

HAPPY AND HEALTHY.

A BEAUTIFUL CANADIAN GIRL SAVED FROM CATARRH OF THE LUNGS BY PE-SU-NA.

MISS FLORENCE MENAH.

Miss Florence E. Menah, 434 Main street, Ottawa, Ont., writes:

A few months ago I caught a severe cold, which settled on my lungs and remained there so persistently that I became alarmed. I took medicine without benefit, until my digestive organs became upset, and my head and back began to ache severely and frequently. I was advised to try Peruna, and although I had little faith I felt sure that it was worthy to try anything. It brought me blessed relief at once, and I felt that I had the right medicine at last. Within three weeks I was completely restored and have enjoyed perfect health since.

"I now have the greatest faith in Peruna." F. E. MENAH.

WOMEN should beware of contracting catarrh. The cold wind and rain, which are full of water are especially conducive to catarrhal discharges. Few women escape. Upon the first symptoms of catching cold, Peruna should be taken. It fortifies the system against colds and catarrh. The following letter gives a young woman's experience with Peruna: Miss Rose Gerbing is a popular society woman of Crown Point, Ind., and she writes the following: "Recently I took a long drive in the country, and being so thinly clad I caught a bad cold which settled on my lungs, and which I could not seem to shake off. I had heard a great deal of Peruna for colds and

A WHITE HOUSE RECEPTION.

Indian Names Make Work for the Master of Ceremonies. Chief Joseph, the famous Nez Perce warrior, and several members of his band who fought against Gen. Miles years ago, attired in gaudy blankets, adorned with feathers and streaked with war paint, were the center of attraction at a recent reception to the army and navy at the White House. One night, when the chief's name was called by Col. Bingham, the master of ceremonies, he grasped the hand of the great white father with a grip that made Mr. Roosevelt wince and said, "How" in a bass that made everybody in the vicinity jump. Col. Bingham nearly dislocated his jaw in introducing Chief Joseph's followers. One of them is named Ahlokat and another answers to the name of Pogyapontah. Col. Bingham made a brave attempt at introducing the latter, but the Indian evidently didn't recognize his name as Col. Bingham pronounced it, for he didn't make a move to grasp the President's hand until the interpreter poked him in the ribs.

ASTOR MAY ENTER POLITICS.

Walter That Ex-American Seeks Election to Parliament. A London correspondent learns from authoritative sources that William Waldorf Astor is likely to be a parliamentary candidate for a London constituency at the next general election. He is said to have been approached more than once on this subject before, but has held back because he feared defeat. He was waited upon recently by an influential deputist and without giving definite promise said he would give the matter serious consideration. There is also strong probability that Neil Primrose, young son of the Earl of Rosebery, may be chosen member of Parliament for Midlothian, the constituency which was once represented by Gladstone. Mr. Primrose is said to have a winning personality.

Leather Lasts Only 15 Years.

A very striking instance of the deterioration of leather produced under conditions demanding quicker tanning by use of various chemicals, thus decreasing the durability of the material, is afforded by the fact that the British Museum expends \$20,000 a year in re-binding books in leather. Modern leather is widely different from the material produced by what is now regarded as an effete process, its life being limited to 15 years. In the search for cheaper and quicker processes of making leather, large quantities of sulphuric acid are used, and this chemical in combination with others, causes the material to decompose rapidly in the course of a few years.—Stray Stories.

And Once He Called Her "Angel!"

A Missouri editor whose wife is a strong woman suffragist has sprung the following on his readers: "Rock-a-bye, baby, your mamma is gone; she's at the caucus and will be there till dawn; she wore pap's trousers and in them looked queer; no hush-a-bye, baby, your papa is here. Rock-a-bye, baby your mamma's a terror, she's run three conventions declared for three fellows; she's great on the straddle, way up on a vote, so hush-a-bye, baby, your papa's the 'gost.' Rock-a-bye, baby, the dishes are clean, papa's done scrubbing and put on the beans; your mamma is late, papa seems always to lag, but heaven help pap if she comes home with a 'jag.'"

Cannot Use His Own Cars.

F. A. B. Widener, the Philadelphia traction magnate, controls thousands of miles of steel railroad in America, but he cannot ride in a trolley car without suffering from an exact imitation of seasickness. Once he made a desperate effort to overcome the weakness. Accompanied by W. L. Elkins, his partner, he went for a twelve-mile ride and stuck at it until the trip was ended. By that time he was in a state of complete collapse. He came back on the steam railroad and has not ventured on a trolley car since.

For Seeing Under the Sea.

Signor Pino, an Italian engineer, has invented an apparatus called a hydroscope, which, he claims, enables a person to see the bed of the sea at a depth of 250 to 500 yards with a range of vision several thousand square yards. The inventor asserts that the apparatus is adapted to be used on ships and will enable the captain to see submerged rocks and reefs from the main deck. The value of the apparatus, if the claim is well based, can very readily be understood.

English Professor Coming Here.

An important event in the scientific world is the acceptance of a professorship in Columbia university by Prof. Joseph John Thomson, D. Sc., F. R. S., 1889, for the last eighteen years Cavendish professor of experimental physics at Cambridge university, England. His recent work in the investigation of atoms and molecules and their relation to electrical charges are fresh in the minds of the public.

