TELEPHONE DOWNERS GROVE 563.

THURSDAY, SEPT. 17, 1903.

SIDEWALK ORDINANCE NO. 99.

An Ordinance for a sidewalk in the village of Downers Grove, DuPage county and state of Illinois.

Be it ordained by the president and board of trustees of the village of Dow ners Grove, DuPage county, Illinois:

Section 1. That a sidewalk be constructed in said village on the wes side of Linscott avenue immediately in front of the following described loss or parcels of land: Lots 1, 2, 3 and 4 block 11, Princes addition to said village and that the whole cost thereof be paid by a special tax to be levied upon such lots or parcels of land, in proportion to their frontage upon such sidewalk, in accordance with the statute in such case made and provided.

Sec. 2. Said side walk shall be 4 feet 8 inches wide and constructed of ce-Said cement sidewalk shall be constructed of material and in the manner hefelnafter provided. Foundations for said cement sidewalk shall be prepared by bringing the space to be occupied by the sidewalk to a grade 12 inches below the established grade given herein. When necessary, the subfoundation must be consolidated by wetting and ramming to give the proper solidity. Soft and spongy ground or grass or vegetable matter or sod must be dug out and the place refilled with solid material. Upon the subgrade, 12 inches below the established grade, shall be placed a foundation of cinders. Said foundation shall not be less than 7 inches thick and 4 feet 8 inches wide after being floeded and thoroughly rammed with tools made for that purpose. Upon said foundation of cinders as aforesaid, the surface of which foundation of cinders shall be inches below the finished grade or the grade as herein stipulated, there shall be laid a layer of cement concrete 4 inches thick and 4 feet 8 inches wide throughout the entire length of said sidewalk upon the lines as above specified. Said concrete shall be composed of one part of Alpha Portland cement or other Portland cement equally as good, three parts of torpedo grayel and five parts of broken limestone, by volume which shall be carefully measured; said material shall then be thoroughly mixed dry by being turned with shovels twice while in a dry state. After the addition of the necessary amount of water, which shall be sprayed upon said material, the mixture shall be again turned twice with shovels before being spread upon the foundation. After being spread it shall be rammed until free mortar appears on the surface. On this concrete before it shall have time to set, shall be placed a wearing surface one inch thick, composed of one part Alpha Portland cement, or other Portland coment equally as good, and one part clean Torpedo sand, This top layer shall be flooded perfectly smooth on the upper surface and to a true plane with no depressions.

All of said sidewalk shall be laid in mections 5 feet wide each for the full width of the walk, each section to be entirely separate from the adjoining sections, to the whole depth of the concrete. The joints shall be smooth, straight and plumb throughout their depth and at right angles to the line of the walk.

CEMENT. - All cement shall be Alpha Portland cement, or other Portland cement equally as good, and shall be subject to the inspection and approval of the president and street and alley committee of the board of trustees.

SAND, -All sand and gravel used in concrete and in the top surface of the walk shall be a clean Torpedo sand, free from gray, foreign or earthy matter of any kind.

STONE, -All broken stone shall be of a hard limestone, broken to a uniform mize so as to pass through a ring onehalf inch in dismeter, and shall be clean and free from all particles of forsign material.

Sma Filling,—On each side of the walk, after it shall have been built and the coment properly hardened, clean arth shall be backed up against the walk, level with the top thereof, extending two feet beyond its sides and loping downward in the ratio of oneialf horizontal to one vertical, until he natural surface of the ground is of any kind shall be removed entire- pears on the surface. On this concrete from all finished sidewalk spaces, or before it shall have time to set, shall I places and in the manner as may composed of one part Alpha Portland cetracted by the president and street ment, or other Pertland coment equally alley committee of the board of as good, and one part clean Torpedo sand.

sidewalk shall be built under smooth on the upper surface and to a true on of the president and plane with no depressions. and alley committee of the board
