Crusos's Comment. "What! Is this Mr. Crusoe?" insuired the newly arrived shade. "Well, declare, but I am glad to see you!" "Thank you," smiled the shade of Crusoe. "Perhaps you could give me some news of the world you have left. You know I once acquired the habit of wondering what was going on, and never have got over it."

"Oh, there's nothing particularly new," answered the newcomer, "except that a ship captain reports that your old island is overrun with lobsters."

muttered Crusoe. "And so they have begun running excursions to my old familiar haunts at last."-Judge.

He Asked A-Miss.

"What's the trouble, my boy?" queried the minister of a young member of my flock, "You look sad."

"And I feel sad," replied the young man. "I asked Miss Silverton to be my wife and she declined the honor." "That's too bad," said the parson. "But it's in accord with the Scriptures which say. 'Ye asked and received not,

because ye asked amiss." "Weil, what would you advise me to do?" queried the youth.

"Next time ask a widow," replied the good man with a suspicious twinkle in his eye.

No Need of Shouting.

"Shut the door," bellowed the trate merchant, "Where were you brought up, sir-in a sawmill?"

"Well, I'm not sure as to that," replied the young drummer in honeyed accepts, pressing both hands to his ears, "but of one thing I can assure you, my dear sir, and that is that I was not brought up in a boiler factory."

Fair Warning.

The voice at the telephone was a

"Hailo, central!"

"Hella!" replied the soft voice. "Give me Main 99,999, And, say, central, he's the agent of this flat I'm living in. I'm going to ask him what's the reason we don't get any steam heat. Please take your ear away from the 'phone while I am talking to him."

PROSPERITY IN CAMADA.

the Farmer in Western Chands Achieves

One of the first things that the man who wishes to change his residence endeavors to find out is where he can so and succeed. It need be a matter of little doubt or indecision now. During the past four or five years the development of Western Canada has been so rapid, and the conditions of life there so widely known, that upwards of 100,000 Americans have taken up their homes there, and the experience of these people is that they are thoroughly satisfied with their choice of home.

The methods of farming there are similar to those adopted in the United States, but the operations are simpler, the yield of grain greater and the profits more satisfactory. Ranching is carried on with lots of success. Mixed farming is always profitable, while the results in grain-raising are as certain as splendid soil, excellent climate and lots of sunlight can give.

The yields of----, but nothing is an satisfactory as the experience of the farmer himself, and extracts are selected from one.

A good, intelligent farmer named Mears, John Mears to be exact, left Cavalier county, North Dakota, two years ago and followed the thousands who had already gone to Canada. He had twenty-five years' experience in Minnesota, in buying grain, including flax, but in all his experience he never saw a district so well suited to the growth of flan as Western Canada The financial results of Mr. Mears' operations in a single season are as follows: Wheat, 3,000 bushels, 1 hard, at 5714c, \$1,785; 2,680 bushels 1 Northern, at 54c. \$1,457.20; Oats, 1,750 bushels, at 35c. \$612.50; Speltz, 154 bushels, at 78c, \$115.50; Flax, 324 bushels, at \$2, \$628. Total, \$4,598.20, a return of more than \$4,500 from a little over 250 acres, an average of \$18 per acre, is surely testimony sufficiently strong to satisfy the most incredulous as to the money to be made out of the soll of the Canadian West. It is to facts like these-arguments expressible and demonstrable in dollars and centsthat the steady northward movement of American farmers is due. Mr. Mears is settled near Arcola, Assa.

A number of Americans who have chosen Western Canada as a home had the idea that a man enjoyed less freedom in Canada, but they soon found their mistake, and say the laws of Canada are the most liberal in the world, and such as prevent the litigation which breeds so much bad feeling between people in the United States and costs them so dear in lawyern' fees.

The government has established agencies at St. Paul, Minn.; Omaha, Neb.; Kansas City, Mo.; Chicago, Ill.; Indianapolis, Ind.; Milwaukee, Wis.; Wausau, Wis.; Detroit, Sault Ste. Marie and Marquette, Mich.; Toledo, Obio; Watertown, S. Dakota; Grand Forks, N. Dakota, and Great Falls, Mont., and the suggestion is made that by addressing any of these, who are authorized agents of the government, it will be to the advantage of the reader, who will be given the fullest and most authentic information regarding the results of mixed farming, dairying, ranching and grainraising, and also supply information as to freight and passenger rates, etc.

Storekeepers report that the extra quantity, together with the superior quality, of Defiance Starch makes it next to impossible to sell any other brand.

leaves in one's hair, and apparently many women are foresking their tiaras and crowns for simple green leaves. At the debutante dance of December these small chaplets were extremely popular and Mrs. John Jacob Aston has been seen with her brown hair clasped by white leaves, tipped with brilliants. The jewelers who followed closely the approval of the fashionable women are manufacturing silver and enameled leaves, but the simpler silk bits of trimming are in better taste. Flowers are not worn in the hair this winter, although the holiday season brought forth the use of holly, and with some women, sprigs of mistletce. Begonias are enjoying popularity this year and some headdresses are made gay with these waxy flowers. Pink, however, is not used this year and begonias suffer in consequence.-New York Press.

Sasana, Inn., Pub. S. 1902 - I received the trial package of Donn's Kidney Pills and I must confess they did me wonderful good. It come strange to say that I had tried several kinds of kidney medicine without doing me any good. I had backache, pain in my bladder and scalding urine, and the sample package sent m stopped it all in a few days, and with the package from now using from our drug store I expect to be cured permanently. It is wonderful, but sure and certain the medicine does its work. I was in constant minery until I commenced the use of Dising Ridney Pills."-CHAR R. COOK. P. O. Box 90, Salem, Washington Co., Ill.

Sends the Following Grand Testimonial to the Merits of Cuticura Remedies in the Treatment of Humours of the Blood, Skin and Scalp.

"I wish to give my testimony to the efficiency of the Cuticura Remedies in what seems to me two somewhat remarkable cases. I had a number of skin tumours -small ones - on my arms which had never given me serious trouble; but about two years ago one came on my throat. At first it was only about as large as a pinhead, but, as it was in a position where my collar, if not just right, would irritate it, it soon became very sensitive and began to grow rapidly. Last spring It was as large, if not larger, than a bean. A little unusual Irritation of my collar started it to swelling, and in a day or two it was as large as half an orange. I was very much starmed, and was at a loss to determine whether it was a carbuncle or a malignant tumor.

"My friends tried to persuade me to consult my physician; but dread-

ing that he would insist on using

the knife, I would not consent to

go. Instead I got a small bottle of Cuticura Resolvent and a box of Cu-

ticura Ollithings. I took the formel

according to directions, and spread

s thick layer of the Ointment on a lipen cloth and placed it on the

swelling. On renewing it I would

bathe my neck in very warm water

and Cutioura Soap. In a few days the Cutioura Gintment had drawn

the swelling to a head, when i

broke. Every morning it was opened with a large sterilized modile, squeezed and bathed, and fresh

Cintment put on. Pus and blood

tended down into my chest was all gone, and my neck now seems to be perfectly well.