Owner of Dred Boat Died.

Mrs. Irene Sanford Chaffee is dead at Springfield, Mass., aged 88. Mrs. Chaffee, who came of a leading Virginia family, once owned the famous slave Dred Scott. It was in a case involving his liberty that the United States supreme court decided that a negro, free or slave, had no rights before the law. Mrs. Chaffee, though not actually an abolitionist, was always in sympathy with the colored man. Her ownership of Scott was an accident and after the decision named had been rendered she freed the man.

Baby Carriages for Indians.

This is the season of the year when the Indian chiefs come in from the reservations to see the Great Father. There are a score of them in the city now. A group of half a dozen standing on the curb watching an automobile recalled to some Tuxedo who were passing the story Colonel Bill Sterrett used to tell about the man who went into the Indian territory to sell baby carriages. Everybody said he was crazy. It was admitted that there was a few crop of babies in the territory, but no one could see what the squaws, who were used to packing their offspring on their backs, could do with baby carriages. Still, orders began to come back, first for dozens and then for car loads and finally Sterrett went up to investigate. He went into one of the Indian villages. "And I'll be dashed," said Colonel Bill, "if I didn't see a dozen big fat Indians sitting in baby carriages, all wrapped up, while the squaws were pushing them around. The baby carriage man had made the Indians believe that baby carriages were the right kind of pleasure rigs for the noble red men."—New York World.

Through and Through.

Now Dedford, Mass., March 2d.—At 65 West street, this city, lives a very happy man. His name is Eric Lovansour and he certainly has good reason to feel glad and proud. Mr. Lovansour has been sick for a long time with general weakness and a sore pain in his back. At the last he got so very bad that he could not walk without great misery. Now he is well and in speaking of this wonderful change in him he says: "I believe it to be my duty to tell everybody how I was cured. I was so weak that I could not stoop. In fact, I was unable to walk without great pain. I began taking Dodd's Kidney Pills and after a two months' treatment I am well and sound again. "Dodd's Kidney Pills are a God-sent remedy. It will always praise them for their wonderful cure of my case. They cured me through and through. I am as strong and able a man now as I ever was."

Early Marriages Discouraged.

No Russian army officer can marry before the age of 22.

Lead in Inventions.

In proportion to population more patents are issued to citizens of the District of Columbia than to those of any other state. A recent compilation showed that Tennessee was at the foot of the list.

Insist on Outfits.

Some grocers say they don't keep DuPont's Star because they have a stock in hand of 15¢ brands, which they know cannot be sold to a customer who has once used the 15¢. See DuPont's Star for same reason.

To love one's country is to wish well to it; prefer its interests to our own; to oppose every measure inconsistent with its welfare, and to be ready to sacrifice ease, health and life itself in its defense.—William Hazlitt.

Without discretion, learning is pedantry and wit impertinence; virtue itself looks like weakness; the best parts only qualify to be more brightly in error and active to his own prejudice.—Addison.

THOSE WHO HAVE TRIED IT

will use no other. DuPont's Cold Water Star has no equal in Quantity or Quality—15¢. For 10 cents. Other brands contain only 10¢.

Never fully believe a prejudiced person's version of any story, no matter if the prejudiced person chances to be yourself.

I do not believe Plin's Cure for Consumption has an equal for coughs and colds.—John P. Brown, Trinity Springs, Ind., Feb. 4, 1902.

The world moves right along in spite of those who try to hold it back.

FITS are cured by Dr. Williams' Pink Pills for Pale People. Dr. Williams' Pink Pills for Pale People, 25¢. Sold by all druggists.

A book that puts the reader to sleep possesses one real merit, at least.

Stop the Cough and Works Off the Cold. Leavitt's Cough and Cold Cure. Price 10¢.

A poor excuse is worse than none, if it isn't believed.

Mrs. Whitlow's Soothing Syrup. For children teething, soothes the throat, relieves the pain, and cures the fever. Price 25¢.

Jewelry has charms to soothe the womanly breast.

Try me just once and I am sure to come again. DuPont's Star. Many a man is called back but goes straight ahead.

Many women and doctors do not recognize the real symptoms of derangement of the female organs until too late.

"I had terrible pains along my spinal cord for two years and was dreadfully weak. I was given different medicines, every kind of treatment, but nothing helped me. Reading of the cure that Lydia E. Pinkham's Vegetable Compound has brought about, I somehow felt that it was what I needed and bought a bottle to try. How glad I am that I did so! Two bottles brought me immediate relief, and after using three bottles more I felt new life and began sleeping through my pain. It seemed as though there had been a regular house cleaning through my system, and all the sickness and pain had been taken out and new life given me back. I have advised friends of my feelings and they are all cured. Lydia E. Pinkham's Vegetable Compound is complete. It is the only medicine to cure the female system. —Mrs. L. A. Brown, Crown Point, Indiana, Secretary Ladies Medical Corps. —great relief of all kinds of female ailments caused by this medicine."

Every sick woman who does not understand her ailments should write Mrs. Pinkham, Lynn, Mass. Her advice is free and always helpful.
