to 4 tons to the acre. From Edmonton I passed through some fine locations, namely, Weta-skiwis, Lacombe and other points. From McLeod I went to Regina, thence to Prince Albert, 247 miles north of the main line. For the first fifty miles is fine farming country, but the next hundred miles is more of a stock country. Then at Saskatoon, Rosthern and Duck Lake I found some very fine farming country, so good that I found a party of Americans from Minnesota buying land for themselves—one party buying 12 sections, and the other 20 sections of land for themselves, which they proposed to improve at once.

I have traveled over twenty-three different States and Territories in our Union, and never in my life time have I ever seen such magnificent crops and especially as fine a stock country.

MISS BONNIE DELANO

A Chicago Society Lady, in a Letter to Mrs. Pinkham says:

"DEAR MRS. PINKHAM:—Of all the grateful daughters to whom you have given health and life, none are more glad than I.

"My home and my life was happy until illness came upon me three years ago. I first noticed it by being irregular and having very painful and scanty menstruation; gradually my general health failed; I could not enjoy my meals; I became languid and nervous, with gripping pains frequently in the groin. I advised with our family physician who prescribed without any improvement. One day he said, 'Try Lydia Pinkham's Remedy.' I did, thank God; the next month I was better, and it gradually built me up until in four months I was cured. This is nearly a year ago and I have not had a pain or ache since."

Trustworthy proof is abundant that Lydia E. Pinkham's Vegetable Compound saves thousands of young women from dangers resulting from organic irregularity, suppression or retention of the menses, ovarian or womb troubles. Refuse substitutes.
