warning of trouble comes through

ect the kidney warning, grave nonlications will surely follow. Urmary disorders, Diabetes

right's Disease, are the downward ops of neglected kidneys. Bosn's Kidney Pilis cure every kidasy and bladder sickness and the cure lasts. Read this proof of it:

Mrs. Adam Guntle, residing at 701 South Plum St., Crawfordsville, Ind., says: "I made a public statement in 1897, saying that Doan's Kidney Pills had cured a member of our family after he had suffered for years with a weak back and kidney troubles. He took three boxes of this remedy and was completely cured. Now three years have elapsed since I made this statement and I am only too pleased to reindorse it. I have also used Doan's Kidney Pills myself, obtaining the best results. I have recommended this remedy to my friends and neighbors as one which can always be depended upon."

Bad Advice.

We will show the impudent public," asserts the first magnate, "that we will not be dictated to."

"Certainly we will," agrees the second magnate. "I believe the time has come for us to reassert the famous statement of Commodore Vanderbilt concerning the public."

"No. no." says the first magnate, who is a timid but far-seeing person. "That would never do. If the public were-well, we shall say condemned -if it were condemned, then it would not have to pay anything for its fuel."

REVOLVER ON HIMSEL

Tragedy is Caused by Suit for Divorce for Which the Slayer Places the Blame on the Man and Woman Ho Has Slain.

Mount Pleasant, Mich., dispatch: Archie Woodin, 23 years old, shot and killed his wife's parents and his 18months-old daughter. He was overpowered just as he had turned the weapon upon himself and inflicted a wound which will not prove fatal. The tragedy is the sequel of a suit for divorce which Mrs. Woodin instituted Oct. 10.

Having secured the weapon he rode his bicycle six miles to the farm of Mr. and Mrs. Joseph Gulick, his wife's parents. Mr. Gulick was shot twice, once above the heart and once in the right side, and was instantly killed. Kills Mother-in-Law.

Woodin then turned upon his mother-in-law, who was sitting in a rocking chair, and shot her in the throat. She ran into the kitchen and fell upon her back. Woodin followed and emptied three chambers of his revolver into ber breast, killing her. A 14-year-old daughter of Gulick came in at the sound of the first shots, and, seeing the blood on her mother's neck, ran to the neighbors and gave the alarm. While running down the road she heard the last three shots.

The murderer then dashed madly to his mother's home, six miles away. He rode his bicycle for one mile, then tearing off his coat and throwing it with the wheel into a fence corner, he ran a mile through the fields. He made the last four miles on a borrowed horse.

Takes Child's Life.

After speaking to a group of apple pickers on his mother's farm, he en tered the house as though nothing unusual had happened, and picking up his little girl, carried her into an empty room. In a moment the shot rang out which ended the child's life. The farm hands rushed in, but not in time to prevent Woodin from shooting himself.

The young mother, until Sept. 27, had the baby with her at the farm of Eli Ferris, where she obtained employment, but the father then took it to his mother on the promise that he would soon return it. Woodin's wife was Miss Anna M. Gulick, and they were married March 25, 1900. Woodin was a soldier in the Cuban war. At the jail he refused to talk, except to express regret that he failed to kill himself. He was laboring under the impression that his wife's parents had the divorce proceedings, though his wife's bill of complaint charged personal violence.

STORMS DAMAGE APPLE CROP

Blow Down Thousands of Bushels In Michigan Fruit Belt.

St. Joseph, Mich., special: It has been conservatively estimated Berrien county will produce 400,000 bushels of apples this year, the largest crop in the history of this region. Reports received from various parts of the county show that thousands of bushels of apples and a portion of the pear crop have been blown from the trees by the high gales of the last week. It is estimated that 75,000 bushels have been blown down during the season, representing a loss to the growers of \$30,000.

What a Shoe Man Says. Women with large feet should bear one or two things in mind. Onesis that if they are big women they have no right to expect to have very small feet. A woman of 5 feet 6 inches high is entitled to a foot 9 1-2 inches long, and it might be a little longer without making her feel that the world was coming to an end. Another thing the large-footed sister should recollect is that when she squeezes her foot into a shoe too small for her she does not disguise its size, states the Shoe and Leather Gazette. On the contrary, she makes this more apparent. The foot spreads in its overtight covering and lumps out in the wrong place and stretches the shoe out of shape in no time at all.
