Miss Gannon, Sec'y Detroit Amateur Art Association, tells young women what to do to avoid pain and suffering caused by female troubles.

"DEAR MRS. PINKHAM:—I can conscientiously recommend Lydia E. Pinkham's Vegetable Compound to those of my sisters suffering with female weakness and the troubles which so often befall women. I suffered for months with general weakness, and felt so weary that I had hard work to keep up. I had shooting pains, and was utterly miserable. In my distress I was advised to use Lydia E. Pinkham's Vegetable Compound, and it was a red letter day to me when I took the first dose, for at that time my restoration began. In six weeks I was a changed woman, perfectly well in every respect. I felt so elated and happy that I want all women who suffer to get well as I did."

When one considers that Miss Gannon's letter is only one of the countless hundreds which we are continually publishing in the newspapers of this country, the great virtue of Mrs. Pinkham's medicine must be admitted by all.

KATY SAYS: You cannot select a more delightful trip at this season than the trip to Old Mexico. A restful and invigorating change of climate; scenery and sky that vie with each other in exquisite beauty; the out-of-door life and the peculiar charm found only in the tropics—all combine to make this a superb winter trip. Old Mexico is quaintly foreign—a country of picturesque sights and scenes; a veritable glimpse of a new world. In Katy's through Pullman sleepers the trip can be made from St. Louis to Mexico City comfortably and without change of route. Our attractive booklet, "To Old Mexico," illustrates places of interest to be seen en route and entertainingly describes the customs and characteristics of the people. TWO SUSPECTS IN MURDER CASE

Bedford Police Lay Trap for Arrest of Man from Chicago.

STUDENT ANSWERS A SUMMONS

Father of Young Man Accused of Attempting to Kiss Miss Schafer Brings His Son Home From Bloomington at Request of Police.

Bedford, Ind., dispatch: The police investigation into the mystery of the brutal murder of Miss Sarah C. Schafer, the pretty school teacher, was marked by an attempt to lay a trap for the arrest of one man, a Chicagoan, closely answering the description of the supposed assailant, and the placing under close surveillance of another, a resident of Bedford and a student at the State University at Bloomington.

A man with reddish brown hair was arrested in Bloomington as a suspect, and is held awaiting the instructions of the police here. He gives his name as Thomas Boyd.

Suspect Evades Trap. The Chicago man is J. M. Walker, who is said to have worked in a stone quarry. The trap was laid for the man by Detective John J. Halpin of the Central detail of Chicago, which the main evaded. A warrant is held for his arrest by Halpin.

The Bedford young man who has been asked by the police to explain his movements on the night of the murder and his relations with the dead girl for several weeks before is Joseph Heitger, 21 years old, the son of a well to do grocer, and one of the leaders of the younger set of Bedford society.

Denies Attempt to Kiss. As it developed, Heitger is the young man who three weeks ago was ordered by Miss Schafer to leave the house after an alleged attempt to embrace her. Such is the story told by the dead girl to her landlady and her roommate and written to her sister, Mrs. F. F. Cross, in Chicago. It is denied in full by Heitger.

While considering the story told by Heitger worth further investigation, Detective Halpin, who practically has been placed in charge of the police work on the murder, inclines strongly to the belief that the apprehension of the Chicago man will prove of value in the solution of the mystery.

Walker Answers Description. Walker is described as being of about the same height and build as the man in the long overcoat seen talking with the girl on the night of the murder, and as having a reddish brown mustache. Last summer Walker was arrested in Chicago, it is alleged, on complaint of a girl employed in a hotel in Clark street, who alleged he had defrauded her of \$100 or more of her savings, and to save himself from prosecution he married her.

A few weeks afterward his wife reported that he had fled, and thereupon was issued the warrant now held by Detective Halpin. Halpin has obtained information to the effect that Walker was not only in Bedford, but that he was also able to throw light on the murder of Miss Schafer.

Proves an Alibi. Heitger has been questioned at length concerning his whereabouts early in the evening of last Thursday. According to his story he left his home shortly before 7 o'clock and proceeded directly to the old library building in Fourteenth street, between J and K streets, two blocks from the scene of the murder. A basketball game was held Thursday evening at the library building, and Heitger is known to have attended it.

