Mr. John Vance, of Hartford City, the blood. Ind., says: "My kidney trouble is much better. I have improved so much that everybody wants to know what medicine I am using. I recommend Peruna to everybody and some have commenced to use it. The folks all say that if Dr. Hartman's medicine cures me it must and digestive system, both of which are be great."--John Vance.

Mr. J. Brake, of Petrolea, Ontario, Canada, writes: "Four years ago ! had a severe attack of Bright's disease, which brought me so low the doctor said nothing more could be done for me. I began to take Peruna and Manalin, and in three months I was a well man and have continued so over since." --- J. Brake.

At the appearance of the first symptom

Peruna stimulates the kidneys to excrete from the blood the accumulating poison, and thus prevents the convulsions which are sure to follow if the poisons are allowed to remain. It gives great vigor to the heart's action apt to fail rapidly in this disease.

Oleomargarine Bill Passes Senate and Goes to the President.

MANY CHANGES IN MEASURE

limng of the Long Fight Against Butterine Reached After Several Conforeners Between the Monibers o Both Branches of Congress.

The oleomargarine bill has finally passed congress and goes to the president for his approval. It is expected he will sign it. The senate accepted the house amendments to the senate bill. The measure as it leaves the capitol is not recognizable by its original authors. The dairy interests commenced an agitation several years ago to have a tax placed upon oleomargarine that would prevent its sale as butter. The house passed such a measure last session, but it failed to receive consideration in the senate. This session the oleo bill of last session was reintroduced, and again favorably reported. While pending in the house, its opponents secured a renovated butter amendment. It went to the senate in this form, where it was further amended, and after several conferences the two houses reached as

The bill, as it goes to the president, not only relates to oleo, but also to butterine, imitation, process, renovated or adulterated butter, and imitation cheese, and all other substances in the semblance of butter or cheese not made exclusively of pure and unadulterated milk and cream. It removes such imitation products from the operation of the original package decision and makes them subject to the laws of the state into which they are transported and offered for sale.

Probably the most important section is that imposing a tax of 10 cents a pound upon oleo artificially colored to look like butter of any shade of yellow. It has been repeatedly claimed that this tax will drive the oleomargarine manufacturers out of business. Oleo free from artificial coloring is taxed by the bill one-fourth of 1 cent a pound. Any person who mixes with oleo any artificial coloration that causes it to look like butter is defined by the bill to be a manufacturer and subject to the tax imposed upon manufacturers.

Colonel Woodruff Says Age Limit Was Made Low Because Many Boys

Manila cable: The court-martial which was summoned to try General Jacob H. Smith assembled Friday. Gen. Lloyd Wheaton presided. Col. Woodruff appeared as counsel for Brigadier General Smith, who pleaded not guilty. Col. Woodruff forestalled the prosecution by admitting that the majority of the accusations were true. He said that his client had issued orders to Major Waller to kill the natives and burn their homes. The country was hostile to the Americans and the General did not desire any pris oners. He had issued orders to make Samar a howling wilderness. He had ordered that all persons capable of bearing arms should be killed. The age limit was made 10 because many such boys had borne arms against the American troops. Col. Woodruff donied that any orders had been given to refuse or ask quarter.

SEVEN PRINCIPAL ROUTER. It is a well-known fact that the C. M. & St. P. Ry. system offers a great many different routes between Chicago and St. Paul and Minneapolis. Its main line between those points is especially well known as the route over which runs the famous "Ploneer Limited" and the Government Fast Mail Train.

There are six or seven other routes over a number of which are run through coaches and sleeping cars, which are almost as direct as the principal main line.

These various routes traverse the most interesting and attractive sections of Illinois, Wisconsin, Iowa and Minnesota, including the celebrated "Lake Region" of Wisconsin, and cross the Wisconsin river at the famous "Della," where is the most picturesque scenery in the Northwest.

The main line and several others include from 150 to 300 miles of romantic and picturesque scenery along the Mississippi river. On these various lines are located the most important towns and cities in the North-

Both one way and special excursion tickets between Chicago, St. Paul and Minneapolis are honored via any one of these direct lines.

The teachers attending the National Educational Convention at Minneapoits will appreciate and take advantage of this fact as they can have a choice of routes going and returning.
