Billion Wollar Grass.

When we introduced this remarkable grass three years ago, little did we dream it would be the most talked-of grass in America, the biggest, quick, hay producer on earth; but this has come to pass.

Agr. Editors wrote about it, Agr. College Professors lectured about it, Agr. Institute Orators talked about it, while in the farm home by the quiet fireside, in the corner grocery, in the village postoffice, at the creamery, at the depot; in fact wherever farmers gathered, Salzer's Billion Dollar Grass, that wonderful grass, good for 5 to 14 tons per acre, and lots of pasture besides, is always a theme worthy of the farmer's voice.

Then comes Bromus Inermis, than which there is no better grass or better permanent hay producer on earth. Grows wherever soil is found. Then the farmer talks about Salzer's Teosinte, which will produce 100 stocks from one kernel of seed, 11 ft. high, in 100 days, rich in nutrition and greedily eaten by cattle, hogs, etc., and is good for 80 tons of green food per acre.

Victoria Rape, which can be grown at 25c a ton, and Speltz at 20c a bu., both great food for cattle, also come in for their share in the discussion. JUST SEND 10c IN STAMPS

and this notice to John A. Salzer Seed Co., La Crosse, Wis., for their big catalog and farm seed samples. (W. N. U.)

Concrete-Covered Steel.

The reports of tests of structural steel at the Boston insurance experiment station show that if structural steel is incased in a sound covering of good concrete, it is proof against corrosion for a period of years, which is so long as to make the subject of more interest to our great grandchilproperly covered with concrete, may be expected to last until the substitution of a yet more modern construction necessitates the removal of the | self-confident, hearty westerner. His building.

ROOM TO BREATHE.

A startling item of news comes from Manhattan. A recent report of the Commissioner of Education asserts that the average rate of increase in the number of births in New York has grown from five to eleven per hour; that is to say, there is one baby born about every five and one-half minutes. When one stops to consider that this is in New York alone, the appalling growth in population is brought home with convincing force. Added to this "home product" is the ever increasing number of immigrants from foreign lands, who swarm to our shores like flies to mo-

Naturally the question arises, where will these people who are so rapidly coming into the United States find room for growth and development? Surely not in the confines of the already overcrowded eastern states and cities, where every line of activity in the commercial and industrial world is woefully overrun with com-

No, we must look to the great Western section of our country, and particularly the Southwestern portion, for relief. The houndless acres of what has heretofore been arid and untenable land are fast being brought into a state of cultivation and production. In the great Southwest a man gets a chance to breathe. Here he does not absorb the smoke and dust of an over populated, unhealthy community with dren's children than to us. Steel, his every movement. He drops his quick and nervous gait, leaves behind his hunted look and naturally and readily assumes the easy air of the skin takes on a ruddy hue and his chest expands. His whole being makes a quick transition from a deplorable state of poor health and overstrained nerves to the full, vigorous freedom of the perfect man.

> The transportation lines which make it possible for the surplus population of the over-crowded East to seek new fields of enterprise at a cost within the reach of the most meager purse, are engaged in a humanitarian work. Thousands and thousands are availing themselves of the opportunity offered to go where health and happiness awaits them. The great tracts of fertile farming land in Oklahoma and Texas, the high and dry table lands of New Mexico and Arizona, the warm and sunny climate of Southern California, combine to form a vast sanitarium, whose doors are always open and whose capacity will not be appreciably taxed for a great many years to come. Those who are so unfortunate as to suffer from the invidious attacks of tuberculosis and other ailments of the flesh due to close confinement, will find in the climate of any of these localities a panacea for all their ills.

Daily we read in the papers advice to young men to go west. Very many many to be convinced. a young man. man, ever intends to migrate to these lands of promise and plenty, it behooves him to delay not a moment, for opportunities that will never return are daily passing into history.

Japan's Need of Korea.

Japan cannot afford to surrender Korea, says the World's Work. It is historically and of necessity the main artery of her vital connection with Asia. To yield Korea to a hostile power is to expose herself to peril along the whole western side of her territory. She needs Korea as a commercial outlet. She had both Korea and Manchuria as a result of the war with China, and has now surrendered one, and by far the larger and more profitable of these. She has struggled to lead China and Korea out into civilization. She now sees the Russian glacier slowly moving across both of them, walling her out from her natural destiny and barring before her any entrance to the continent of which she has dreamed that she was to be the savior.

Cheap Excursions to the South. On February 16, March 1 and 15, the Kansas City Southern railway will offer to the public the extremely low rate of \$10.00 for the round trip to all points on the Port Arthur Route, including Beaumont, Port Arthur, Lake Charles, Shreveport, Texarkana, Fort Smith, Mena, De Queen and all intermediate points. The return limit on these tickets will be twenty-one days from date of sale, with stopover privileges at all points south of Kansas City on the going trip. Any information desired by the public relative to these cheap excursions will be cheerfully furnished upon application to S. G. Warner, G. P. and T. A., Kansas

An Easy Way to Mend Lace Curtains. If there are holes too large to darn, take a piece of net as nearly like the curtain as possible, or cut a piece some discarded curtain. Dip it in starch water, lay it on the hole or worn place, and when nearly dry press with warm irons. The patch will remain until again laundered, and will not be discernible .-March Woman's Home Companion.

Particularly appropriate for the Easter season are the Mosaic Essays on Happiness, Success, Nature and Friendship, by Paul Elder (San Francisco). A compilation of quotations from many philosophers, selected and so arranged as to present the subject in its highest interpretation-messages of good cheer and encouragement. Each essay is richly printed and tastefully bound.

MOW TWO BEAUTIFUL WOMEN ESCAPED DREAD CATARRH BY USE OF PE-RU-NA.

Catarrh Robs Women of Health and Beauty. Pe-ru-na Makes Women Healthy and Beautiful.

Miss Amanda Johnson.

Miss Flora Hauser, 1032 S. New Jersey Street, Indianapolis, Ind., writes:

"I think I must have been troubled with catarrh ever since I was very young, aggravated each time I caught a cold. This did not prove sufficiently serious to be obnoxious until last winter. Then my head and nose were so stopped up that I felt I must do something. Peruna was recommended to me by a friend. I used it for four weeks and found to my relief that it cured me. I have not had a bit of trouble since. My head is clear, and I can safely affirm that Peruna cured me."--Miss Flora Hauser.

Hundreds of Women Cured by Pe-ru-na of Annoying Catarrh.

R. HARTMAN has probably done more than any other physician toward popularizing a means of escape from the facial deformities, such as watery eyes, twisted nose, offensive breath, dry cracked lips, due to the ravaging effects of catarrh.

He has made chronic catarra a life-long study. His remedy, popularly known as Peruna, is the most famous remedy for catarrh in existence.

Probably there is not a man or woman, boy or girl, within the bounds of the United States that has not heard of Peruna. By far the largest majority have

Miss Amanda Johnson, Fairchild, Wis., writes:

"I write to tell you how much Peruna benefited me. For

a number of years I had pain in my head around my eyes

and I thought it was because my eyes needed treatment,

so I went to an occulist and had glasses fitted to my eyes

and wore them for some time, but felt no relief whatever.

In fact, I felt worse than before, and came to the conclu-

sion that the trouble was not with my eyes, but with my

head and that it must be catarrh. As so many of my

friends had used Peruna with benefit for this trouble, I

thought I would try it. I was not sorry that I did so, for

in a short time I began to improve, and in four weeks my

eyes were in splendid condition, my general health was

much improved and all the catarrh of the head was gone.

I was glad to get rid of this trouble and am glad to endorse

such a good medicine as Peruna."-Miss Amanda Johnson.
