# Pain

From Inflammatory Rheumatism

Would Have Killed Our Son.

Dr. Miles' Anti-Pain Pills Saved Him.

"We began to use Dr. Miles' Nerve and Liver Pills six years ago. My wife had liver trouble and a neighbor gave her some of your liver pills to try, after which we bought a bottle of them and my wife used them until cured. Since then I have used them and I must say that I have never used any pills that gave me the satisfaction these have. We also use Dr. Miles' Anti-Pain Pills with greatest satisfaction. Three years ago our son Harry had inflammatory rheumatism. He had suffered so much that I believe if we had not given him Dr. Miles' Anti-Pain Pills which relieved him almost instantly he would have died. I am always glad of the opportunity of praising Dr. Miles' Remedies."—James Evans, Alton, Ill.

"I was afflicted with neuralgia for years and never found any permanent relief till I began using Dr. Miles' Anti-Pain Pills. They are a sure cure for headache and neuralgia pains. Only this morning I recommended them to a friend with a severe headache and in a half hour he came into the store smiling. The headache was gone. We use them in the family and find them excellent for the women folk. This high altitude makes them very nervous. Grandma says I should tell Dr. Miles she could not live here were it not for the Anti-Pain Pills that she takes occasionally."—L. B. Morris, Helena, Montana.

All druggists sell and guarantee first bottle. Dr. Miles' Remedies. Send for free book on Rheumatism and Neuralgia. Address Dr. Miles' Remedies, Elkhart, Ind.

### ANTIMONY NOW LITTLE USED.

Medical Science Has Almost Entirely Discarded It.

That terrible poison, antimony, known most familiarly in the compound called tartar emetic, has a very interesting history. It was introduced into medicine some centuries ago by Paracelsus. Its name signifies that it is "against monks," as some on whom it was tried displayed the now familiar symptoms. Its use in modern medicine has been reduced to the vanishing point, with other depressing measures, such as bleeding. In the table which arranges the elements in series and shows their connections—so that all are probably modifications of one universal substance—there is a sequence, nitrogen, phosphorus, arsenic, antimony, bismuth. Sir Lauder Brunton has shown that these possess many common properties in their action upon man and that these properties vary in relation to the place of each in the scale. In the days before chloroform antimony and tobacco were used to produce the partial unconsciousness which attends their action.

### An "Imported" Diamond.

The finest diamond ever imported paid no duty to the customs officers, having smuggled itself in from some other planet in a meteorite. Packed in a thick envelope of meteoric iron, it fell to earth in Diablo canyon, at the foot of Crater mountain, Arizona. Its coating being broken into numerous particles by contact with the rock formation of the ground. Some six weeks ago a party of geologists, discovering these fragments, at first thought them indications of a remarkably pure vein of iron ore, but their true character was soon discerned, and in one of the pieces picked up by Prof. G. A. Koenig, the diamond was found imbedded. It is now on exhibition at the American Museum of Natural History.

### WHY BALD MEN UNCOVER.

City Salesman Manifests Curiosity on the Point.

One question the city salesman would like answered pertains to bald-headed men. "Why do so many of them take off their hats in public conveyances and other places where a head covering is the proper cap?" he inquires, with grave concern. "It is no uncommon thing to see men take off their hats in street cars, and nine-tenths of those who do it are bald-headed. One would think they would be afraid of catching their death of cold riding about in that exposed state in draughty weather, but evidently they are troubled by no such considerations. Neither does vanity deter them. A denuded scalp has no terrors for them. I asked one bald-headed man why so many of his kind thus cheerfully advertised their paucity of locks. He said he couldn't answer for other men, but that he did it to give his hair a chance to grow, and I would like to know if all would give that reason."

### Ear No Sign of Character.

After studying and photographing more than 40,000 pairs of ears of persons, including those of 2,000 insane and 800 criminals, and those of 300 animals, an English criminologist is forced to conclude that the ear gives no clue to personal traits. This is a hard blow to so-called scientists who think they can pick out the enemies of society by the angles at which the latter wear their ears.
