The date for the opening of the fall term of the Metropolitan business college of Chicago is near at hand, and any of our young people who think of attending a school of this kind should investigate the Metropolitan at once. Present indications point to a very successful year's work and students who expect to enroll at the opening of the term should advise the principal a few days in advance of the 1st of Sept. There a number of young men in Downers Grove who have neglected their opportunities and as a result are plodding along with no prospect of improvement. To the younger men just starting in life we would make this suggestion: Write at once and get a prospectus and other advertising matter with reference to the Metropolitan. The expense of a course in this college is within the reach of any young man of ordinary means. Address Metropolitan business college, New Powers building, Chicago.
