The Use of Arm. Heart Trouble.

Could Not Eat, Sleep or Walk.

Dr. Miles' Heart Cure Cured Entirely.

"If it hadn't been for Dr. Miles' Remedies I would not be here to write this letter. Two years ago last June I lost the use of my left arm, could not see it and could only move it with the help of my right hand. My heart was so weak I could not sleep nights for smothering spells. I was out of sorts all over and could eat nothing. I grew so weak that I could not walk without staggering like a drunken man and my home doctor said he could do nothing for me. I was in so much pain I was almost wild. I could not take morphine nor opium as they made me worse. So I got to thinking about Dr. Miles' Heart Cure and Nervine and the more I thought about it the more I wanted to try them. I wrote to the Dr. Miles Medical Co. for advice which I followed to the letter. I can say today that I am glad I did as I am a well woman now; can work and can walk two or three miles and not mind it. I can also use my arm again as well as ever. You do not know how thankful I am for those grand medicines Dr. Miles' New Heart Cure and Nervine. I think Dr. Miles' Remedies are the best in the world, and if I should get sick again I should take the same course. The remedies also helped my daughter Vida. I am so wonderfully that I should have written you before to thank you, but I wanted to be sure that the cure was permanent, which I now know to be the case. Mrs. Frank Loomis, Allen, Mich.

## FILARIA IS A NEW DISEASE.

Responsible for the Death of Many American Soldiers.

Capt. Charles Kioeffer, a United States army surgeon, says the Philippines are infested with mosquitoes more troublesome and dangerous from a medical point of view than those that swarm in the Jersey swamps. A strange malady known as filaria is traced directly to them, and is common among the American soldiers quartered on the islands. Soldiers contract the disease by drinking water from stagnant pools in which the mosquitoes have laid their eggs.

The first indication of filaria appears in the form of a worm in the victim's thorax. This develops into elephantiasis, which causes the patient terrible pains, accompanied by a constant cough. The sufferer is worst at night, and the patient becomes a prey to insomnia.

The only remedy lies in an operation, which in itself is dangerous and rarely successful. If the worm, which is a female, is injured and dies through the operation, its poison gets into the blood, the disease is increased a thousandfold and the chances of recovery are small.

## CAME BACK FOR HIS OWN.

How Wilkinson Was Outwitted by a Brainy Tramp.

When Wilkinson went to his office one day last week he felt calm and contented. He hadn't any need to worry about his wife's loneliness any more, for he had bought a capital watchdog for her.

But, alas! when he arrived home his wife met him with the deplorable news that the dog had gone.

"Eh!" said Wilkinson, "did he break the chain, then?"

"No," she replied; "but a great, ugly-looking tramp came here and acted so impudently that I let the dog loose. But instead of tearing the tramp to pieces the nasty dog went off with him."

"Great Scott!" said Wilkinson, "that must have been the tramp I bought him from!"

**Danger in Big Guns.**  
Recent accidents disabling some of our best battleships offer rather startling evidence of the weaknesses that are inherent in vessels of this type. For years inventive genius has been applied to contriving guns of bigger size and longer range than those used before, and each increase has added to the demands laid upon the strength of guns and turrets and their mobility in action. Inevitably the line of safety has been passed and the result is shown in accidents which have caused loss of life, besides exposing the paradoxical delusion of massive machinery.—Philadelphia North American.

**The Modern Race After Wealth.**  
The mania for money-making has developed into downright madness. And the explanation is easy. People see that it is fast becoming the chief, if not the only, standard of respectability. When Tallebrand was asked if he was not ashamed to sell his influence in making treaties under the first empire he replied: "My friend, do you not see that there are but two things left in France—money and the guillotine?" We are rapidly approaching the period in our own history when there will be but two things left in America—money and contempt.—Louisville Courier-Journal.

**Enjoyable Denunciations.**  
Society to-day in search of fresh sensation seeks to hear its manifold follies denounced from the pulpit, and the more outspoken the preacher the more it enjoys his discourse. Times have changed since the day when Lord Melbourne walked out of church in disgust after a rousing sermon on the consequences of sin, exclaiming: "Things have come to a pretty pass when religion is allowed to invade the sphere of private life!" To-day society revels in hearing itself denounced and plumes itself with joy when a fashionable preacher discourses on bridge scandals and divorce cases.

**Cecil Rhodes' Dream Realized.**  
The dream of Cecil Rhodes is realized in America before the funds left by him have made it possible in Ox-

ford. The workshop university in that great electric manufacturing works at Schenectady, N. Y., has among its students—all college graduates—young men from England, Scotland, France, Germany, Switzerland, Norway, Sweden, Denmark, Holland, Spain, Italy, Russia, Brazil, Mexico, Canada, Siam and Japan. Nearly all the leading engineering schools of the world are represented there.

## His Strong Recommendation.

The old gentleman showed his displeasure plainly. "It seems to me rather presumptuous for a youth in your position to ask for my daughter's hand," he said. "Can you advance any good reason why I should give my consent?" "Yes, sir," replied the young man promptly. "What?" "I am comparatively modest and economical in the matter of my personal expenditures, and I think you will find me less costly to maintain than any other son-in-law you could pick out!"

## The Spare Room.

The guest from the city sat in the bedroom that had been allotted to him in his brother's house in the little country town. He watched his breath turning to icy clouds as it left his lungs and wondered how long it took a man to freeze to death. "They call this the 'spare room,'" he said, shivering to himself. "And it is well named. I don't wonder they can spare it. I think that I could get along without it myself."—Magazine of Humor.
