Statistics of a Big Hospital. Two million five hundred thousand pills and three tons of cough lozenges are dispensed every year at the Lon**don hospital.** Ninety-two miles of lint, 476 miles of bandages, also six tons of cotton wool, and nine miles of plaster are used annually. Every day half a ton of ice and 400 siphons of soda water, and in a year the eggs used, if placed end to end, would extend to six and a half miles.

Rubber is Easily Killed. There is no reliable method of preberving rubber except by keeping it in a damp place and away from the air. Exposure to the air and dry atmosphere will kill the best of rubber in time. Oil of any kind is its deadly enemy.

Deflance Starch should be in every household, none so good, besides 4 oz. more for 10 cents than any other brand of cold water starch.

CHICAGO

The house that tells the truth.

Austria Mobilizes Three Army Corps for Occupation of Mitrovitza.

NOT FIT FOR MOUNTAIN WORK

Troops Are Not Accustomed to the Hard Campaigning Necessary in the Balkans and Franz Joseph's Officials Are Embarrassed Thereby.

London cable: Austria has mobilized three army corps at Agram, Tarajero, and Temesvar, and is holding them in readiness for the occupation of Mitrovitza, in European Turkey.

The Austrian officials are embarrassed, however, because these troops are not fitted for mountain campaigning, such as would be inevitable in the event of their being required in the Ralkans.

The Bosnian and Tyrolese regiments would be suitable for such purposes, but the former consists mainly of Mo-Deflance Cold Water Starch, because it bammedans, therefore cannot be used, and the latter cannot be moved eastward without the alarm which it would cause the Mohammedan populace.

> May Join Insurgents. Bosnia and Herzegovina, which Austria occupies militarily under the treaty of Berlin, are growing dangerously excited. Men are secretly arming and smuggling arms and ammunition from Montenegro. It is teared they contemplate an armed emigration to old Servia to join the insur- less. gent Albanians.

The Austrian military authorities realize that the situation is consequently most critical.

Many Are Wounded in Riot. A telegram from Belgrade, capital of Servia, reports that rioting has taken place there as the outcome of a demonstration against an objectionable police regulation, and many persons were wounded in the course of the disorders.

The rumor of the death of M. Stcherbina, the Russian consul at Mitrovitza, who was shot by an Albanian sentry, proves to have been premature, but the consul's condition is serious and symptoms of peritonitis have appeared. It is reported that the Albanian soldier who shot him has been sentenced to fifteen years' hard labor.

Powers Warn Sultan. According to a dispatch from Constantinople the Austrian, Russian and British ambassadors have had audiences of the sultan on whom they impressed the necessity of suppressing the Albanian agitation. The sultan informed them that in the event of the failure of the pacificatory mission that he had dispatched to Albania he would take measures for the military occu- men. oation of the disturbed region.

MILWAUKEE RECTOR IS BURNED

Rev. Charles H. Schultz Bady Injured by Flames From Furnace.

Milwaukee, Wis., dispatch: Rev. | Charles H. Schultz, rector of St. Stephen's Episcopal church, was badly burned about the face and arms by the sudden igniting of gases from the furnace. He went into the furnaceroom attired in his cassock to see why the fire was not burning better. When he poked the fire the flames shot up | an enveloped him. His injuries are painful and he was not able to officiate at the regular services.

DIPPED IN THE ICY WATER.

Bath in Frigid Weather Not as Unpleasant as Many Suppose.

It is the common impression that one suffers keenly from cold if suddenly immersed in a lake or stream coveved with thin ice. Such does not appear to be the case of the experience of a Philadelphian who got such a wetting the other day when skating. He said: "I was skating on ice that kept eracking, and then-smash!-all of a sudden I was overboards. I was in the water, holding on to the jagged edges of the ice. My first thought was a feeling of surprise at the water's warmth. I had gone clean under, head and all, and now I was immersed save for my head, arms and shoulders; yet I wasn't cold; the water actually felt a little warmer than the air. I suess that I was in for six or seven minutes. A plank had to be brought before I could get out. During these minutes the only part of me that suffered was my poor wet hands that clutched the ice. After a minute or two they began to ache with the cold. My body in the water gave me no discomfort and perhaps if I had kept my wet hands in the water they wouldn't have troubled me either. But I couldn't do that or I'd have been carried under the ice."

A Farmer's Good Story.

Velpen, Ind., April 6th .- Wm. O'B. Sullivan, a highly respected farmer of this place, tells a personal experience to show that there is still some genuineness and honest worth to be met with in this age in which so many frauds are reported.

"Yes, I have been humbugged," said Mr. Sullivan, "and when I was so ill with the Rheumatism, Kidney and Heart Trouble, I used a good deal of stuff that claimed to be remedies for these diseases only to find them worth-

"But, as you know, I did find the genuine remedy after all and I had not been taking Dodd's Kidney Pills very long before I knew that they were an honest remedy that would do all and more than was claimed for them. They cured me, made a well man of me and I am now as sound as I ever was.

"I can testify that Dodd's Kidney Pills are a genuine remedy for Rheumatism and Kidney Trouble."

Two Epochs United.

Coincidently with the presentation of a silver service to the battleship Alabama by the citizens of the Cotton State a portrait of Admiral Raphael Semmes was placed in the gallery of the State Historical Department at Montgomery.
