THE ILLINOIS PRISON
 The annual meeting of the Illinois Prison Commission will be held at Cairo May 12, 13 and 14. President Blinn, Secretary ... and the executive committee of the commission are arranging for an excellent program. The people of Cairo will enter into the occasion by showing their many places of interest in that historic city. One of the features planned is a round-trip to St. Louis to view the exposition.

THE TOWNSHIP NOMINATING PRIMARIES
 have been called for Saturday, March 21. The terms of Supervisor James McClintock, Assistant Supervisor Frank H. Craver, Assessor F. A. Rogers, Collector C. F. Davis, Clerk Nelson H. Webster and Highway Commissioner C. E. Warkentin expire this spring. They are also to elect five justices of the peace to fill vacancies caused by the death of J. B. Mackie and the resignation of William Duncan. With the exception of Collector Davis, all the township officers are candidates for re-nomination. They have made good records in their respective positions and it is proper they should have no opposition. For collector Conrad Buchman has announced himself as a candidate and has the satisfaction of knowing his candidacy meets with the approval of all the voters in the township. None of the candidates has any opposition and it is safe to say all will be unanimously chosen. Nominations for justices have thus far made any claims for the positions.

CITIZENS WHO HAVE MAIN STREET or other public improvements in mind for the coming season should remember that spring is now rapidly approaching and that it will soon be time for the actual work to begin if the improvements are to be completed during the coming season. No time should be lost in getting the petitions signed and all the preliminary work before the board of local improvements of the way before warm weather comes, as it usually takes several months to file petitions, give hearings, spread assessments and get them confirmed in court, advertise for bids, let contracts. Property owners are likely to lose sight of all this detail that attends every public improvement and to put off the starting of the petitions until it is too late to get the work all done in a single season. Then they think that the village authorities are slow in their duty when in fact they are taking weeks and perhaps months to do it.

NEWSPAPERS ARE FREQUENTLY BLAMED for mistakes which occur in articles published. Newspaper men as a class take more pains to be accurate than those from whom they must get their information. Within the limitations of their work it is strange they do not make more mistakes. It is sometimes impossible for them within the short time they have to summon all the witnesses, examine and cross examine them. When they fail to get things right it is more apt to be the result of circumstances beyond their control than their own fault. The following from the *Millwaukee American* fits the case exactly. It illustrates the subject and is more convincing than logic: A man had a piece of news. A reporter heard of it. The reporter called on the man and asked him about the news. The man played ball with the reporter. He smiled slyly and said: "You fellows never get anything right. So I won't tell you." The reporter did not get angry. He knew the man was a fool. He had seen them before. He knew the real facts could be got from no one else. Yet the reporter did the very best he could to get at the truth, and published the story as he got it. Then the man who had refused to give the facts arose early and bought a paper to see if the facts were distorted. They were. And he said: "I told you so." Query—With whom should the public yearn to get their facts?

BETTER QUALITY IN MILK.
 An Opportunity Open to Dairymen Who Desire to Get Even.

Dairymen who have made the shipping of milk to cities a specialty claim that not only do the profits go to those who handle the milk, but that the enterprising dairymen, whose cows yield a product rich in butter fat, receives no higher price for milk than those who give no attention to quality. There is some ground for the complaint, as milk that is shipped in large quantities and sold in "bulk" is considered as "milk," whether coming up to the standard for solids or not, but there are milk dealers, however, who make it their specialty to supply milk of the best quality, produced from reliable sources, and they never lack for customers who are willing to pay well for the service. The farmer or dairymen who determines to seek a better market has an advantage over the dealer in controlling the quality of the milk. The dealer must rely on the farmer entirely, but the farmer can improve his conditions and make his product more valuable. He can create a market for himself if he is so determined by selling direct to consumers, but such an alternative will not be necessary if he will contract with some dealer who is known as one who sells only the best to be had. There is much that the farmer can do in the way of making the market better. It is true that farmers cannot follow the dealer to market and sell the milk, so an experienced dealer secure large custom in a day or week, but the farmer can gradually create a demand for his milk if he will convince others that he is better than they can procure elsewhere. It may not be out of place to claim that no one can succeed in securing high prices unless he makes known as a fact to consumers something that cannot be procured elsewhere. It is even true that a farmer can sell "cleanliness," if it becomes the prime factor of his milk, and the time spent in inducing customers to convince themselves of such quality will not be lost. Every customer who learns the facts will make them known to others, and if a trade cannot be secured in a week or a month it will come later, as there is no article in the market more eagerly sought at the present day than wholesome milk. In fact, many who know something of farm methods will not use milk at all, for fear of silt and disease, and they would willingly convince the masses, if opportunity could be presented, that a certain farmer had departed from old customs and made pure and wholesome milk a specialty. The cows during the winter months require extra care. It is then that they are confined a large portion of the time in stables and stalls, and more work is necessary to keep the stables free from solid and liquid manure. It is safe to state that there are hundreds of cows whose udders have never been washed and which are milked by men whose hands are not as clean as the udder. The farmer who cuts losses from such a system will benefit himself and also the consumer.