According to his own statement he arrived early, expecting to act as a coach. At about 7 o'clock, he stated, he arrived at the library. The library building was about four blocks and a half from the Heitger residence, and the young man could have walked the distance in a few minutes. The route he took, according to his own story, does not pass the alley where the girl was murdered, while at one point it is within a short distance from it.

Father Sends for Son. Heitger was in Bloomington Saturday when he was ordered home in a telegram sent by his father, Joseph Heitger, Sr., at the request of the city officials. On his arrival at Bedford he went at once to the city hall, where he was questioned by Chief of Police Smith and Deputy Prosecutor Stevenson. Afterward he was prompted to return to Bloomington.

"I won't go if you think I ought to stay," he said. "It may look to some people that I am leaving town because of this murder investigation." After Heitger had left for Bloomington his room at home was searched by Detective Halpin. It was reported later that the investigation had revealed nothing of importance.

The Economy of Modern Methods. The coke used in iron furnaces is made in the most approved manner. Coal straight from the mines is passed through a plant costing many thousands of dollars, which saves all the volatile portion. The tar and ammonia are washed from the smoke, the latter being crystallized into sulphate of ammonia and the former being made into pitch and creosote. The gas from these ovens is then conducted to the blast furnaces, where, in the process of iron making, it is forced through molten metal. Even then it is not allowed to escape, but is made to do service in heating boilers for generating power-producing steam. Each ton of coal thus treated yields 10,000 cubic feet of gas, 20 pounds of ammonia and 100 pounds of tar. The ammonia is used for refrigeration and fertilization; the tar is taken by roofing plants; and even the slag, the scum of the molten iron, is utilized in the manufacture of cement. About the only waste element is the heat escaping from the cooling ingots of iron, and some enterprising genius may yet devise a plan of storage battery whereby this lost energy may be used to hatch our chickens.

A Dentist's Advice. Toledo, Ohio, Jan. 25th.—Mr. Harry L. Lewis, Dentist, 607 Summit street, this city, says: "I certainly advise anyone, no matter how severe they may have Kidney Trouble to take Dodd's Kidney Pills."

"I was troubled with Kidney Disease for several years and Dodd's Kidney Pills cured me. I had used many so-called remedies without any benefit. Four months ago, I was flat on my back with this painful trouble and must say that I almost gave up hopes of ever getting any better. Through a friend's advice I purchased six boxes of Dodd's Kidney Pills."

"At first I could see but little benefit, but after two weeks, I could see an improvement. I had been getting up several times at night and plins in my back were very severe. When I had taken six boxes I felt better than I had for years. The pain had all gone and I didn't have to get up during the night at all. I continued the treatment until I had used several more boxes, and now I am glad to say that I am completely cured."

Things to Be Avoided. The late Sir Frederick Bramwell of England was famous both as a witness and arbitrator in engineering disputes. It is recalled that his brother, the late Lord Justice Bramwell, on giving advice to a young barrister, told him to be careful of four kinds of witnesses: "First, of a liar; second, of the liar who can only be adequately described by the aid of a powerful adjective; third, of the expert witness, and, finally, of my brother Fred."

Quay Too Fond of Sauerkraut. It is said that Senator Quay's recent more or less serious illness may be traced to his great fondness for sauerkraut, in which plebeian dainty he had been indulging freely. So far as this dish is concerned the Senator "loves not wisely but too well," but his physician soon put him to rights.

His love for the poor whom he hopes to benefit should carry him further than the signing of a check.

In "The New Thought Simplified," by Henry Wood (Lee & Shepard, Boston), we find a presentation of this subject so plain as to be readily understood by everyone, its principles being set forth in a simple yet attractive style. It attacks no creed or religion, antagonizes no previously established doctrines, but on the other hand several chapters are devoted to showing the relations of the New Thought to the Church, Bible, modern reforms, etc. Lessons or exercises for daily use are given which well may be termed mental and spiritual gymnastics.
