TREEPHONE DOWNERS GROVE 563.

THURSDAY, SEPT. 24, 1903.

SIDEWALK ORDINANCE NO. 103.

An Omninance for a sidewalk in the village of Downers Grove, DuPage county and state of Illinois.

Be it ordained by the president and board of trustees of the village of Downers Grove, DuPage county, Illinois:

Section 1. That a sidewalk be constructed in said village on the north side of Maple avenue immediately in front of the following described lots or parcels of land: The land fronting south on Maple avenue from west boundry line of corporation to west line of lot 5, Smith's subdivision and that the whole cost thereof be paid by a special tax to be levied upon such lots or parcels of land, in proportion to their frontage upon such sidewalk, in accordance with the statute in such case made and provided.

Sec. 2. Said side walk shall be 4 feet 8 inches wide and constructed of ce ment. Said cement sidewalk shall constructed of material and in the manner hereinafter provided. Foundations for said cement sidewalk shall be prepared by bringing the space to be occupied by the sidewalk to a grade 1 inches below the established grade giv en herein. When necessary, the subfoundation must be consolidated by wetting and ramming to give the proper solidity. Soft and spongy ground or grass or vegetable matter or sod must be dug out and the place refilled with solid material. Upon the subgrade, 12 inches below the established grade, shall be placed a foundation of cinders. Said foundation shall not be less than 7 inches thick and 4 feet 8 inches wide after being flooded and thoroughly rammed with tools made for that purpose. Upon said foundation of cinders as aforesaid, the surface of which foundation of cinders shall be inches below the finished grade or the grade as herein stipulated, there shall be laid a layer of cement concrete 4 inches thick and 4 feet 8 inches wide throughout the entire length of said sidewalk upon the lines as above specified. Said concrete shall be composed of one part of Alpha Portland cement or other Portland cement equally as good, three parts of torpedo grayel and five parts of broken limestone, by volume which shall be carefully measured; said material shall then be thoroughly mixed dry by being turned with shovels twice while in a dry state. After the addition of the necessary amount of water, which shall be sprayed upon said material, the mixture shall be again tarned twice with shovels before being spread upon the foundation. After being spread it shall be rammed until free mortar appears on the surface. Or this concrete before it shall have time to set, shall be placed a wearing face one inch thick, composed of one part Alpha Portland cement, or other Portland cement equally as good, and one part clean Torpedo sand, This top layer shall be flooded perfectly smooth on the upper surface and to a true plane

with no depressions. All of said sidewalk shall be laid in sections 5 feet wide each for the full width of the walk, each section to entirely separate from the adjoining sections, to the whole depth of the concrete. The joints shall be smooth, straight and plumb throughout their depth and at right angles to the line of the walk.

CEMENTS -All cement shall be Alpha Portland cement, or other Portland cement equally as good, and shall be subject to the inspection and approval of the president and street and alley committee of the board of trustees.

SAND, -All sand and gravel used in concrete and in the top surface of the walk shall be a clean Torpedo sand, free from gray, foreign or earthy matter of any kind.

Stone .- All broken stone shall be o a hard limestone, broken to a uniform size so as to pass through a ring onehalf inch in diameter, and shall be clean and free from all particles of fornign material.

walk, after it shall have been built and the coment properly hardened, clean earth shall be backed up against the walk, level with the top thereof, extending two feet beyond its sides and vels twice while in a dry state. After stoping downward in the ratio of one- the addition of the necessary, amount mif horizontal to one vertical, until water, which shall be sprayed upon said the natural surface of the ground is material, the mixture shall be again turnit this filling to be carefully ed twice with shovels before being spread ed off with rakes to a smooth upon the foundation. After being spread All surplus earth and mater- it shall be rammed until free mortar apal of any kind shall be removed entire- pears on the surface. On this concrete m all finished sidewalk spaces, or before it shall have time to set, shall be If he, if earth, evenly spread in placed a wearing surface one inch thick, slaces and in the manner as may composed of one part Alpha Portland ceted by the president and street ment, or other Portland cement equally ay committee of the board of as good, and one part clean Torpedo sand.

Passed this 10th day of Angust, 1903. Approved this 10th day of August, 1903. Published September 24th, 1903. CHAS. MOCHEL

President of the village of Downers Grove. Attest: BERT C. WHITE, Village. Clerk.

HOW IS YOUR EYESIGHT?

The optical business heretofore conducted by C. O. Durran, Master of Optics, will from now on be transacted at our store. Your eyes will be scientiffeally and properly tested and fitted. C. O. Durran, M. O., will be retained at the head of the optical department. Henry J. Durran, Naperville, Ills. Successor to Collins & Durran.

Poorly?

"For two years I suffered terribly from dyspepsia, with great depression, and was always feeling poorly. I then tried Ayer's Sarsaparilla, and was soon a new man." John McDonald, Philadelphia, Pa.

Don't forget that it's "Ayer's" Sarsaparilla that will make you strong and hopeful. Don't waste your time and money by trying some other kind. Use the old, tested, tried and true Sarsaparilla.

\$1.00 a bottle. All drugglete. Ask your doctor what he thinks of this grand old family medicine. Follow his advice and we will be estimated.

If you are bilious or constipated, use the old, tested, tried and true Ayer's Pills. Gently laxative. J. C. A YAR CO., Lowell, Mass.