MANAGER WANTED.
 We desire to employ a trustworthy lady or gentlemen to manage our business in this county and adjoining territory. Our house is well and favorably known. \$20 straight cash salary and all expenses paid each week by check direct from headquarters. Experience unnecessary; position permanent. Address Thomas J. Cooper, Manager, 1040 Caxton Bldg., Chicago.

A BOOK ABOUT THE SUBURBS.
 The C. B. & Q. have just published a very handsome little book about the suburban towns along the line, and we are requested to say that a copy will be sent without charge to the address of anyone who may be influenced to look for a home in this village. Our people are urged to take an active interest in the matter and send name and address of any such persons to P. S. Eastis, general passenger agent of the C. B. & Q. at Chicago and he will attend to the rest.

A NEW BOOK ABOUT NEBRASKA.
 The best and most comprehensive work on Nebraska ever produced has just been issued by the Burlington Route. It has 48 finely illustrated pages packed full of just the sort of information a prospective settler wants. In addition there is a large sectional map of the state which is accurate in every detail. There is no country under the sun where man of push and energy have a better chance to succeed than in a paradise for "good reapers," for they will not be compelled to rent land in Nebraska. Send today for a copy of the book. No charge. P. S. Eastis, Passenger traffic manager, 209 Adams street, Chicago.

LOW RATES TO THE NORTHWEST.
 Every day from Feb. 15 to April 30, 1903, the Burlington route will sell one-way tickets to many hundreds of points west and northwest at extraordinarily low rates. There never was and perhaps never will be, a better opportunity to visit the great and prosperous region lying west of the Rocky mountains. On certain dates one-way tickets at proportionately low rates will be on sale to many points to Minnesota, North Dakota and Manitoba. On certain other dates round trip tickets at one fare plus \$3 will be on sale to sections of Nebraska, Kansas, Colorado, South Dakota and Wyoming. Ask the C. B. & Q. ticket agent for our special folder telling about the cheap rates and our trains to the west and northwest.

Straupe pianos are deservedly popular because these instruments combine superior quality of tone, fine workmanship, durability and finish. They are sold for easy payments or for cash by E. Herzberg, vice-president Straupe Piano company.

Coughs

"My wife had a deep-seated cough for three years. I purchased two boxes of Ayer's Cherry Pectoral, large size, and it cured her completely."—J. H. Burge, Macon, Col.

Probably you know of cough medicines that relieve little coughs, all coughs, except deep ones!

The medicine that has cured the worst of deep coughs for 60 years is Ayer's Cherry Pectoral.

These claim 2c. per bottle.

Consult your doctor, if he says take it, then do as he says. If he tells you not to take it, then don't take it. He knows.

An inactive liver prevents any cough medicine from doing its best work. Ayer's Pills are liver pills.

J. C. AYER CO., Lowell, Mass.

COLORADO

That is the title of a very beautiful seventy-two-page book published by the C. B. & Q. railroad. It is most interesting and informative, besides being illustrated with exceptionally fine engravings. The rates to Colorado are so cheap this year that many will take their vacation there. They should ask the C. B. & Q. ticket agent for his book. Price, 6 cents.
